Making Faith Sense:

Making Faith-sense Robert L. Kinast, 1999 Making faith sense is a new term for an ancient practice. It is what the early Christians called mystical or wisdom theology: understanding life in the light of God's participation recorded in the Gospels, recognizing the signs of God's presence in everyday events and shaping one's life accordingly. In *Making Faith Sense*, Robert Kinast shows all who seek to unify their life experience around their belief in God how to follow that ancient practice. Drawing upon the award-winning process he has used with students for the ministry, Father Kinast explains how to make sense of family work and cultural experience from the perspective of Christian faith. Each chapter contains numerous real-life examples and practical guidelines that can be used privately or with a group. *Making Faith Sense* begins with a discussion of wisdom theology and its revival in modern times, highlighting the turn to experience that characterizes feminist liberation and inculturated theologies. The methods for making faith sense embrace three main components: experience, reflection, and action. The first section describes what is meant by experience, the value of narrating it, how to analyze it, and what to pay attention to so that experience will reveal its theological meaning. The second section explains the role of reflection, its similarity to prayer techniques for connecting experience to theological tradition, and the most useful theological resources for making faith sense. The third section affirms the importance of putting reflection into practice, ensuring that action flows from reflection, planning and evaluating the effect of one's practice, and of using practice as the starting point for continuing the process of making faith sense. Examples from work, family, and cultural life are used throughout to provide illustrations of these general points. A concluding chapter summarizes the reemergence of practical theology since the 1980s as an effort of church communities to make faith sense of their collective lives. Chapters are: What Is Faith Sense? How to Make Faith Sense? Getting Started? How to Make Faith Sense? The Heart of the Matter and Enacting Faith Sense? The Culmination of the Process. Robert L. Kinast, PhD, is a pastoral theologian specializing in the field of theological reflection. Through the publications and services of the Center for Theological Reflection, Indian Rocks Beach, Florida, he contributes to the ministry training programs of many denominations in the United States and Canada. Father Kinast is the author of the Vatican II Act II series and *Let Ministry Teach*, published by Liturgical Press. *The Reflective Disciple* Roger Walton, 2014-07-24 Helps readers to explore the concept of discipleship beginning with the New Testament and through examining snapshots of various patterns of discipleship as well as reflecting on discipleship in our contemporary context and setting. *Making Faith Magnetic* Daniel Strange, 2021-10-01 How to talk about Jesus in a way that connects with modern culture. As followers of Jesus, we know that the good news is deeply attractive. But we often fear that to those on the outside it comes across as irrelevant or even repellent. Sometimes the Christian worldview feels so out of step with everything else going on that we don't know how to share our faith. However, author Daniel Strange wants to show you that the connections are there in fact; the longings that our culture cannot help but express are the very ones that Jesus fulfills. Building on the

work of theologian J H Bavinck Dan reveals five recurring themes that our culture can't stop talking about or as he puts it the five permanent itches that in our work rest and play we have to vigorously scratch From TV to books to social media these are the questions we can't stop asking and the tensions we can't stop wrestling with and Jesus speaks powerfully into each one This book will help you to spot these connections in our culture excite you about how Jesus makes sense of humankind's deepest questions and longings apply them to your own life first and then equip you to speak of him to others in a way that is truly magnetic Dan Strange has written another terrific down to earth book to help believers engage in fruitful conversations with friends about faith Dr Timothy Keller who has also written the foreword to this book

Ethics Todd A. Salzman,Michael G. Lawler,2012-05-18 Two principles capture the essence of the Catholic tradition on sexual ethics that each and every marriage act must remain open to the transmission of life and that any human genital act must occur within the framework of marriage In the Catholic tradition moral sexual activity is institutionalized within the confines of marriage and procreation and sexual morality is marital morality But theologians Todd Salzman and Michael Lawler contend that there is a disconnect between many of the Church s absolute sexual norms and other theological and intellectual developments explicitly recognized and endorsed in the Catholic tradition especially since the Second Vatican Council These developments include the shift from a primary static worldview to a historically conscious worldview one that recognizes reality as dynamic evolving changing and particular By employing such a historically conscious worldview alternative claims about the moral legitimacy of controversial topics such as contraception artificial reproduction and homosexual marriage can faithfully emerge within a Catholic context Convinced of the central role that love desire and fertility play in a human life and also in the life of Christian discipleship the authors propose an understanding of sexuality that leads to the enhancement of human sexual relationships and flourishing This comprehensive introduction to Catholic
