Ritual Sacrifice in Ancient Peru Elizabeth P. Benson, Anita G. Cook, 2001-07-15 Propitiating the supernatural forces that could grant bountiful crops or wipe out whole villages through natural disasters was a sacred duty in ancient Peruvian societies as in many premodern cultures Ritual sacrifices were considered necessary for this propitiation and for maintaining a proper reciprocal relationship between humans and the supernatural world The essays in this book examine the archaeological evidence for ancient Peruvian sacrificial offerings of human beings animals and objects as well as the cultural contexts in which the offerings occurred from around 2500 B C until Inca times just before the Spanish Conquest Major contributions come from the recent archaeological fieldwork of Steve Bourget Anita Cook and Alana Cordy Collins as well as from John Verano s laboratory work on skeletal material from recent excavations Mary Frame who is a weaver as well as a scholar offers rich new interpretations of Paracas burial garments and Donald Proulx presents a fresh view of the nature of Nasca warfare Elizabeth Benson s essay provides a summary of sacrificial practices      Ritual Sacrifice in Ancient Peru Elizabeth P. Bauer, Charles Stanish, 2001-06-01 The Islands of the Sun and the Moon in Bolivia s Lake Titicaca were two of the most sacred locations in the Inca empire A pan Andean belief held that they marked the origin place of the Sun and the Moon and pilgrims from across the Inca realm made ritual journeys to the sacred shrines there In this book Brian Bauer and Charles Stanish explore the extent to which this use of the islands as a pilgrimage center during Inca times was founded on and developed from earlier religious traditions of the Lake Titicaca region Drawing on a systematic archaeological survey and test excavations in the islands as well as data from historical texts and ethnography the authors document a succession of complex polities in the islands from 2000 BC to the time of European contact in the 1530s AD They uncover significant evidence of pre Inca ritual use of the islands which raises the compelling possibility that the religious significance of the islands is of great antiquity The authors also use these data to address broader anthropological questions on the role of pilgrimage centers in the development of pre

modern states      **Handbook of South American Archaeology** Helaine Silverman, William Isbell, 2008-04-06 Perhaps the contributions of South American archaeology to the larger field of world archaeology have been inadequately recognized. If so, this is probably because there have been relatively few archaeologists working in South America outside of Peru, and recent advances in knowledge in other parts of the continent are only beginning to enter larger archaeological discourse. Many ideas of and about South American archaeology held by scholars from outside the area are going to change irrevocably with the appearance of the present volume. Not only does the *Handbook of South American Archaeology* (HSA) provide immense and broad information about ancient South America, the volume also showcases the contributions made by South Americans to social theory. Moreover, one of the merits of this volume is that about half the authors (30) are South Americans, and the bibliographies in their chapters will be especially useful guides to Spanish and Portuguese literature as well as to the latest research. It is inevitable that the HSA will be compared with the multi-volume *Handbook of South American Indians* (HSAI) with its detailed descriptions of indigenous peoples of South America that was organized and edited by Julian Steward. Although there are heroic archaeological essays in the HSAI by the likes of Junius Bird, Gordon Willey, John Rowe, and John Murra, Steward states frankly in his introduction to Volume Two that archaeology is included by way of background to the ethnographic chapters.

*Sacrifice, Violence, and Ideology Among the Moche* Steve Bourget, 2016-05-03 In a special precinct dedicated to ritual sacrifice at Huaca de la Luna on the north coast of Peru, about seventy-five men were killed and dismembered; their remains and body parts were then carefully rearranged and left on the ground with numerous offerings. The discovery of this large sacrificial site, one of the most important sites of this type in the Americas, raises fundamental questions: Why was human sacrifice so central to Moche ideology and religion? And why is sacrifice so intimately related to the notions of warfare and capture? In this pioneering book, Steve Bourget marshals all the currently available information from the archaeology and visual culture of Huaca de la Luna as he seeks to understand the centrality of human sacrifice in Moche ideology and more broadly the roles of violence in the development of social complexity. He begins by providing a fully documented account of the archaeological contexts, demonstrating how closely interrelated these contexts are to the rest of Moche material culture, including its iconography, the regalia of its elite, and its monumental architecture. Bourget then probes the possible meanings of ritual violence and human sacrifice and their intimate connections with concepts of divinity, ancestry, and foreignness. He builds a convincing case that the iconography of ritual violence and the practice of human sacrifice at all the principal Moche ceremonial centers were the main devices used in the establishment and development of the Moche state.

