Robert Frost Morris Dickstein,2010 This title presents in depth critical discussions of his life and works Widely celebrated during his lifetime as the greatest living American poet Robert Frost remains one of the few poets whose work is enjoyed by scholars and general readers alike A record four time winner of the Pulitzer Prize who gave readings across America and in countries as far flung as England Brazil and Russia Frost is nevertheless known not as a cosmopolitan but as a plainspoken portraitist of rural New England Yet despite this reputation Frost is much more than a regional poet his wit irony and willingness to rest in ambiguity make him a poet of the cosmic and universal In the age of Ezra Pound and T S Eliot he stood alone in writing a poetry that was simultaneously accessible complex and profound Edited and with an introduction by Morris Dickstein Distinguished Professor of English at the Graduate Center of the City University of New York and senior fellow of the Center for the Humanities this volume in the Critical Insights series brings together a variety of critical perspectives on Frost's life and works For readers new to Frost four original essays provide valuable context for understanding and assessing his work Together they outline the work's historical and cultural contexts survey the major pieces of Frost criticism examine Frost's relationship with modernist poetics and consider how his use of paradox and

contradiction participate in and differ from the use established by Whitman and Emerson Nine other previously published essays deepen readers understanding and offer a sampling of the key concerns of contemporary Frost critics Among these essays David Sanders draws on Frost s letters and interviews to understand how he developed his poetic voice from careful observation of his New England neighbors and how he sought to make these people visible within the growing mass culture of twentieth century America Roger Gilbert further examines Frost s poetics in his discussion of the recurrence of the trope of the walk in Frost s poetry concluding that for Frost the trope parallels the dynamic act of poetic composition Other essays examine Frost s politics with Frank Lentricchia considering how his poetry with its emphasis on replicating the rhythms of everyday speech rather than traditional conceptions of the literary gives evidence to the notion that poetics can be a register of social and political change and Tyler B Hoffman offering a unique reading of Frost s view of industrialism and the New Deal arguing that Frost was not the archconservative that leftist critics have made him out to be but rather took a highly nuanced view of the poet s obligations to politics Jeff Westover extends this vein of criticism by dissecting Frost s nationalism and Robert Bernard Hass discusses how Frost s interest in science especially astronomy impacted the religious beliefs his mother inculcated in him as a child Uniquely this volume also contains an original piece by Paris Review contributor Elizabeth Gumport who offers a writer s perspective on Frost s fierce independence Rounding out the collection is a brief biography and chronology of Frost s life and an extensive bibliography for readers wishing to study the poet s work in greater depth Each essay is 5 000 words in length and all essays conclude with a list of Works Cited along with endnotes
