Japan and Russia in Northeast Asia Vladimir I. Ivanov, Karla S. Smith, 1999-03-30 This collection of essays by leading scholars and diplomats involved with the area examines the key political and economic issues facing Japan, Russia, and their neighbors since the end of the Cold War. The main goal is to analyze recent developments in Moscow-Tokyo bilateral relations and their growing interest in closer economic engagement, stability, and regional cooperation. The volume provides readers with an in-depth analysis of the very problems and opportunities that compelled the national leaders of Japan and Russia to drastically change the format and contents of the dialogue to address the most critical issues not only of the moment but also for the future. The volume is a crucial resource for scholars, policy makers, and students involved with Asia-Pacific economic cooperation and Japanese and Russian foreign policy.

Asia-Pacific Strategic Relations William T. Tow, 2001-12-10 This comprehensive 2002 book is an overview of security issues in the Asia Pacific. It is also an argument for a strategy that promises to achieve greater regional stability. It argues that current approaches by policy makers increase the likelihood of conflict. Instead, it proposes that a strategy of convergent security be adopted to build a more enduring and peaceful regional security framework. A concise survey of key approaches to regional security politics, it presents a vast selection of empirical discussion, both historical and current. Assessing the outlook for the three powers most likely to vie for regional dominance—the United States, China, and Japan—the book also reviews the prospects for other secondary powers, including Korea and Taiwan, and analyzes the role of Australia and the ASEAN nations of Southeast Asia. Unique, accessible, authoritative, and broad-ranging survey designed for a wide body of analysts and students of contemporary Asian politics and strategy.

Korean Endgame Selig S. Harrison, 2009-02-10 Nearly half a century after the fighting stopped, the 1953 Armistice has yet to be replaced with a peace treaty formally ending the Korean War. While Russia and China withdrew the last of their forces in 1958, the United States maintains 37,000 troops in South Korea and is pledged to defend it with nuclear weapons. In *Korean Endgame*, Selig Harrison mounts the first authoritative challenge to this long-standing U.S. policy. Harrison shows why North Korea is not, as many policymakers expect, about to collapse. And he explains why existing U.S. policies hamper North-South reconciliation and reunification. Assessing North Korean capabilities and the motivations that have led to its forward deployments, he spells out the arms control concessions by North Korea, South Korea, and the United States necessary to ease the dangers of confrontation, centering on reciprocal U.S. force redeployments and U.S. withdrawals in return for North Korean pullbacks from the thirty-eighth parallel. Similarly, he proposes specific trade-offs to forestall the North's development of nuclear weapons and missile delivery systems, calling for the withdrawal of the U.S. nuclear umbrella in conjunction with agreements to denuclearize Korea, embracing China, Russia, and Japan. The long-term goal of U.S. policy, he argues, should be the full

disengagement of U S combat forces from Korea as part of regional agreements insulating the peninsula from all foreign conventional and nuclear forces A veteran journalist with decades of extensive firsthand knowledge of North Korea and long standing contacts with leaders in Washington Seoul and Pyongyang Harrison is perfectly placed to make these arguments Throughout he supports his analysis with revealing accounts of conversations with North Korean South Korean and U S leaders over thirty five years Combining probing scholarship with a seasoned reporter s on the ground experience and insights he has given us the definitive book on U S policy in Korea past present and future

The U.S. and the Two Koreas Tong Whan Park,1998 Presents revised and updated papers from a March 1997 conference held at Northwestern University in Evanston Illinois Papers investigate the new relationships emerging among Washington Seoul and Pyongyang in which political military and economic variables interact in a new way Subjects include South Korea s nuclear option US North Korea economic relations US public opinion of the two Koreas and Japan and China s responses to changing developments in Korea Annotation copyrighted by Book News Inc Portland OR
