Lord Nuffield:

Lord Nuffield Peter Hull,2008-03-04 It is largely as a result of the career of William Richard Morris Viscount Nuffield that the university city of Oxford became one of Britain's foremost industrial cities William Morris left school at fourteen and because he had shown an aptitude for taking things to pieces and reassembling them he was apprenticed to a bicycle repairer Within nine months he set up his own cycle business and from then on his rise to become one of Britain's leading industrialists Though not a great engineer he was an astute business man and expert mechanic he saw the need for a small economical car that was of high quality yet could be produced in large numbers His special talent enabled him to obtain the right parts and to assemble them and so the first Morris Oxford car appeared in 1913 Production boomed in the 1920s and Morris became a millionaire and was made a peer but he was generous with money and gave away over GBP30 000 000 in his lifetime much of it to hospitals and other medical causes in which he had a deep interest He also financed the establishment of Nuffield College Oxford which bears his title His name ceased to appear on motorcars after 1983 when Morris Motors was part of British Leyland but the MG Morris Garages badge has survived **Our Mornings May Never be** Joan MacDonald,2002 MG Century David Knowles,2024-03-12 Celebrate and explore 100 years of MG cars with this impressive volume featuring expert commentary historical images period ads and contemporary photography For many car enthusiasts MG is synonymous with sports car It is often credited with igniting a passion for European cars in postwar America at a time when roads were otherwise filled with the lumbering output of Detroit In MG's native England the company's cars filled roles from family transport to competition driving MG as we think of it today began in the 1920s but its roots go back even further with a young William Morris Initially working in the booming bicycle trade he eventually branched into motorcycle and car repair with the fledgling Morris Garage hence MG in 1907 By the mid 1920s the successful Morris Garages was in a position to begin manufacture of its own cars under the MG name MG grew significantly in the years before World War II building and racing its classic Midgets and Magnettes World War II provided challenging times for the company as it did for the UK and much of the world In the postwar period a focus on sales outside England and particularly in the United States both defined MG's product line and ensured its success Legendary cars followed including MG TC TD and TF followed by thoroughly modern MGA MGB MGB GT and Midget Magnettes and the 1100 offered options for those wanting sedans and more practical cars MG ownership moved through a number of UK companies in the postwar period as well as ownership by BMW and today's SAIC a Chinese based company through which it operates as MG Motor Highlights along the way included the MGB GT V8 MG Metro Group B rally car and MGF Based on its latest state of the art EV platform MG will soon launch an all new roadster coming full circle over its century in business Authored by marque expert David Knowles The MG Century 100 Years of Safety Fast is a fitting celebration of one of the automotive world's oldest and most beloved brands and a must have for every car enthusiast *Oxford* David Horan,1999 Following in the footsteps of historic figures and

