Making Theory/Constructing Art Daniel Alan Herwitz, Daniel Herwitz, 1996-05-15 Artists and critics regularly enlist theory in the creation and assessment of artworks but few have scrutinized the art theories themselves Here Daniel examines and critiques the norms assumptions historical conditions and institutions that have framed the development and uses of art theory Spurred by the theoretical claims of Arthur Danto a leader in the philosophy of the avant garde Herwitz reexamines the art and theory of major figures in the avant garde movement including John Cage Jean Francois Lyotard Jean Baudrillard and Andy Warhol

Making Theory/Constructing Art Daniel Herwitz, 1993-11 Artists and critics regularly enlist theory in their creation and assessment of artworks but few have scrutinized the art theories themselves Making Theory Constructing Art On the Authority of the Avant Garde is among the first philosophical texts to provide a close encounter with this theoretical tendency in twentieth century art and aesthetics exploring the norms assumptions historical conditions and institutions that have framed the development and uses of theory in art In a series of intricate readings of constructivism Mondrian and John Cage Daniel Herwitz outlines the avant garde's belief that theory can perfectly prefigure the avant garde art object and invest it with utopian force Through similarly insightful treatments of Arthur Danto Andy Warhol Jean Francois Lyotard Jean Baudrillard and postmodern art and theory Herwitz demonstrates how the contemporary art world is heir to the avant garde's theoretical assumptions and practices In fact avant garde art objects live as art only by partly resisting the master theories of their makers and interpreters Skillfully resisting the lure of grand theory himself Herwitz urges the art world to be more self critical and self reflective about its uses of theory Making Theory Constructing Art is as accessible and entertainingly written as it is philosophically incisive Since the book is both a philosophical and a cultural encounter with theory in twentieth century art it will engage all those who have tried to grapple with the inscrutability of the theoretical art muse

Burning the Box of Beautiful Things Alex Seago, 1995 Alex Seago's book has been inspired by his desire to understand and discover the origins of postmodern culture in Britain One of the main points of his study is that it was art and design students who were among the first to be aware of and to articulate social implications of postmodern culture Arguing that postwar art schools provided a vital crucible for the development of a particularly English cultural sensibility he focuses on cultural change at the Royal College of Art London during the 1950s and 1960s The students' attack on the English box of beautiful things a term used by a former student to describe the neo Romantic neo Victorian highly decorated tastes of some RCA tutors took several forms which eventually resulted in the Pop Art produced by the 1959-62 generation Boshier Phillips Jones Hockney et al Alex Seago traces the emergence of English postmodernism through the pages of ARK The Journal of the Royal

College of Art interviewing ARK's editors, art editors and contributors including Len Deighton, novelist and art editor of ARK 10 Clifford Hatts, student at the RCA 1946-8 and later head of the Design Group BBC; Peter Blake, RCA Painting School 1953-6; Robyn Denny, RCA Painting School 1954-7. ARK's object of enquiry remained the elusive but necessary relationships between the arts and the social context throughout its twenty-five year history, making it a valuable archive for the cultural historian in its most memorable issues. ARK's layouts complemented the contents to produce distillations of the energy and enthusiasm of the period under review.

Arthur Danto and the End of Art Raquel Cascales, 2019-08-20 To get a comprehensive understanding of the core concept of the end of art, this book analyses the intellectual trajectory of Arthur Danto, highlighting his successive achievements in philosophy of action, philosophy of history and philosophy of art. If, as Danto says, everything is extensively associated with everything else, it is impossible to avoid putting the philosophy of art in relation with his whole philosophical system.

Paintings and the Past Ivan Gaskell, 2019-05-13 This book is an exploration of how art, specifically paintings in the European manner, can be mobilized to make knowledge claims about the past. No type of human-made tangible thing makes more complex and bewildering demands in this respect than paintings. Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things, which is cumulative and ever subject to change. He shows that while it is not possible to define what art is other than being an open kind, it is possible to define what a

painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history