*The Taking and Displaying of Human Body Parts as Trophies by Amerindians* Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America. The editors and contributors, which include Native Peoples from both continents, examine the evidence and causes of Amerindian trophy taking. Additionally, they present objectively and discuss dispassionately the topic

of human proclivity toward ritual violence This book fills the gap in literature on this subject The Art and Archaeology of the Moche Steve Bourget, Kimberly L. Jones, 2009-06-03 Renowned for their monumental architecture and rich visual culture the Moche inhabited the north coast of Peru during the Early Intermediate Period AD 100 800 Archaeological discoveries over the past century and the dissemination of Moche artifacts to museums around the world have given rise to a widespread and continually increasing fascination with this complex culture which expressed its beliefs about the human and supernatural worlds through finely crafted ceramic and metal objects of striking realism and visual sophistication In this standard setting work an international multidisciplinary team of scholars who are at the forefront of Moche research present a state of the art overview of Moche culture The contributors address various issues of Moche society religion and material culture based on multiple lines of evidence and methodologies including iconographic studies archaeological investigations and forensic analyses Some of the articles present the results of long term studies of major issues in Moche iconography while others focus on more specifically defined topics such as site studies the influence of El Ni o Southern Oscillation on Moche society the nature of Moche warfare and sacrifice and the role of Moche visual culture in decoding social and political frameworks Archaeological and Ethnographic Evidence of Domination in Indigenous Latin America Yamillette Chacon, Richard J. Chacon, 2023-07-11 This volume explores the nature of power relations and social control in Indigenous societies of Latin America as reflected in archaeological osteological and ethnohistorical records **The Oxford Handbook of the Archaeology of Childhood** Sally Elizabeth Ellen Crawford, Dawn M. Hadley, Gillian B. Shepherd, 2018 In this volume experts from around the world investigate childhood in the past showing why it is important to understand childhood why different cultures construct different ideas of how to rear children what part children play in the community and when and why childhood ends **Ritual Violence in the Ancient Andes** Haagen D. Klaus, J. Marla Toyne, 2016-07-26 Traditions of sacrifice exist in almost every human culture and often embody a society s most meaningful religious and symbolic acts Ritual violence was particularly varied and enduring in the prehistoric South American Andes where human lives animals and material objects were sacrificed in secular rites or as offerings to the divine Spectacular discoveries of sacrificial sites containing the victims of violent rituals have drawn ever increasing attention to ritual sacrifice within Andean archaeology Responding to this interest this volume provides the first regional overview of ritual killing on the pre Hispanic north coast of Peru where distinct forms and diverse trajectories of ritual violence developed during the final 1 800 years of prehistory Presenting original research that blends empirical approaches iconographic interpretations and contextual analyses the contributors address four linked themes the historical development and regional variation of north coast sacrifice from the early first millennium AD to the European conquest a continuum of ritual violence that spans people animals and objects the broader ritual world of sacrifice including rites both before and after violent offering and the use of diverse scientific tools archaeological information and theoretical interpretations to study sacrifice This research proposes a wide range of new

questions that will shape the research agenda in the coming decades while fostering a nuanced scientific and humanized approach to the archaeology of ritual violence that is applicable to archaeological contexts around the world *Human Sacrifice and Value* Matthew J. Walsh, Sean O'Neill, Marianne Moen, Svein H. Gullbekk, Eva-Johanna Marie Lafuente Nilsson, 2023-10-26 The present volume was made possible by the Norwegian Research Council's generous funding of the Human Sacrifice and Value project FRIPROHUMSAM 275947 This volume explores concepts of human sacrifice focusing on its value or multiplicity of values in relative cultural and temporal terms whether sacrifice is expressed in actual killings in ideas revolving around ritualized sanctioned or sanctified violence or loss or in transformed and often sublimated undertakings Bridging a wide variety of interdisciplinary perspectives it analyses a spectrum of sacrificial logics and actions daring us to rethink the scholarship of sacrifice by considering the oft hidden subliminal and even paradoxical values and motivations that underlie sacrificial acts The chapters give needed attention to pivotal questions in studies of sacrifice and ritualized violence such as how we might employ new approaches to the existing evidence or revise long debated theories about what exactly human sacrifice is or might be or why human sacrifice seems to emerge so often and so easily in human social experience across time and in vastly different cultures and historical contexts Thus the volume will strike a chord with scholars of sociology anthropology archaeology history religious studies political science and economics wherever interest is focused on critically rethinking questions of sacred and sanctified human violence and the values that make it what it is

*The Routledge Handbook of the Bioarchaeology of Human Conflict* Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in *The Routledge Handbook of the Bioarchaeology of Human Conflict* present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development **The Global History of**

