Readings In Philosophy Eastern Western Sources:

Readings in Philosophy George Cronk, Tobyn De Marco, Peter Dlugos, Paul Eckstein, 2004 Ethical Leadership Robert M. McManus, Stanley J. Ward, Alexandra K. Perry, 2023-09-06 The world cries out for ethical leaders We expect the best but we are often left profoundly disappointed While leadership programs may feature ethics as part of their curriculum the approach is often either simplistic or overly esoteric This second edition addresses this scarcity of resources for training ethical leaders providing a primer of several ethical frameworks accompanied by extended examples to help inform decision making It also addresses several leadership models that claim an ethical component The new edition also includes new chapters on the ethics of care and toxic leadership and new case studies for all chapters By providing a consistent case analysis based on the Five Components of Leadership Model readers benefit from a comprehensive approach to understanding ethical leadership **Religious Studies Scholars as Public Intellectuals** Sabrina D.

MisirHiralall, Christopher L. Fici, Gerald S. Vigna, 2018-06-13 The prominence of religion in recent debates around politics identity formation and international terrorism has led to an increased demand on those studying religion to help clarify and contextualise religious belief and practice in the public sphere While many texts focus on the theoretical development of the subject this book outlines a wider application of these studies by exploring the role of religious studies scholars and theologians as public intellectuals This collection of essays first seeks to define exactly what makes an intellectual public It then goes on to deal with a few questions of concern How do public intellectuals construct knowledge in religious and theological scholarship What is the link between public intellectuals of higher education and their role in society Do higher education institutions have a responsibility to endorse public intellectualism Looking at the individual and collective role of religious studies scholars and theologians in public life this book will be of great interest to all scholars and academics involved in religious studies and theology across the academy Orthodox Readings of Aquinas Marcus Plested, 2012-11 The foremost Roman Catholic theologian of the middle ages Thomas Aquinas was hugely popular in the last days of the Orthodox Byzantine Empire in contrast to his largely negative reception by later Orthodox commentators This book is the first to explore the long history of Orthodox fascination with Aquinas Eastern Influences on Western Philosophy A. L. Macfie, 2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers

Encyclopedia of Asian Philosophy Oliver Leaman, 2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on endtemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not

merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems A Guide to Philosophical Bibliography and Research Richard T. De George,1971 **Methods of Doing Eastern Philophies** Chanh Phan, **Death, Contemplation and Schopenhauer** R. Raj Singh,2016-05-13 The connections between death contemplation and the contemplative life have been a recurrent theme in the canons of both western and eastern philosophical thought This book examines the classical sources of this philosophical literature in particular Plato s Phaedo and the Katha Upanishad and then proceeds to a sustained analysis and critical assessment of the sources and standpoints of a single thinker Arthur Schopenhauer whose work comprehensively pursues this problem Going beyond the well examined western influences on Schopenhauer Singh offers an in depth account of Schopenhauer s references to eastern thought and a comprehensive examination of his eastern sources particularly Vedanta and Buddhism The book traces the pivotal issue of death through the whole range of Schopenhauer s writings uncovering the deeper connotations of his crucial notion of the will to live **Directory of Graduate and Undergraduate Programs and Courses in Middle East Studies in the United States, Canada and Abroad** ,1976
