Making England Landscape Of Hertfordshire:

Hertfordshire Anne Rowe, Tom Williamson, 2013 Dividing the county of Hertfordshire into four broad regions the champion countryside in the north the Chiltern dip slope to the west the fertile boulder clays of the east and the unwelcoming London Clay in the south this volume explains how in the course of the middle ages natural characteristics influenced the development of land use and settlement to create a range of distinctive landscapes The great diversity of Hertfordshire s landscapes makes it a particularly rewarding area of study Variations in farming economies in patterns of trade and communication as well as in the extent of London s influence have all played a part during the course of the postmedieval centuries and Hertfordshire s continuing evolution is followed into the 21st century Lavishly illustrated with maps and photographs this authoritative work is invaluable reading for all those with an interest in the history archaeology and natural transformation of this fascinating county

Archaeology in Hertfordshire Kris Lockyear, 2015-10-01 Celebrating the rich heritage of archaeology and of archaeological research in Hertfordshire the 15 papers collected in this work focus on various aspects of the region including the Neolithic to the post Medieval periods and include a report on the important excavations at the formative henge at Norton Several chapters focus new attention on the Iron Age and Roman periods both from a landscape perspective and through detailed studies of artefacts while a discussion of the rare early Saxon material recently excavated at Watton at Stone makes a vital contribution to the existing corpus of knowledge about this little understood period All of the papers in the volume focus on the local scene with an understanding of wider issues in each period and as a result the papers are of importance beyond the boundaries of the county and will be of interest to scholars with wide ranging interests

Environment, Society and Landscape in Early Medieval England Tom Williamson, 2015 The origins of England s regional cultures are here shown to be strongly influenced by the natural environment and geographical features The Anglo Saxon period was crucial in the development of England s character its language and much of its landscape and culture were forged in the period between the fifth and the eleventh centuries Historians and archaeologists have long been fascinated by its regional variations by the way in which different parts of the country displayed marked differences in social structures settlement patterns and field systems In this controversial and wide ranging study the author argues that such differences were largely a consequence of environmental factors of the influence of climate soils and hydrology and of the patterns of contact and communication engendered by natural topography He also suggests that such environmental influences have been neglected over recent decades by generations of scholars who are embedded in an urban culture and largely divorced from the natural world and that an appreciation of the fundamental role of physical geography in shaping human affairs can throw much new light on a number of important debates about early medieval society The book will be essential reading for all those interested in the character of the Anglo Saxon and Scandinavian settlements in early medieval social and territorial organization and in the origins of the

England's medieval landscapes Tom Williamson is Professor of Landscape History University of East Anglia he has written widely on landscape archaeology agricultural history and the history of landscape design Dury and Andrews' Map of Hertfordshire Andrew Macnair, Anne Rowe, Tom Williamson, 2015-11-30 This book is about the map of an English county Hertfordshire which was published in 1766 by two London mapmakers Andrew Dury and John Andrews For well over two centuries from the time of Elizabeth I to the late 18th century the county was the basic unit for mapping in Britain and the period witnessed several episodes of comprehensive map making The map which forms the subject of this book followed on from a large number of previous maps of the county but was greatly superior to them in terms of quality and detail It was published in a variety of forms in nine sheets with an additional index map over a period of 60 years No other maps of Hertfordshire were produced during the rest of the century but the Board of Ordnance later the Ordnance Survey established in the 1790s began to survey the Hertfordshire area in 1799 publishing the first maps covering the county between 1805 and 1834 The OS came to dominate map making in Britain but of all the maps of Hertfordshire that produced by Dury and Andrews was the first to be surveyed at a sufficiently large scale to really allow those dwelling in the county to visualize their own parish local topography and even their own house and its place in the wider landscape The first section examines the context of the map's production and its place in cartographic history and describes the creation of a new digital version of the map which can be accessed online The second part describes various ways in which this electronic version can be interrogated in order to throw important new light on Hertfordshire's landscape and society both in the middle decades of the eighteenth century when it was produced and in more remote periods The attached DVD contains over a dozen maps which have been derived from the digital version and which illustrate many of the issues discussed in the text as well as related material which should likewise be useful to students of landscape history historical geography and local history A Hertfordshire Domesday of Westminster Abbey Derek Vincent Stern, 2000 This pioneering contribution to the economic history of medieval England focuses on the Hertfordshire demesne farm of Kinsbourne later Herpendenbury and questions whether the farm's periods of economic success and failure were due to human factors or to the forces of nature Originally written as a doctoral thesis in 1978 the history has now been edited and published as a memorial to its author who died in 1993 The detailed study is based on the meticulous analysis of numerous primary sources which the author concludes suggest that the weather had little impact on the efficiency or otherwise of the manor's management accountancy or exploitation of the market A lengthy introduction places the work within the context of meteorological debate and regional history