**Paleopathology** Jane E. Buikstra, Charlotte Roberts, 2012-06-07 The first comprehensive global history of the discipline of paleopathology *The Archaeology of Andean Pastoralism* José M. Capriles, Nicholas Tripcevich, 2016-05-01 In this book leading experts uncover and discuss archaeological topics and themes surrounding the long term trajectory of camelid llama

and alpaca pastoralism in the Andean highlands of South America The chapters open up these studies to a wider world by exploring the themes of intensification of herding over time animal human relationships and social transformations as well as navigating four areas of recent research the origins of domesticated camelids variation in the development of pastoralist traditions ritual and animal sacrifice and social interaction through caravans Andeanists and pastoral scholars alike will find this comprehensive work an invaluable contribution to their library and studies *Us and Them* Richard Martin

Reycraft,2005-05-01 This volume brings together a corpus of scholars whose work collectively represents a significant advancement in the study of prehistoric ethnicity in the Andean region The assembled research represents an outstanding collection of theoretical and methodological approaches and conveys recent discoveries in several subfields of prehistoric Andean anthropology including spatial archaeology mortuary archaeology textile studies ceramic analysis and biological anthropology Many of the authors in this volume apply novel research techniques while others wield more established approaches in original ways Although the research presented in this volume has occurred in the Andean region many of the novel methods applied will be applicable to other geographic regions and it is hoped that this research will stimulate others to pursue future innovative work in the prehistoric study of ethnic identification **Rituals of the Past** Silvana

Rosenfeld,Stefanie Bautista,2017-04-01 Rituals of the Past explores the various approaches archaeologists use to identify ritual in the material record and discusses the influence ritual had on the formation reproduction and transformation of community life in past Andean societies A diverse group of established and rising scholars from across the globe investigates how ritual influenced permeated and altered political authority economic production shamanic practice landscape cognition and religion in the Andes over a period of three thousand years Contributors deal with theoretical and methodological concerns including non human and human agency the development and maintenance of political and religious authority ideology cosmologies and social memory and relationships with ritual action The authors use a diverse array of archaeological ethnographic and linguistic data and historical documents to demonstrate the role ritual played in prehispanic colonial and post colonial Andean societies throughout the regions of Peru Chile Bolivia and Argentina By providing a diachronic and widely regional perspective Rituals of the Past shows how ritual is vital to understanding many aspects of the formation reproduction and change of past lifeways in Andean societies Contributors Sarah Abraham Carlos Angiorama Florencia Avila Camila Capriata Estrada David Chicoine Daniel Contreras Matthew Edwards Francesca Fernandini Matthew Helmer Hugo Ikehara Enrique Lopez Hurtado Jerry Moore Axel Nielsen Yoshio Onuki John Rick Mario Ruales Koichiro Shibata Hendrik Van Gijseghem Rafael Vega Centeno Verity Whalen *Gallinazo* Jean-Francois Millaire,Magali Morlion,2009-12-31 Over the last decades considerable effort has been directed towards the study of early complex societies of northern Peru and in recent years archaeologists have expressed a strong interest in the art and archaeology of the Moche Lambayeque and Chimú societies Yet comparatively little attention has been paid to the earlier cultural foundations of north

coast civilization the Gallinazo In the recent years however the work of a number of north coast specialists brought about a large quantity of data on the Gallinazo occupation of the coast but a coherent framework for studying this culture had yet to be defined The present volume is the result of a round table which gathered some thirty scholars from Europe and North and South America to discuss the Gallinazo phenomenon In fourteen chapters authors with different perspectives and backgrounds reconsider the nature of the Gallinazo culture and its position within north coast cultural history while addressing wider issues about the development of complex societies in this area and within the Andean region in general The contributions reveal a diversity of perspectives on north coast archaeology something that is likely to stimulate methodological and theoretical debates among Andeanists pre Columbian specialists and New World archaeologists in general

Heads of State Denise Y Arnold,Christine A Hastorf,2016-07-01 The human head has had important political ritual and symbolic meanings throughout Andean history Scholars have spoken of captured and trophy heads curated crania symbolic flying heads head imagery on pots and on stone head shaped vessels and linguistic references to the head In this synthesizing work cultural anthropologist Denise Arnold and archaeologist Christine Hastorf examine the cult of heads in the Andes past and present to develop a theory of its place in indigenous cultural practice and its relationship to political systems Using ethnographic and archaeological fieldwork highland lowland comparisons archival documents oral histories and ritual texts the authors draw from Marx Mauss Foucault Assadourian Viveiros del Castro and other theorists to show how heads shape and symbolize power violence fertility identity and economy in South American cultures
