History in Public Space Joanna Wojdon,Dorota Wiśniewska,2024-08-05 This book focuses on various manifestations of

history in public spaces in the physical ones of various historical times and geographical places as well as in the virtual world. By combining both micro and global perspectives the universal role that history plays in spaces created by and for as well as the factors determining its usages is revealed. The authors are rooted in specific national contexts Canadian or American Ukrainian or Polish British or Irish German or Luxembourgish Korean or Brazilian and the case studies are varied including large cities and small towns city centers and godforsaken cemeteries but the narratives built on these cases go beyond when they deal with issues such as decoding history and its meanings in public spaces doing history in public spaces and observing changes in manifestations of history in public spaces. This volume is an essential resource for anyone interested in the relationship between history and public space in a global perspective.