Hertfordshire Garden History Volume 2 Deborah Spring, 2012 This second volume of Hertfordshire garden history considers how Hertfordshire's historic parks and gardens have been influenced by and reflect the social and economic history of their time Beginning with the hunting parks and Renaissance gardens of the Bacons Cecils and Capels in the 16th and 17th centuries and their gradual replacement by designed landscapes this book shows how in Hertfordshire individuals

have long sought greater space and comfort within easy reach of the capital London With examples from both well known and less visible or vanished gardens from the past 500 years it is sure to delight garden enthusiasts **Hertfordshire in History** Doris Jones-Baker,2004 This collection of essays offers a historical glimpse into the lives and happenings in Hertfordshire from the 13th century to the present Topics range from graffiti evidence of medieval music King James s connections with Hertfordshire settlements in the Connecticut Valley art traditions in the 19th century and the history of Christ s Hospital This compilation was designed to honor Lionel Munby one of Hertfordshire s leading 20th century historians **Hertfordshire Garden History** Anne Rowe,2007 This volume contains original research into aspects of garden history in Hertfordshire **An Environmental History of Wildlife in England 1650 - 1950** Tom Williamson,2013-12-05 Choice Outstanding Academic Title 2014 While few detailed surveys of fauna or flora exist in England from the period before the nineteenth century it is possible to combine the evidence of historical sources ranging from game books diaries churchwardens accounts and even folk songs and our wider knowledge of past land use and landscape with contemporary analyses made by modern natural scientists in order to model the situation at various times and places in the more remote past This timely volume encompasses both rural and urban environments from 1650 to the mid twentieth century drawing on a wide variety of social historical and ecological sources It examines the impact of social and economic organisation on the English landscape biodiversity the agricultural revolution landed estates the coming of large scale industry and the growth of towns and suburbs It also develops an original perspective on the complexity and ambiguity of man animal relationships in this post medieval period **Everyday Life in Medieval England** Christopher Dyer,2001-01-01 Everyday Life in Medieval England captures the day to day experience of people in the middle ages the houses and settlements in which they lived the food they ate their getting and spending and their social relationships The picture that emerges is of great variety of constant change of movement and of enterprise Many people were downtrodden and miserably poor but they struggled against their circumstances resisting oppressive authorities to build their own way of life and to improve their material conditions The ordinary men and women of the middle ages appear throughout Everyday life in Medieval England is an outstanding contribution to both national and local history *Landscapes and Landforms of England and Wales* Andrew Goudie,Piotr Migoń,2020-05-10 This book presents the geomorphological diversity of England and Wales These regions are characterised by an extraordinary range of landforms and landscapes reflecting both the occurrence of many different rock types and drastic climatic changes over the last few million years including ice sheet expansion and decay The book begins by providing the geological and geomorphological context needed in order to understand this diversity in a relatively small area In turn it presents nearly thirty case studies on specific landscapes and landforms all of which are landmarks in the territory discussed These include the famous coastal cliffs and landslides granite tors of Dartmoor formerly glaciated mountains of Snowdonia and the Lake District karst of Yorkshire and many others The

geomorphology of London and the Thames is also included Providing a unique reference guide to the geomorphology of England and Wales the book is lavishly illustrated with diagrams colour maps and photos and written in an easy to read style The contributing authors are distinguished geomorphologists with extensive experience in research writing and communicating science to the public The book will not only be of interest to geoscientists but will also benefit specialists in landscape research geoconservation tourism and environmental protection

