The Doing of the Thing Vince Welch, Cort Conley, Brad Dimock, 2004-08 **Canyoneering** John Annerino, 1999 Discusses the natural history geography and geology of canyons and offers advice on hiking rappelling and rafting as well as how to train for an expedition **Grand Canyon, A Century of Change** Robert H. Webb, 2021-11-30 Photographs made in Grand Canyon a century ago may provide us today with a sense of history photographs made a century later from the same vantage points give us a more precise picture of change in this seemingly timeless place Between 1889 and 1890 Robert Brewster Stanton made photographs every 1 2 miles through the river corridor for the purpose of planning a water level railroad route and produced the largest collection of photographs of the Colorado River at one point in time Robert Webb a USGS hydrologist conducting research on debris flows in the Canyon obtained the photographs and from 1989 to 1995 replicated all 445 of the views captured by Stanton matching as closely as possible the original camera positions and lighting conditions Grand Canyon a Century of Change assembles the most dramatic of these paired photographs to demonstrate both the persistence of nature and the presence of humanity Unexpected longevity of some plant species effects of animal grazing and expansion of cacti are all captured by the replicate photographs More telling is evidence of the impact of Glen Canyon Dam

increased riparian vegetation new marshes aggraded debris fans and eroded sand bars In the accompanying text Webb provides a thorough analysis of what each pair of photographs shows and places the project in its historical context Complementing his narrative are six sidebar articles by authorities on Canyon natural history that further attest to a century of change The level of detail obtained from the photographs represents one of the most extensive long term monitoring efforts ever conducted in a national park it is the most detailed documentation effort ever performed using repeat photography Much more than simply a picture book *Grand Canyon a Century of Change* is an environmental history of the river corridor a fascinating book that clearly shows the impact of human influence on Grand Canyon and warns us that its future is very much in our hands *A River Running West* Donald Worster, 2002-11-28 If the word hero still belonged in the historian's lexicon it would certainly be applied to John Wesley Powell Intrepid explorer careful scientist talented writer and dedicated conservationist Powell led the expedition that put the Colorado River on American maps and revealed the Grand Canyon to the world Now comes the first biography of this towering figure in almost fifty years a book that captures his life in all its heroism idealism and ambivalent ambiguous humanity In *A River Running West* Donald Worster one of our leading Western historians tells the story of Powell's great adventures and describes his historical significance with compelling clarity and skill Worster paints a vivid portrait of how this man emerged from the early nineteenth century world of immigrants fervent religion and rough and tumble rural culture and barely survived the Civil War battle at Shiloh The heart of Worster's biography is Powell's epic journey down the Colorado in 1869 a tale of harrowing experiences lethal accidents and breathtaking discoveries After years in the region collecting rocks and fossils and learning to speak the local Native American languages Powell returned to Washington as an eloquent advocate for the West one of America's first and most influential conservationists But in the end he fell victim to a clique of Western politicians who pushed for unfettered economic development relegating the aging explorer to a quiet life of anthropological contemplation John Wesley Powell embodied the energy optimism and westward impulse of the young United States *A River Running West* is a gorgeously written magisterial account of this great American explorer and environmental pioneer a true story of undaunted courage in the American West **Grand Canyon**, 2006 Ann Zwinger plumbs the very soul of this majestic place exploring the deserts along the Colorado's banks in order to examine things that often go unnoticed against a backdrop of overwhelming grandeur Whether drawing our attention to a newly unfurled evening primrose a ladybug at work on a leaf full of aphids or the amazing appearance of a humpback chub slipping through the water like a pewter ghost she opens a new window on the Canyon at river level to show us that small things of overpowering beauty can be found in a place whose intrinsic splendor is nothing less than staggering **Grand Canyon National Park: The Complete Guide** James Kaiser, 2023-09-05 Discover the best of Grand Canyon National Park in this award winning full color travel guidebook Over 300 five star reviews for previous editions From hiking to biking to river rafting Grand Canyon National Park is filled with adventures But without
