Detailing a variety of empirical methodologies and research methods, its chapters also consider reading in an array of contexts in various languages and using diverse media. Key issues addressed in the book include the complexity of sociocultural similarities and differences in young people's reading in international contexts; multilingual, bilingual and monolingual readers' experiences of reading; how young readers use a range of different print and digital media; how our understanding of the range of texts available to young readers and the different contexts of and purposes for reading can be enhanced through small-scale qualitative research.