Regions and Designed Landscapes in Georgian England Sarah Spooner, 2015-06-26 Garden design evolved hugely during the Georgian period as symbols of wealth and stature the landed aristocracy had been using gardens for decades Yet during the eighteenth century society began to homogenise and the urban elite also started demanding landscapes that would reflect their positions The gardens of the aristocracy and the gentry were different in appearance use and meaning despite broad similarities in form Underlying this was the importance of place of the landscape itself and its raw material Contemporaries often referred to the need to consult the genius of the place when creating a new designed landscape as the place where the garden was located was critical in determining its appearance Genius loci soil type topography water supply all influenced landscape design in this period The approach taken in this book blends landscape and garden history to make new insights into landscape and design in the eighteenth century Spooner's own research presents little known sites alongside those which are more well known and explores the complexity of the story of landscape design in the Georgian period which is usually oversimplified and reduced to the story of a few great men

Earls Colne's Early Modern Landscapes Dolly MacKinnon, 2016-04-29 The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing research project to collate and computerise the surviving records As such Earls Colne is undoubtedly one of the most studied parishes in England Yet whilst much is now known about the village and its inhabitants little work has been done on the social relationships that bound the community together within its mental and physical landscape As such scholars will welcome Dr MacKinnon's investigation into the social political and cultural world of early modern England as represented by Earls Colne The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts It examines how private public and communal spaces within society were generated gendered and governed and how this was recorded and perpetuated in the records names and monuments of the parish and surrounding landscape Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents these attempts were always counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers

historians the potential to revisit other local studies from a fresh perspective

The New Wealth of Cities John Montgomery, 2017-09-29 Over the past two decades city economies have restructured in response to the decline of older industries This has involved new forms of planning and urban economic development a return to traditional concerns of city building and a focus on urban design During this period there has also been a marked rise in our understanding of cultural development and its role in the design economy and life of cities In this book John Montgomery argues that this amounts to a shift in urban development He provides a long overdue look at the dynamics of the city that is how cities work in relation to the long cycles of economic development and suggests that a new wave of prosperity built on new technologies and new industries is just getting underway in the Western world The New Wealth of Cities focuses on what effect this will have on cities and city regions and how they should react Original and wide ranging this book will be a definitive resource on city economies and urban planning explaining why it is that cities develop over time in periods of propulsive growth and bouts of decline

Lancelot Brown and the Capability Men David Brown, Tom Williamson, 2016-08-15 Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown s birth this book casts important new light on his world renowned work his eventful life and the wider and robust world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown s design business and the products he offered clients showing that his design packages helped define the era s aesthetic They compare Brown s business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown s work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world

English Houses 1300-1800 Matthew H. Johnson, 2014-06-11 Houses are more than a shelter from the elements they also offer an unparalleled insight into the beliefs ideas and experiences of the people who built and lived in them In this engaging book Matthew Johnson looks at the traditional houses that still exist throughout the English countryside and examines the lives of the ordinary people who once occupied them His wide ranging narrative takes in the medieval hall and the community it framed the rebuilding and improvement of houses in the sixteenth and seventeenth centuries and the rise of the Georgian Order in both architecture and eighteenth century culture This passionate book is animated by the conviction that old houses are much more than just pretty tableaux of an idyllic unchanging rural England Vernacular houses are compared to their larger polite counterparts and English houses are placed in the wider context of the British Isles and the Atlantic world beyond The result is a dynamic compelling account of the development of houses in the

English countryside and through this a portrait of changing patterns of social life from medieval to modern times Richly illustrated throughout with photographs and drawings this book will be of interest to anyone who wants to understand the significance of our built heritage and the historic landscape

Rural Housing: Competition and Choice Michael Dunn, Marilyn Rawson, Alan Rogers, 2021-03-23 Originally published in 1981 this book explores the plight of the locally born or locally employed faced with spiralling house prices and strong and unequal competition from the wealthier commuter second home owner or retirement migrant It was the first book to examine the policy and planning issues in relation to these problems from the starting point of basic research and analysis

Man and the Natural World Keith Thomas, 1991-09-26 Man and the Natural World an encyclopaedic study of man's relationship to animals and plants is completely engrossing It explains everything why we eat what we do why we plant this and not that why we keep pets why we like some animals and not others why we kill the things we kill and love the things we love It is often a funny book and one to read again and again Paul Theroux Sunday Times The English historian Keith Thomas has revealed modes of thought and ways of life deeply strange to us Hilary Mantel New York Review of Books A treasury of unusual historical anecdote a delight to read and a pleasure to own Auberon Waugh Sunday Telegraph A dense and rich work the return to the grass roots of our own environmental convictions is made by the most enchantingly minor paths Ronald Blythe Guardian
