*Rival Hypotheses* Schuyler W. Huck, Howard M. Sandler, 1979      *Companion Encyclopedia of Psychology* Andrew M. Colman, 2019-04-08 Psychology plays an increasingly important role in today's society. Its influence can be seen all around us: be it in the home, the workplace, the school, or our private lives. A uniquely diverse discipline, it ranges from social psychology to biological aspects of behaviour and from basic research to the applied professions. This Companion Encyclopedia covers all these main branches of psychological research and professional practice. The thematic arrangement is the result of the Editor's extensive research into syllabi from which he distilled the 13 most frequently taught units. Students can consult and be referred to sections relating to their lecture programme and can find lucid definitions of frequently used terms in the Glossary. Headings and sub-headings are clearly highlighted at the beginning of each chapter, ideal for quick reference. Provides authoritative and in-depth reference material on all major branches of psychological research and professional practice. Contributors include many of the world's most eminent psychologists. Written in a lively style without assuming previous knowledge of the subject. Structured according to the core topics appearing most often as discrete modules in contemporary psychology courses. Detailed bibliographies, further reading sections, exhaustive index and glossary of technical terms. Containing 165 supporting illustrations.

**Untamed Leadership** Brent A. Carter, 2011 Instincts shape who we are as leaders. They encapsulate the social variety we exhibit to others, from the servant to the tyrant. Though they are integrated into our every thought and deed, we are relatively unaware of what they are or how they impact us. Perhaps the frenzied lives we lead are to blame, or maybe we spend too much time developing the veneer of leadership rather than excavating its core substance. No matter the cause, each day we are presented opportunities to make differences in the lives we touch. As we awaken to the reality that who we are on the inside has a direct role in what we project on the outside, we will have begun the process of apprehending Untamed Leadership.
