Brady, 2012-04-09 Why American democracy favors the affluent and educated Politically active individuals and organizations make huge investments of time energy and money to influence everything from election outcomes to congressional subcommittee hearings to local school politics while other groups and individual citizens seem woefully underrepresented in our political system The Unheavenly Chorus is the most comprehensive and systematic examination of political voice in America ever undertaken and its findings are sobering The Unheavenly Chorus is the first book to look at the political participation of individual citizens alongside the political advocacy of thousands of organized interests membership associations such as unions professional associations trade associations and citizens groups as well as organizations like corporations hospitals and universities Drawing on numerous in depth surveys of members of the public as well as the largest database of interest organizations ever created representing more than thirty five thousand organizations over a twenty five year period this book conclusively demonstrates that American democracy is marred by deeply ingrained and persistent class based political inequality The well educated and affluent are active in many ways to make their voices heard while the less advantaged are not This book reveals how the political voices of organized interests are even less representative than those of individuals how political advantage is handed down across generations how recruitment to political activity perpetuates and exaggerates existing biases how political voice on the Internet replicates these inequalities and more In a true democracy the preferences and needs of all citizens deserve equal consideration Yet equal consideration is only possible with equal citizen voice The Unheavenly Chorus reveals how far we really are from the democratic ideal and how hard it would be to attain it      **From Anarchy to Power** Wendy Grossman, 2001-04-01 Yesterday's battles over internet turf were fought on the net itself today's battles are fought in government committees in Congress on the stock exchange and in the marketplace What was once an experimental ground for electronic commerce is now the hottest part of our economic infrastructure In From Anarchy to Power Wendy Grossman explores the new dispensation on the net and tackles the questions that trouble every online user How vulnerable are the internet and world wide web to malicious cyber hackers What are the limits of privacy online How real is internet addiction and to what extent is the news media responsible for this phenomenon Are women and minorities at a disadvantage in cyberspace How is the increasing power of big business changing internet culture We learn about the political economy of the internet including issues of copyright law corporate

In Every Country Today We Confront A Host Of Stubborn Problems: Violent Crime, Drug Abuse, Budgetary Constraints, Crumbling Roads, Traffic Congestion, Pollution. Every Community Is Facing Serious Problems. The Problems Differ From Place To Place. But The Most Serious Problem Of All, However, Is Different. It Is The Inadequacy Of The Institutional Mechanisms We Rely On For Making Public Decisions. Government, Our Biggest Institutional Mechanism, Has Failed To Generate Effective Public Responses To The Problems Troubling Us. Anyone Who Tries To Re-Think Government Is Embarking On A Truly Daunting Process. Because Government Is Such A Complex, Multi-Faceted Institution With So Many Relationships And Responsibilities From Defense To Commerce, Civic Order And Public Health To Name Just A Few. As Citizens, We All Know That Our Worst Nightmare About Relationship With Government Is To Be Lost In A Bureaucratic Maze, Shuffled From Place To Place, Waiting Hours In Long Queues, Unable To Find Or Learn Anything. Books Have Been Written And Movies Made About These Nightmares. How Do We Solve These Problems? It Is Not Easy. Without Studying Success, It Is Hard To Devise Real Solutions. For Years, The Government Has Studied Failure And For Years Failure Has Endured. So The Approach Has To Be Different. We Have To Look For Success. We Have To Search Organizations That Produce Results Satisfy Customers And Increased Productivity. We Have To Study The Organizations That Constantly Learn, Innovate And Improve. It Is Not Difficult To Find Effective Entrepreneurial Public Organizations. The book is full of examples of such organizations. In last decades several governments have been reinventing themselves from Australia to Great Britain, Singapore to Sweden, The Netherlands to New Zealand. Everywhere the need of information age societies are colliding with the limits of industrial era. Government Britain has called it New Public Management, USA has named it Reinvention Initiative. Whatever be the name, the movement to reinvent government is driven by absolute necessity. Governments all over the world have reached the same conclusion: Government is broken and it is time to fix it. The time has come to set the house in order. The Administrative Management Of The Government Needs Overhauling. The book is about studying success in this reinvention movement and exploring common characteristics of success. This book lays out the strategies that have proven the most effective and describes how the world's most successful re-inventors have used them. Our governments are in trouble. They have lost their sense of mission. They have lost their ethic of public service and most importantly they have lost the faith of the people. We can no longer afford to pay more for and get less from our government. The answer for every problem cannot always be another program or more money. It is time to radically change the way the government operates. To shift from top-down bureaucracy to entrepreneurial government that empowers citizens and
