Border Crossings Thomas Fox, 2025-10-01 *Border Crossings* is an accessible and comprehensive overview of the work of prose fiction writers in what was the German Democratic Republic Thomas C Fox introduces readers to the best and most important East German writers among them Christa Wolf Jurek Becker Anna Seghers Stefan Heym and Franz F hmann restricting his study to work that is available in English translation so that readers who do not know German will be able to read for themselves the literature he discusses During a period of forty years writers in the German Democratic Republic struggled with increasing success to free themselves from a smothering and paternalistic governmental embrace thus anticipating and helping to constitute the events of 1989 In its relentless interrogation of the status quo in its persistent ability to create alternatives and in its call for more openness literature in East Germany served as an outlet for energies and ideas that might have been channeled in the West into politics philosophy or journalism In addition to discussing the role that literature played in shaping historical events Fox shows that it can be appreciated simply as literature outside of its political contexts

Free Action Andrew Wright Hurley, 2025-07-31 Advancing the New Jazz Studies by focusing on questions of intermediality and cultural catalysis this book demonstrates the role jazz played in the re making of West German culture in the post war era The shadow of National Socialism a history of German polarisation by jazz and the influences of occupation and division meant that jazz catalysed influential young creative artists These included writers such as Nobel Laureate G nter Grass Young German Cinema filmmakers like Hansj rgen Pohland and abstract visual artists like KRH Sonderborg Jazz provided an impulse to take

into extra musical artforms and an impetus to reflect on what art and culture were. Through considering poetry the novel photography film and television graphic design and the fine arts this volume reveals how German creatives were influenced not only by American jazz culture but also by cultural innovations from elsewhere and by German traditions they considered less compromised by the Nazi era. The book also explores the limits of this catalysis examining for example how African Americans received the German representation of jazz culture. Written in an accessible style this important contribution to New Jazz Studies and German Studies scholarship will appeal to both graduate and undergraduate students or researchers in the fields of jazz history twentieth century musicology and European or German cultural studies. **Rereading East**
