Selected Poems Robert Browning,2020-12-01 Selected Poems 1923 is a collection of poems by American poet Robert Frost Dedicated to Edward Thomas a friend of Frost's and an important English poet who died toward the end of the First World War Selected Poems is a wonderful sampling of poems from Frost's early collections including A Boy's Will and North of Boston Known for his plainspoken language and dedication to the images and rhythms of rural New England Robert Frost is one of America's most iconic poets a voice to whom generations of readers have turned in search of beauty music and life Mowing envisions the poet's work through the prism of rural labor There was never a sound beside the wood but one And that was my long scythe whispering to the ground What was it it whispered The speaker does not know but continues his task hypnotized by its rhythm and simple music In After Apple Picking as fall gives over to winter the poet remembers in dreams how the Magnified apples appear and disappear Stem end and blossom end as he climbs the ladder into the heart of the tree

Both a symbol for life and a metaphor for the poetic act apple picking leaves the poet overtired Of the great harvest he himself desired awaiting sleep as he describes its coming on wondering what if anything it will bring The Road Not Taken perhaps Frost s most famous poem is a meditation on fate and free will that follows a traveler in an autumn landscape unsure of which path to take but certain he cannot stand still With a beautifully designed cover and professionally typeset manuscript this edition of Robert Frost s Selected Poems is a classic of American literature reimagined for modern readers
