Maier,2017-09-08 In a wide ranging analysis of the drama of history the importance of ethnicity and Jewish identity these essays explore areas of political and cultural disciplines fused with elegance in the work of the late eminent sociologist Werner J Cahnman The prominence of the American and European historians philosophers geographers sociologists and anthropologists in this volume represents evidence of the wide effect that Cahnman s work had on scholars in a number of fields in academic work This volume will make timely and rewarding reading for social scientists and historians especially those concerned with the religious factor Contributors Joseph B Maier Chaim I Waxman Louis Dumont Karl Bosl K M Bolte Edmund Leites Lewis S Feuer Lester Singer Harriet D Lyons Andrew P Lyons Alvin Boskoff Nathan Glazer Irving Louis Horowitz Herbert A Strauss William Spinrad Calvin Goldscheider Saul B Cohen and Emmanuel Maier

Winners and Losers Irving Louis Horowitz,1984 Leading sociologist Irving Louis Horowitz examines the response social science has made to contemporary subjects and issues the so called new class of the intelligentsia the ecology movement social planning alienation privatization anomie the threat of nuclear war Horowitz evaluates as a social scientist the question of values those disclosed through analysis and those threatened by it and discusses the overall political and moral impact of knowledge and methodology in social science *Human Development and Faith (Second Edition)* Felicity B.

Kelcourse,2015-07-28 This book now in its second edition brings together the best available understandings of human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of context and life cycle development Human Development and Faith examines the interplay of mind body family community and soul at every stage of development It addresses two central questions What are the good enough conditions of parenting family and community in each phase of life from birth to death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface *National Library of Medicine Current Catalog*

Functioning Jay C. Thomas,Daniel L. Segal,2006-01-03 Personality and Everyday Functioning covers the foundations of personality theory and the impact of personality on normal functioning Leading personality researchers present chapters on

major theories of personality such as psychoanalytic developmental behavioral and constructivist to name a few Adult Personality Development Lawrence S. Wrightsman, 1994-03-15 This stimulating book and its companion volume Adult Personality Development Theories and Concepts reflect an expansion of the coverage of Wrightsman's initial book Personality Development in Adulthood The luxury of greater length has permitted an exploration of new topics including the use of a wider variety of sources including scholarly articles and books biographies and case studies Increased attention is devoted to creativity in adulthood to learning and memory to marriage stability and other topics The book provides a focus for a Psychology of Adulthood course that encourages students to look at the evolving nature of their own lives Particular attention is given to developing an extensive set of references over 700 in this volume as an aid to scholars Publisher description **Becoming A Family** Rena D. Harold, Patricia Stow Bolea, Lisa G. Colarossi, Lucy R. Mercier, Carol R. Freedman-Doan, 2014-04-08 The movement from young adulthood through coupling and the transition to parenthood may be among the most universal adult developmental transitions These passages hold interest for all of us but especially for those who study the psychological familial and sociocultural components of development all of which interact and influence each other This book enhances understanding of family life development by shedding light on the meanings that family members ascribe to the developmental process of becoming a family This is achieved through qualitative analysis of narratives through which individuals and families explain themselves their thinking and their behavior These family narratives are windows into individual and family identity as well as descriptions of connections to others The book addresses issues including identity child characteristics social support and work Each chapter includes a review of seminal literature parents comments and ideas about the topic and a discussion of practice policy and research implications **Coming of Age in Times of Uncertainty** Harry Blatterer, 2009-07 Adulthood is taken for granted It connotes the end of childhood the resolution to the storm and stress period of adolescence This conception is strongly entrenched in the sociology of youth and the sociology of the life course as well as in the policy arena At the same time adulthood itself remains unarticulated journey's end remains conceptually fixed and theoretically uncontested Adulthood then is both central to the social imagination and neglected as an area of sociological investigation something that has been noted by sociologists over the last four decades Going beyond the overwhelmingly psychological literature this book draws on original qualitative research and theories of social recognition and thus presents a first step towards filling an important gap in our understanding of the meaning of adulthood
