Martin Jay, Sumathi Ramaswamy

Lost Land Of Lemuria Fabulous Geographies Catastrophic Histories:

The Lost Land of Lemuria Sumathi Ramaswamy, 2004-09-27 During the nineteenth century Lemuria was imagined as a land that once bridged India and Africa but disappeared into the ocean millennia ago much like Atlantis A sustained meditation on a lost place from a lost time this elegantly written book is the first to explore Lemuria s incarnations across cultures from Victorian era science to Euro American occultism to colonial and postcolonial India The Lost Land of Lemuria widens into a provocative exploration of the poetics and politics of loss to consider how this sentiment manifests itself in a fascination with vanished homelands hidden civilizations and forgotten peoples More than a consideration of nostalgia it shows how ideas once entertained but later discarded in the metropole can travel to the periphery and can be appropriated by those seeking to construct a meaningful world within the disenchantment of modernity Sumathi Ramaswamy ultimately reveals how loss itself has become a condition of modernity compelling us to rethink the politics of imagination and creativity in our day

After the Flood Lydia Barnett, 2019-07-02 How the story of Noah s Flood was central to the development of a global environmental consciousness in early modern Europe Winner Morris D Forkosch Prize Journal of the History of Ideas Many centuries before the emergence of the scientific consensus on climate change people began to imagine the existence of a global environment a natural system capable of changing humans and of being changed by them In *After the Flood* Lydia Barnett traces the history of this idea back to the early modern period when the Scientific Revolution the Reformations the Little Ice Age and the overseas expansion of European empire religion and commerce gave rise to new ideas about nature humanity and their intersecting histories Recovering a forgotten episode in the history of environmental thought Barnett brings to light the crucial role of religious faith and conflict in the emergence of a global environmental consciousness Following Noah s Flood as a popular topic of debate through long distance networks of knowledge from the late sixteenth through the early eighteenth centuries Barnett reveals how early modern earth and environmental sciences were shaped by gender evangelism empire race and nation

The Ten Lost Tribes Zvi Ben-Dor Benite, 2009-09-04 The legendary story of the ten lost tribes of Israel has resonated among both Jews and Christians down through the centuries the compelling idea that some core group of humanity was lost and exiled to a secret place perhaps someday to return triumphant In *The Ten Lost Tribes* Zvi Ben Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became over two millennia an engine for global exploration and a key mechanism for understanding the world As the book reveals the quest for the missing tribes and the fervent belief that their restitution marked a necessary step toward global redemption have been threaded through countless historical moments from the

formation of the first world empires to the age of discovery and from the spread of European imperialism to the rise of modern day evangelical apocalypticism More than a historical survey of an enduring myth The Ten Lost Tribes offers a unique prism through which to view the many facets of encounters between cultures the processes of colonization and the growth of geographical knowledge **Victorian Science and Literature, Part II vol 8** Gowan Dawson, Bernard Lightman, Claire Brock, Marwa Elshakry, Sujit Sivasundaram, Ralph O'Connor, Roger Luckhurst, Justin Sausman, 2024-10-28 This eight volume reset edition in two parts collects rare primary sources on Victorian science literature and culture The sources cover both scientific writing that has an aesthetic component what might be called the literature of science and more overtly literary texts that deal with scientific matters **Empires of Vision** Martin Jay, Sumathi Ramaswamy, 2014-03-14 Combining visual culture and postcolonial studies this reader shows that an appreciation of the role of visual experience is necessary for understanding how colonialism worked and how colonized subjects spoke to imperial rulers **Manuscript, Print and Memory** Eva Maria Wilden, 2014-11-10 The ancient Tamil poetic corpus of the Ca am The Academy is a national treasure for Tamilians and a battle ground for linguists and historians of politics culture and literature Going back to oral predecessors probably dating back to the beginning of the first millennium it has had an extremely rich and variegated history Collected into anthologies and endowed with literary theories and voluminous commentaries it became the centre piece of the Tamil literary canon associated with the royal court of the Pandya dynasty in Madurai Its decline began in the late middle ages and by the late 17th century it had fallen into near oblivion before being rediscovered at the beginning of the print era The present study traces the complex historical process of its transmission over some 2000 years using and documenting a wide range of sources in particular surviving manuscripts the early prints the commentaries of the literary and grammatical traditions and a vast range of later literature that creates a web of inter textual references and quotations **Historical Dictionary of the Tamils** Vijaya Ramaswamy, 2017-08-25 The Tamils have an unbroken history of more than two thousand years Tamil the language they speak is one of the oldest living languages in the world The only people comparable to the Tamils in terms of their hoary past and vibrant present would be the Jews with one marked difference The Tamils have always had their homeland Tamilaham alternately pronounced and spelt Tamizhaham known today as Tamil Nadu which to them represents their mother and is revered by them as Tamizh Tai literally Tamil Mother This is in striking contrast to the Jews who have been through a long and arduous struggle to gain their homeland a deeply contested site to this day with Hebrewisation of Israel being a key marker of Jewish identity in the region Tamils by contrast have a clear numerical majority in the region that now comprises Tamil Nadu and the language unites rather than divides adherents of different faiths The second edition of Historical Dictionary of the Tamils contains a chronology an introduction and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone

Invented Knowledge Ronald H. Fritze, 2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in Invented Knowledge reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole

Articulating Rapa Nui Riet Delsing, 2015-05-31 In this groundbreaking study Riet Delsing narrates the colonization of the Pacific island of Rapa Nui and its indigenous inhabitants The annexation of the island by Chile in the heydays of world imperialism places the small Latin American country in a unique position in the history of global colonialism The analysis of this ongoing colonization process constitutes a missing link in Pacific Islands studies and facilitates future comparisons with other colonial adventures in the Pacific by the United States Hawai i American Samoa France Tahiti and New Zealand Maori and Cook Islands The first part of the book surveys the history of the Chile Rapa Nui relationship from its beginning in the 1880s until the present Delsing delineates the Rapanui people s agency along with their cultural logic showing their resilience and will to remain Rapanui indigenous Pacific islanders rather than an ethnic minority forcefully integrated into the Chilean nation state In the second part the author describes the Rapanui s contemporary emphasis on the revitalization of their language traditional concepts about land tenure a unique corpus of material and performative culture renewed contact with other Pacific island cultures and creative acts of resistance against Chilean colonialism Emergent in her analysis is the effect of Rapa Nui s vibrant tourist industry commodification of Rapanui difference is creating the possibility to loosen economic and political ties with Chile Drawing on statements of several Rapanui she concludes that over the past few decades they have acquired a different kind of interpretive power based on which they are making choices that serve them as

a people on the road to cultural and political self determination Contemporary Rapa Nui is thus a modern articulated place marked by spirited identity politics that show the resilience and adaptability of the indigenous people who inhabit this island

Inscriptions of Nature Pratik Chakrabarti, 2020-10-13 Learn how the deep history of nature became a dominant paradigm of historical thinking through a study of landscapes of India Winner of the BSHS Pickstone Prize by the British Society for the History of Science In the nineteenth century teams of men began digging the earth like never before Sometimes this digging often for sewage transport or minerals revealed human remains Other times archaeological excavation of ancient cities unearthed prehistoric fossils while excavations for irrigation canals revealed buried cities Concurrently geologists ethnologists archaeologists and missionaries were also digging into ancient texts and genealogies and delving into the lives and bodies of indigenous populations their myths legends and pasts One pursuit was intertwined with another in this encounter with the earth and its inhabitants past present and future In *Inscriptions of Nature* Pratik Chakrabarti argues that in both the real and the metaphorical digging of the earth the deep history of nature landscape and people became indelibly inscribed in the study and imagination of antiquity The first book to situate deep history as an expression of political economic and cultural power this volume shows that it is complicit in the European and colonial appropriation of global nature commodities temporalities and myths The book also provides a new interpretation of the relationship between nature and history Arguing that the deep history of the earth became pervasive within historical imaginations of monuments communities and territories in the nineteenth century Chakrabarti studies these processes in the Indian subcontinent from the banks of the Yamuna and Ganga rivers to the Himalayas to the deep ravines and forests of central India He also examines associated themes of Hindu antiquarianism sacred geographies and tribal aboriginality Based on extensive archival research the book provides insights into state formation mining of natural resources and the creation of national topographies Driven by the geological imagination of India as well as its landscape people past and destiny *Inscriptions of Nature* reveals how human evolution myths aboriginality and colonial state formation fundamentally defined Indian antiquity

Notions of Nationhood in Bengal: Perspectives on Samaj, c. 1867-1905 Swarupa Gupta, 2009-06-24 This book reopens the debate on colonial nationalisms going beyond derivative borrowed political and modernist paradigms It introduces the conceptual category of samaj to demonstrate how indigenous socio cultural origins in Bengal interacted with late colonial discourses to produce the notion of a nation Samaj a historical society and an idea in practice was a site for reconfiguring antecedents and negotiating fragmentation Drawing on indigenous sources this study shows how caste class ethnicity region and community were refracted to conceptualise wider unities The mapping of cultural continuities through change facilitates a more nuanced investigation of the ontology of nationhood seeing it as related to but more than political nationalism It outlines a fresh paradigm for recalibrating postcolonial identities offering interpretive strategies to mediate fragmentation

Fallon,2021-11-04 Reimagining Dinosaurs argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920 **Modern Sports in Asia** Younghan Cho,Charles Leary,2016-04-14 Modern sports were introduced to Asia in the late nineteenth century as an innovation from the West concurrently with the development of modern society in Asia This book traces the historical developments of sporting cultures in Asia in specific local contexts including Singapore China Myanmar Taiwan the Philippines and India and their intersections with larger social developments of colonialism postcolonialism nationalism and the building of modern Asia and its place in a globalized world The case studies herein present the social history of modern team sports with standardized rules such as basketball and cricket and less familiar sports such as fives and chinlone as they vacillate between global and local perspectives This book also shows that modern sports have had an important influence on the makeup of everyday life in Asia and the essays here also consider sports impact on gender body culture and celebrity culture among other concerns This book painstakingly bridges the gaps between Asian Studies and Sports Studies in a way that reflects the historicity and multiplicity of sports in Asian societies By adopting multi disciplinary approaches this book innovatively offers significant intersection between sociology cultural studies and Asian studies of sport in Asia This book was published as a special issue of Sport in Society

The Pulse of the Earth Adam Bobbette,2023-06-30 In The Pulse of the Earth Adam Bobbette tells the story of how modern theories of the earth emerged from the slopes of Indonesia s volcanoes Beginning in the late nineteenth century scientists became concerned with protecting the colonial plantation economy from the unpredictable bursts and shudders of volcanoes Bobbette follows Javanese knowledge traditions colonial geologists volcanologists mystics Theosophists orientalist and revolutionaries to show how the earth sciences originate from a fusion of Western and non Western cosmology theology anthropology and geology Drawing on archival research interviews and fieldwork at Javanese volcanoes and in scientific observatories he explores how Indonesian Islam shaped the theory of plate tectonics how Dutch colonial volcanologists learned to see the earth in new ways from Javanese spiritual traditions and how new scientific technologies radically recast notions of the human body distance and the earth In this way Bobbette decenters the significance of Western scientists to expand our understanding of the evolution of planetary thought and rethinks the politics of geological knowledge
