National Strategies to

Harness Information Technology Nagy K. Hanna, Peter T. Knight, 2011-12-09 The ability to harness Information Communication Technologies ICTs is increasingly at the heart of competitiveness and sustainable growth As countries engage in an increasingly competitive global economy they are trying to weave ICT into their development strategies in the same way enterprises have learned to use ICT to transform their business models and strategies This integration offers a new path to development that is responsive to the challenges of our times In *National Strategies to Harness Information Technology* Nagy Hanna and Peter Knight provide a framework for assessing the opportunities challenges and prospects for e transformation and for analyzing the options and innovations adopted to manage the e transformation process They ask hard questions what does it take to harness ICT to transform an economy Why some countries accelerate their development journey with ICT while others fail How did successful countries balance the need for strategic leadership with bottom up innovation Can countries reduce the risks of digital divide What have been the roles of government and private sectors What lessons can be learned for countries at different levels of development Featuring contributions from country experts the editors and authors provide in depth case studies of ICT deployment in Singapore Finland the Philippines and South Africa and assess the progress of such efforts The result is an essential resource for academic researchers policy analysts policymakers and industry leaders interested in the role of ICT in national development innovation and economic growth In *National Strategies to Harness Information Technology* Nagy Hanna and Peter Knight provide a framework for assessing the opportunities challenges and prospects for e transformation and for analyzing the options and innovations adopted to manage the e transformation process They ask hard questions what does it take to harness ICT to transform an economy Why some countries accelerate their development journey with ICT while others fail How did successful countries balance the need for strategic leadership with bottom up innovation Can countries reduce the risks of digital divide What have been the roles of government and private sectors What lessons can be learned for countries at different levels of development Featuring contributions from country experts the editors and authors provide in depth case studies of ICT deployment in Singapore Finland the Philippines and South Africa and assess the progress of such efforts The result is an essential resource for academic researchers policy analysts policymakers and industry leaders interested in the role of ICT in national development innovation and economic growth *Forthcoming Books* Rose Arny, 2002-04 *Enabling Enterprise Transformation* Nagy K. Hanna, 2009-12-11 Private enterprises in advanced economies have been learning to use information and communication technology ICT to innovate and transform their processes products services and business models significantly improving productivity and competitiveness Moreover the ICT industry itself has become a major source of job creation and a contributor to economic growth and business transformation A key question today is whether and how developing countries can learn to benefit from the ICT revolution and what roles the government and private sector can play Already a number of developing countries have been inspired by the example of India and China and are now seeking to jump

on the outsourcing bandwagon Nevertheless with few exceptions in the developing world little attention has been paid by policymakers and practitioners to invest systematically and proactively in ICT enabled growth poverty reduction and grassroots innovation Most communities and small and medium sized enterprises in developing countries for example face multiple constraints to adopting and leveraging this general purpose technology and lack the capabilities for maximizing its potential In *Enabling Enterprise Transformation* Nagy Hanna draws on his rich experience of over 35 years at the World Bank and other aid agencies as a development strategist and ICT policy expert the most current research and best practices from around the world to provide practical tools for promoting economic and social transformation through ICT He assesses various initiatives to develop and diffuse ICT such as innovation funds incubators parks public private partnerships and comprehensive promotion programs He argues for the strategic options now open for developing countries to participate in ICT production to deploy ICT to transform industries and services and to leverage ICT as a new national infrastructure for improving the business environment and enhancing the competitiveness of the whole economy The challenge for leaders in developing countries is to create such social and institutional dynamics for learning about ICT use and adaptation at many levels Lessons gained so far from programs to build these social learning and innovation capabilities at the institutional and grassroots levels should be shared among developing countries and a dialogue among business leaders policymakers development agencies educational institutions and the general citizenry must be advanced
