Global Trade, Smuggling, and the Making of Economic Liberalism Felicia Gottmann, 2016-05-19 Imported from India China the Levant and Persia and appreciated for their diversity designs fast bright colours and fine weave Asian textiles became so popular in France that in 1686 the state banned their import consumption and imitation A fateful decision This book tells the story of smuggling on a vast scale savvy retailers and rebellious consumers It also reveals how reformers in the French administration itself sponsored a global effort to acquire the technological know how necessary to produce such textiles and how the vitriolic debates surrounding the eventual abolition of the ban were one of the decisive moments in the development of Enlightenment economic liberalism *Teaching World History in the Twenty-first Century: A Resource Book* Heidi Roupp, 2015-02-12 This practical handbook is designed to help anyone who is preparing to teach a world history course or wants to teach it better It includes contributions by experienced teachers who are reshaping world history education and features new approaches to the subject as well as classroom tested practices that have markedly improved world history teaching Making Empire Jane Ohlmeyer, 2023 Ireland was England's oldest colony Making Empire revisits the history of empire in Ireland in a time of Brexit the culture wars and the campaigns around Black Lives Matter and Statues must fall to better understand how it has formed the present and how it might shape the future Empire and imperial frameworks policies practices and cultures have shaped the history of the world for the last two millennia It is nation states that are the blip on the historical horizon Making Empire re-examines empire as process and Ireland's role in it through the lens of early modernity It covers the two hundred years between the mid sixteenth century and the mid eighteenth century that equate roughly to the timespan of the First English Empire c 1550 c 1770s Ireland was England's oldest colony How then did the English empire actually function in early modern Ireland and how did this change over time What did access to European empires mean for people living in Ireland This book answers these questions by interrogating four interconnected themes First that Ireland formed an integral part of the English imperial system Second that the Irish operated as agents of empire's Third Ireland served as laboratory in and for the English empire Finally it examines the impact that empire's had on people living in early modern Ireland Even though the book's focus will be on Ireland and the English empire the Irish were trans-imperial and engaged with all of the early modern imperial powers It is therefore critical where possible and appropriate to look to other European and global empires for meaningful comparisons and connections in this era of expansionism What becomes clear is that colonisation was not a single occurrence but an iterative and durable process that impacted different parts of Ireland at different times and in different ways That imperialism was about the exercise of power violence coercion and expropriation Strategies about how best to turn conquest into profit to mobilise and control Ireland's natural resources especially land and labour varied but the reality of everyday life did not change and provoked a wide variety of responses ranging from acceptance and assimilation to resistance This book based on the 2021 James Ford Lectures Oxford University

suggests that the moment has come to revisit the history of empire if only to better understand how it has formed the present and how this might shape the future

The Anglo-Dutch Wars of the Seventeenth Century J.R. Jones, 2013-11-26 This study of the Anglo Dutch Wars 1652-54, 1665-67, 1672-74 sets them in their naval, political and economic contexts. Competing essentially over trade, both governments were crucially influenced by mercantile interests and by the representative institutions that were central to England and the Dutch Republic. Professor Jones compares the effectiveness of the governments under pressure: English with Dutch Commonwealth with restored monarchy, Republican with Orangist, and the effects on their economies and examines the importance of the wars in accelerating the formation of a professional officer corps and establishing battle tactics that would endure throughout the age of sail

The Survival of Empire G. B. Souza, George Bryan Souza, 2004-07-08 In this original study of the Portuguese Empire in the East, the *Estado da India*, George Souza looks in detail at the activities of Macao. His aim is to enquire into the nature of Portuguese society in China and the South China Sea and explain why the political and economic activities of the Portuguese crown did not inhibit the growth of local entrepreneurial trade. He also examines the nature of Portuguese maritime trade in Asia and analyses the focal role of Macao as an adjunct to the Canton market. The operations of Portuguese private merchants, the so-called country traders, are described and tellingly assessed in the wider context of the economic development of China and Southeast Asia in the seventeenth and eighteenth centuries

Mr. Smith Goes to China Jessica Hanser, 2019-07-23 An account of eighteenth-century global commerce as seen through the lives of three Scottish traders, written with verve and filled with arresting details. Tonio Andrade, author of *The Gunpowder Age*. This book delves into the lives of three Scottish private traders: George Smith of Bombay, George Smith of Canton, and George Smith of Madras, and uses them as lenses through which to explore the inner workings of Britain's imperial expansion and global network of trade, revealing how an unstable credit system and a financial crisis ultimately led to greater British intervention in India and China. This book is a history of British seafaring and imperialism, written largely from a micro-level perspective, placing the focus on individual traders rather than the East India Company as a whole. But it is not only an imperial history. It also unravels the interwoven financial, political, and social relations between Britain, China, and India in the eighteenth century. Hanser has consulted an impressively wide range of archival sources in different languages and located in various countries, from private letters to periodicals and from official Chinese documents to East India Company reports. Her work contributes to our understanding of 18th-century British imperial history.

[Renascent Empire?](#) Glenn Joseph Ames, 2000 Dit boek is gebaseerd op uitgebreid onderzoek in archieven in Portugal, India, Engeland en Frankrijk en is de eerste monografische studie van een cruciale maar tot nog toe weinig bestudeerde periode in de geschiedenis van Portugals Aziatische rijk, de jaren 1640-1683. Ames' revisionistische werk laat zien dat in tegenstelling tot het traditionele beeld van onvermijdelijk verval en stagnatie in het *Estado da India* na 1640 deze jaren een vernieuwende en dynamische hervorming laten zien die de geopolitieke en

economische stabilisatie van Portugees Azië rond 1683 tot gevolg hadden Glenn Ames gaat in op de details van deze fundamentele verandering in het koloniale beleid jegens Azië zoals dat werd geïnitieerd door prins Regent Pedro van Braganza 1668-1702 en later zeer effectief in praktijk werd gebracht door Viceroy Luis de Medon e Albuquerque

Across The Green Sea Sanjay Subrahmanyam, 2024-07-02 Beginning in the mid fifteenth century the regions bordering the western Indian Ocean the green sea as it was known to Arabic speakers underwent vast transformation An era of commercial and cultural exchange blossomed between the Red Sea and Mecca the Persian Gulf East Africa Kerala and western India In *Across the Green Sea* Sanjay Subrahmanyam recounts the history of this ocean from a variety of shifting viewpoints He sets the scene with the withdrawal of China's Ming Dynasty and explores how the western Indian Ocean was transformed by the growth and increasing prominence of the Ottoman Empire and the continued spread of Islam into East Africa He examines how several cities including Mecca and the vital Indian port of Surat grew and changed during these centuries when various powers interacted until famines and other disturbances upended the region in the seventeenth century Rather than proposing an artificial model of a dominant centre and its dominated peripheries *Across the Green Sea* reveals the complexity of a truly dynamic and polycentric system through the use of connected histories a method which he has pioneered
