Handbook, 1980 *The Routledge Handbook of Religion and Animal Ethics* Andrew Linzey, Clair Linzey, 2018-09-29 The ethical treatment of non human animals is an increasingly significant issue directly affecting how people share the planet with other creatures and visualize themselves within the natural world The Routledge Handbook of Religion and Animal Ethics is a key reference source in this area looking specifically at the role religion plays in the formation of ethics around these concerns Featuring thirty five chapters by a team of international contributors the handbook is divided into two parts The first gives an overview of fifteen of the major world religions attitudes towards animal ethics and protection The second features five sections addressing the following topics Human Interaction with Animals Killing and Exploitation Religious and Secular Law Evil and Theodicy Souls and Afterlife This handbook demonstrates that religious traditions despite often being anthropocentric do have much to offer to those seeking a framework for a more enlightened relationship between humans and non human animals As such The Routledge Handbook of Religion and Animal Ethics is essential reading for students and researchers in religious studies theology and animal ethics as well as those studying the philosophy of religion and ethics more generally

Routledge Handbook of Non-Violent Extremism Elisa Orofino, William Allchorn, 2023-03-09 This Handbook provides the first in depth analysis of non violent extremism across different ideologies and geographic centres a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North Whilst acknowledging the potentiality of non violent extremism as a precursor to terrorism this Handbook argues that non violent extremism ought to be considered a stand alone area of study Focusing on Islamist Buddhist Hindu far right far left environmentalist and feminist manifestations the Handbook discusses the ideological foundation of their war on ideas against the prevailing socio political and cultural systems in which they

operate and provides an empirical examination of their main claims and perspectives This is supplemented by a truly global overview of non violent extremist groups not only in Europe and the United States but also in Africa Asia Oceania and the Middle East The Handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South The Handbook will appeal to those studying extremism radicalisation and terrorism It intersects several relevant disciplines including social movement studies political science criminology Islamic studies and anthropology
