**Vietnam** Michael Lind, 2013-07-30 Michael Lind casts new light on one of the most contentious episodes in American history in this controversial bestseller In this groundbreaking reinterpretation of America s most disastrous and controversial war Michael Lind demolishes enduring myths and put the Vietnam War in its proper context as part of the global conflict between the Soviet Union and the United States Lind reveals the deep cultural divisions within the United States that made the Cold War consensus so fragile and explains how and why American public support for the war in Indochina declined Even more stunning is his provocative argument that the United States failed in Vietnam because the military establishment did not adapt to the demands of what before 1968 had been largely a guerrilla war In an era when the United States so often finds itself embroiled in prolonged and difficult conflicts Lind offers a sobering cautionary tale to Americans of all political viewpoints Making American Foreign Policy Philip J. Briggs, 1991-02-22 SCOTT Copy 1 From the John Holmes Library Collection

*Congress and the Politics of U.S. Foreign Policy* James M. Lindsay, 1994-08 Have we entered an era of the Imperial Congress How and why do members of Congress wield power over foreign policy Does Congress undermine the national interest when it asserts itself in foreign affairs Congress is more active in foreign policy than at any time since the 1930s notes James Lindsay but the important questions raised by this activism have not been fully addressed by contemporary scholars and commentators In *Congress and the Politics of U S Foreign Policy* Lindsay offers a timely and comprehensive examination of the role the modern Congress plays in foreign policy He shows how the resurgence of congressional activism marks a return to the pattern that was once the norm in American politics He analyzes the distribution of decision making authority in Congress reviews the constraints and incentives for members of Congress to become involved in foreign policy describes committee work the legislative process and other institutional structures **State**, 1993 Newsletter United States. Department of State, 1993 *Divided Power* Donald R. Kelley, 2005 *Divided Power* is a collection of eight original essays written for the Fulbright Institute of International Relations that focuses on timely yet unanswerable questions about the relationship between the executive and legislative branches in the formation of American foreign policy In trying to answer questions about what the nation s foreign policy is and who has the upper hand in making it these essays examine the struggle between the constant of the division of powers mandated by the Constitution ambiguous though it may be and the ever changing political realities and conventional wisdoms of the day Within that context the authors also examine the

society and culture in which those realities and wisdoms are nested The goal of these essays is to offer a snapshot in time of the interaction of the executive and legislative branches in the shaping of our foreign policy framed and informed by the intellectual and political realities that characterize the post Cold War post September 11 world *Congress and the U.S.-China Relationship, 1949-1979* Guangqiu Xu, 2007 *Political Science Abstracts* IFI/Plenum Data Company staff, 2013-11-11 *Political Science Abstracts* is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available *Congress, the Presidency and American Foreign Policy* John Spanier, Joseph Noguee, 2013-10-22 *Congress the Presidency and American Foreign Policy* provides a critical look at the resulting executive legislative relations in the conduct of American foreign policy This book explores the capacity of American political institutions to conduct a foreign policy that will meet the nation s many needs Organized into eight chapters this book begins with an explanation of the Jackson Vanik amendment the congressional participation in US Middle East Policy and the implication of the domestic politics of SALT II for the foreign policy process Subsequent chapters explore the negotiations and ratification of the Panama Canal treaties the Turkish Embargo problem economic sanctions against Rhodesia and the energy policy Lastly the dilemmas of policy making in a democracy are addressed *The Lost Mandate of Heaven* Geoffrey D. T. Shaw, 2015-10-19 Ngo Dinh Diem the first president of the Republic of Vietnam possessed the Confucian Mandate of Heaven a moral and political authority that was widely recognized by all Vietnamese This devout Roman Catholic leader never lost this mandate in the eyes of his people rather he was taken down by a military coup sponsored by the U S government which resulted in his brutal murder The commonly held view runs contrary to the above assertion by military historian Geoffrey Shaw According to many American historians President Diem was a corrupt leader whose tyrannical actions lost him the loyalty of his people and the possibility of a military victory over the North Vietnamese The Kennedy Administration they argue had to withdraw its support of Diem Based on his research of original sources including declassified documents of the U S government Shaw chronicles the Kennedy administration s betrayal of this ally which proved to be not only a moral failure but also a political disaster that led America into a protracted and costly war Along the way Shaw reveals a President Diem very different from the despot portrayed by the press during its coverage of Vietnam From eyewitness accounts of military intelligence and diplomatic sources Shaw draws the portrait of a man with rare integrity a patriot who strove to free his country from Western colonialism while protecting it from Communism A candid account of the killing of Ngo Dinh Diem the reasons for it who was responsible why it happened and the disastrous results Particularly agonizing for Americans who read this clearly stated and tightly argued book is the fact that the final Vietnam defeat was not really on battle grounds but on political and moral grounds The Vietnam War need not have been lost Overwhelming evidence supports it From the Foreword by James V Schall S J Professor Emeritus Georgetown University Did I find a veritable Conradian Heart of Darkness Yes I did but it was not in

the quarter to which all popular American sources were pointing their accusatory fingers in other words not in Saigon but paradoxically within the Department of State back in Washington D C and within President Kennedy s closest White House advisory circle The actions of these men led to Diem s murder And with his death nine and a half years of careful work and partnership between the United States and South Vietnam was undone Geoffrey Shaw from the Preface
