## **Road Of Stars To Santiago:**

**Road Of Stars To Santiago** Edward F. Stanton, 2021-10-21 In the tradition of Colin Fletcher's *The Man Who Walked Through Time* and William Least Heat Moon's *Blue Highways* Edward F. Stanton has written a quietly beautiful and engrossing account of his own pilgrimage. *Road of Stars to Santiago* is a personal story of his journey along what has been called the premier cultural route of Europe. I undertook a five hundred mile walk along the ancient Camino de Santiago from the French Pyrenees to Santiago de Compostella in northwest Spain, the supposed burial site of the apostle St. James the Elder, and beyond to Finisterre, Land's End on the Atlantic coast. On my journey I followed the old road whenever possible, passing through mountains, medieval forests, and remote villages as well as modern towns and cities. I slept in fields, abandoned schools, or wherever I could on a thirty day trip that brought me into contact with a whole cross section of Spanish society and with pilgrims from France, Belgium, Holland, Germany, and England. Most of the book has to do with my own trials and joys on the Road, the physical struggle to walk about twenty miles a day in the heat or rain to find a place to eat and sleep, with the psychological changes that take place when one leaves home, family, and routine, with the contradictions inherent to a pilgrimage in the late twentieth century, with experiences that ranged from the spiritual to the picaresque, with the people I met on the way from shepherds and peasants to astrologers and philosophers. There are plenty of humorous situations and unexpected turns. Edward F. Stanton

### **The Pilgrimage to Compostela in the Middle Ages**

Linda Kay Davidson, Maryjane Dunn, 2012-11-12 Nine new studies address the phenomenon of the medieval pilgrimage to Santiago de Compostela, the legendary burying place of St. James. **The Way of the Stars** Robert Cameron Sibley, 2012 Since medieval times pilgrimages have been a popular religious or spiritual undertaking. Even today between seventy and one hundred million people a year make pilgrimages, if not for expressly religious reasons, then for an alternative to secular goals and the preoccupation with consumption and entertainment characteristic of contemporary life. In *The Way of the Stars* the journalist Robert Sibley, motivated at least in part by his own sense of discontent, recounts his walks on one of the most well known pilgrimages in the Western world, the Camino de Santiago. A medieval route that crosses northern Spain and leads to the town of Santiago de Compostela, the Camino has for hundreds of years provided for pilgrims the practice, the place, and the circumstances that allow for spiritual rejuvenation, reflection, and introspection. Sibley, who made the five hundred mile trek twice, initially on his own and then eight years later with his son, offers a personal narrative not only of the outward journey of a pilgrim's experience on the road to Santiago but also of the inward journey afforded by an interlude of solitude and a respite from the daily demands of ordinary life. The month long trip put the author on a path through his own memories, dreams, and self-perceptions as well as through the sights and sounds, the tastes and sensations of the Camino itself.

**Travel, Time, and Space in the Middle Ages and Early Modern Time** Albrecht Classen, 2018-10-22 Research on medieval and early modern travel literature has made great progress, which now allows us to take the next step and to

analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual s self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women s movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen s activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis

The De-Caff Camino Jonathan Beardsworth, 2013 Charlie s introduction to his blog put it best A lifetime in marketing actually equips a man for very little Now pushing 58 I realise with some horror that it is a full half century since I last took cycling remotely seriously If this trip does not go well I might leave it as long until my next attempt In September 2012 seven friends of varying fitness and circumference accompanied by an elderly camper wagon and driver are cycling from France to Santiago de Compostela in north west Spain Despite being well past their prime they cycled up the equivalent of Mount Everest plus a bit as they crossed the Pyrenees the Montes de Oca the Montes de Leon and the Cantabrian Mountains in the process expending over 20 000 calories each according to Susie s iPhone App most of which were put back on each evening They cycled in the footsteps of 1 000 years of history marveled at the art and architecture accumulated over the centuries and at times crashed into it They visited the sites of miracles and pondered their meaning and crossed the 200 meter bridge at Hospital de Orbigo which in 1434 was the site of a month long jousting tournament They experienced the highs and lows of triumph and disaster and felt compelled to test the efficiency of the Spanish medical system Comment on the blog from Barnaby God troops it is epic reading and I am on the edge of my seat as I follow your progress on my map The De Caff Camino is in turn amusing informative easy reading and irreverent and yet is imbued throughout with the greatest respect for the history and traditions of the Camino and those who have written their names into its lore Improbably arriving at their destination after two weeks and 500 miles on the road the author offers some forthright advice to the Vatican on how to enhance the experience for pilgrims at last achieving their goal after so much exertion self sacrifice and denial The De Caff Camino is an essential and most entertaining addition to the body of knowledge of The Way of St James

**Living the Camino Back Home** Brendan McManus, 2024-12-05 The authors have worked for some years as Camino Companions a ministry for welcoming pilgrims in Santiago de Compostella In the course of their work they noticed that as well as providing

a space for pilgrims to tell their unique Camino stories while in Santiago pilgrims wanted help to reflect on the importance and relevance for their lives back home the real Camino This book is a suggestion as to what pilgrims might do on returning home in terms of keeping that Camino spirit alive Inevitably it is written from the Christian perspective of its authors but it can be used by pilgrims of all faiths and none We are all pilgrims in the world and our challenge is to live life as a journey not buying into the consumer mentality but keeping our hearts open Back at home we easily forget this and can drift along on autopilot But we have a choice about how we live and love God or Mystery or Spirit is always with us and can be seen especially when looking back on our experience Hence the importance of reflection and taking time out to get perspective The Camino feeling or the spiritual dimension is always there but we have to walk our road of trust as best we can wherever we find ourselves The Camino will provide even back at home
