issuance of communiques from his headquarters that related a grueling World War II campaign of more than a thousand days as Allied forces fought a relentless enemy from the northern shores of Australia to the heart of Manila. Never before available in print, this volume of communiques brings to life the regular updates issued to a public anxious for news of the great advance across the Southwest Pacific. These daily pronouncements present not only a record of the campaign but also a master class of public relations management as MacArthur attempted to portray himself as the great hero deserving of enduring fame regardless of the truth prevailing on the battlefield.

*The Origins of World War Two* Robert Boyce, Joseph A. Maiolo, 2017-03-14

No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War. A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates. Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen. His wide ranging collection of original essays, each by an international expert in their field, covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war. Going beyond the usual Eurocentric approach, Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia, Poland and China. Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country. These themes include the role of ideology, propaganda, intelligence, armaments, economics, diplomacy, the neutral states, peace movements and the social science approach to war. Written in clear jargon-free prose, together these essays provide a comprehensive single-volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two.

With the 41st Division in the Southwest Pacific Francis B. Catanzaro, 2002-10-24

We began our advance toward the Mokmer Airstrip. The road climbed a ridge 15 or 20 feet high and we found ourselves on a flat coral plateau sparsely covered by small trees and scrub growth. As we moved westward along the road, two of our destroyers were sailing abreast of the lead elements of the advancing column. The first indication of trouble was the roar of heavy artillery shells sailing over our heads aimed at our destroyers. Shortly after that, our forward movement stopped and we heard heavy firing from the head of the column. As we waited, we began to hear heavy fire from the rear. We were cut off and surrounded. In the enormous literature of the Second World War, there are surprisingly few accounts of fighting in the Southwest Pacific; fewer still by common infantrymen. This memoir, written with a simple and direct honesty that is rare indeed, follows a foot soldier's career from basic training to mustering out. It takes the reader into the jungles and caves of New Guinea and the Philippines during the long campaign to win the war against Japan. From basic training at Camp Roberts through combat, occupation and the long journey home, Francis Catanzaro's account tells of the excitement, misery, cruelty and terror of combat and of the uneasy boredom of jungle camp life. A member of the famed 41st Infantry Brigade, the Jungleers, Catanzaro saw combat at Hollandia.

Biak Zamboanga and Mindanao He was a part of the Japanese occupation force and writes with feeling about living among his former enemies and of the decision to drop the atom bomb With the 41st Division in the Southwest Pacific is a powerful gritty and moving narrative of the life of a soldier during some of the most difficult fighting of World War II **Kamikaze Destroyer** Jeff Veesenmeyer, 2014-06-07 Merriam Press Naval History NH3 First Edition 2014 History of the USS Hugh W Hadley DD774 which shot down more Japanese kamikaze aircraft than any other U S Navy ship during the battle for Okinawa in 1945 This new book by a relative of a crew member killed that day off Okinawa tells the story of the ship and that fateful day through the words of many of the survivors which the author interviewed This is not just a story about a ship but about the men that made that ship a legend in the annals of U S Navy history 9 appendices bibliography 112 B W photos 6 illustrations 6 maps color painting History of U.S. Marine Corps Operations in World War II.: Western Pacific operations United States. Heller, William A. Stofft, 1986 This volume a collection of eleven original essays by many of the foremost U S military historians focuses on the transition of the Army from parade ground to battleground in each of nine wars the United States has fought Through careful analysis of organization training and tactical doctrine each essay seeks to explain the strengths and weaknesses evidenced by the outcome of the first significant engagement or campaign of the war The concluding essay sets out to synthesize the findings and to discover whether or not American first battles manifest a characteristic rhythm

America's First Battles provides a novel and intellectually challenging view of how America has prepared for war and how operations and tactics have changed over time. The thrust of the book, the emphasis on operational history, is at the forefront of scholarly activity in military history. **The Geography of Injustice** Barak Kushner, 2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day. In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire. At its conclusion one of the judges voiced dissent, claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge. War crimes tribunals, Kushner shows, allow for the history of the defeated to be heard. In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate. The Tokyo Trial courtroom, as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia, were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two. These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region. The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption. *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war, East Asia is more divided than united by history. **All Hands**, 1945