writers Horan reveals the many dimensions social and cultural of a city where tradition and modernity interconnect From the quadrangles and chapels of the university center to the multicultural bustle of the Cowley Road he explores both the historic and contemporary faces of Oxford Maps and illustrations **William Morris, Viscount Nuffield** R. history that looks beyond the mythology to explore all the tragedy and comedy the brutality and compassion of war **How Britain Shaped the Manufacturing World, 1851-1951** Philip Hamlyn Williams, 2022-07-28 The peoples of the British Isles gave to the world the foundations on which modern manufacturing economies are built This is quite an assertion but history shows that in the late eighteenth century a remarkable combination of factors and circumstances combined to give birth to Britain as the first manufacturing nation Further factors allowed it to remain top manufacturing dog well into the twentieth century while other countries were busy playing catch up Through two world wars and the surrounding years British manufacturing remained strong albeit while ceding the lead to the United States This book seeks to tell the remarkable story of British manufacturing using the Great Exhibition of 1851 as a prism Prince Albert and Sir Henry Cole had conceived an idea of bringing together exhibits from manufacturers across the world to show to its many millions of visitors the pre eminence of the British 1851 was not the start but rather a pause for a bask in glory This book traces back from the exhibits in Hyde Park s Crystal Palace to identify the factors that gave rise to this pre eminence then follows developments up until the Festival of Britain exactly one century later Steam power and communication by electric telegraph both British inventions predated the Exhibition After it came the sewing machine and bicycle motor car and aeroplane but also electrical power radio and the chemical and pharmaceutical industries where Britain played a leading part Chilterns & the Thames Valley (Slow Travel) Helen & Neil Matthews, 2025-06-12 Part of Bradt s distinctive award winning series of Slow travel guides to UK regions the new thoroughly updated second edition of The Chilterns and Thames Valley Slow Travel celebrates this charming popular English region close to London Written with intimate detail and insider tips by two locals it is the only guidebook to provide in depth coverage of this region which is shared between the counties of Bedfordshire Berkshire Buckinghamshire Hertfordshire and Oxfordshire Divided into six user friendly sections Bradt s The Chilterns and Thames Valley lifts the lid on what makes this area so distinctive Chalk grasslands beech woods streams one of the world s most famous rivers and wooded valleys provide perfect landscapes for walking and are easily accessible from London About half of the region has been designated as a National Landscape the closest such designation to London and justifying this edition s inclusion of several new walking routes Rare plants such as fleawort and various orchids and birds including red kite lapwing and skylark flourish Millions of people know the Chilterns via TV and films as world famous studios have created murder mayhem historical drama and horror here this is Midsomer Murders country In the Chilterns you find key sites of monarchical and parliamentary power such as Windsor Castle and Chequers and the location of Magna Carta s sealing Runnymede Many well loved authors have lived and written here depicting Paradise defining our childhoods and painting timeless images of England and its people Eminent chefs own restaurants with national even international reputations the village of Bray alone hosts two of Britain s eight triple Michelin starred restaurants The Chilterns and the Thames Valley together with the Vale of Aylesbury represent a wonderfully paradoxical mixture of world famous tourist sites and lesser

known attractions full of quirkiness and character which will repay the visitor's interest and attention many times over From Windsor Castle to Whipsnade Zoo Britain's oldest road The Ridgeway to National Trust properties such as Cliveden and Waddesdon the Henley Regatta to the Grand Union Canal Bradd's The Chilterns and Thames Valley Slow Travel is your perfect travelling companion to this enchanting area *The British Motor Industry, 1945-94* Timothy Whisler, 1999-05-06 A fascinating and well researched look at the British motor industry which will appeal to both academic readers and practitioners alike Why are there now no major car manufacturers in Britain Whisler considers this and the surrounding issues making valuable comparisons with overseas manufacturers operating both in the UK and abroad which provide us with additional interest and insight Based upon careful use of company archives this book covers in particular the issues of product development quality design and range ensuring that The British Motor Industry is destined to make a distinctive contribution to our understanding of the performance of UK manufacturers *A Year Book of the Commonwealth*, 1974

MGA David Knowles, 2019-08-30 The MGA truly marked a revolution in MG sports car design with its appearance quite unlike any previous production car from the celebrated British marque Entering production in the summer of 1955 it broke with the time honoured tradition of narrow gutted flat sides upright styling with the distinctive large grille exposed headlamps separate wings and sharply cut off tail that had serviced the majority of MG sports cars for well over thirty years Many die hard MG enthusiasts of the time were understandably outraged but the decision to break with tradition proved to be a good one over 100 000 cars were produced over the model's seven year lifetime This book from celebrated author David Knowles covers the circumstances that led to the momentous decision to make such a fundamental design change the production publicity and evolution of each and every MGA variant from launch in 1955 to the end of production in 1962 with specification tables for each model profiles of the people who had crucial roles in the development of the MGA and finally the largely untold story of overseas assembly in Australia Ireland Mexico and South Africa It offers comprehensive coverage of racing and rallying in Europe including the MGA entries at Sebring Twelve Hour race and where many of the cars ended up and will be of great interest to all motoring enthusiasts and those particularly interested in MG It is extensively illustrated with 200 colour and 300 black white photographs much of it drawn from archives and family collections as well as photoshoots specially commissioned for this book David Knowles has been researching and writing about British cars for over twenty five years
