Making A New People Education In Revolutionary Cuba:

Making a New People Theodore Harney MacDonald,1985 *The People's Professors of Cuba* Kate Moody,2018-12-11
The People's Professors How Cuba Achieved Education for All describes how Cuba managed in spite of scarce resources to successfully educate its entire population after the revolution in 1959 It details how illiterate peasants learned to read and write how the nation's vision of education was developed how the national school system was doubled in size thousands of teachers were educated and now how Cuba is entering the realm of digital media and the internet The people of Cuba can read and write better than the citizens of most countries including the United States Moreover Cubans excel on international measures of math science the arts and healthcare This book considers Cuba's schools as well as its integrated systems such as healthcare and community mental health and makes a case for the principles that education is a human right and that teaching is the responsibility of everyone *Patriots and Traitors in Revolutionary Cuba, 1961-1981* Lillian Guerra,2023-01-17 Authorities in postrevolutionary Cuba worked to establish a binary society in which citizens were either patriots or traitors This all or nothing approach reflected in the familiar slogan patria o muerte fatherland or death has recently been challenged in protests that have adopted the theme song patria y vida fatherland and life a collaboration by exiles that predictably has been banned in Cuba itself Lillian Guerra excavates the rise of a Soviet advised Communist culture controlled by state institutions and the creation of a multidimensional system of state security whose functions embedded themselves into daily activities and individual consciousness and reinforced these binaries But despite public performance of patriotism the life experience of many Cubans was somewhere in between Guerra explores these in between spaces and looks at Cuban citizens complicity with authoritarianism leaders exploitation of an earnest anti imperialist nationalism and the duality of an existence that contains elements of both support and betrayal of a nation and of an ideology *The Origins and Foundations of Music Education* Gordon Cox,Robin Stevens,2011-11-03 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com This landmark collection explores the origins and foundations of music education across five continents and considers the inclusion of music as part of the compulsory school curriculum in the context of the historical and political landscape the aims objectives and content of the music curriculum teaching methods the provision and training of teachers of music the experiences of pupils Contributors have been carefully selected to represent countries which have incorporated music into compulsory schooling for a variety of differing reasons giving a diverse collection which will guide future actions and policy *Operation Pedro Pan and the Exodus of Cuba's Children* Deborah Shnookal,2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors drove the exodus including Cold War propaganda and the

Catholic Church's opposition to the island's new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the

Negotiating Empire Solsiree del Moral, 2013-03-15 After the United States invaded Puerto Rico in 1898 the new unincorporated territory sought to define its future Seeking to shape the next generation and generate popular support for colonial rule U S officials looked to education as a key venue for promoting the benefits of Americanization At the same time public schools became a site where Puerto Rican teachers parents and students could formulate and advance their own projects for building citizenship In Negotiating Empire Solsiree del Moral demonstrates how these colonial intermediaries aimed for regeneration and progress through education Rather than seeing U S empire in Puerto Rico during this period as a contest between two sharply polarized groups del Moral views their interaction as a process of negotiation Although educators and families rejected some tenets of Americanization such as English language instruction they also redefined and appropriated others to their benefit to increase literacy and skills required for better occupations and social mobility Pushing their citizenship building vision through the schools Puerto Ricans negotiated a different school project one that was reformist yet radical modern yet traditional colonial yet nationalist

Globalization of an Educational Idea Ingrid Miethe, Tim Kaiser, Tobias Kriele, Alexandra Piepiorka, 2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an example of both cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization
