

# 5 Simple Steps For Decision Making

1

## Identify that you have to make a decision.

When a situation arises and you have to make a decision, it is important to pause and identify that you have to decide about something.

2

## Think about the different choices that you have.

There are always many choices that you can make in any given situation. Were you given choices or is it up to you to come up with the choices and then decide?

3

## Create a Pro and Con List.

Before making a decision, create a quick T-chart with one side labeled "pros" and one side labeled "cons". The pros represent the ideas in favor of something and the cons represent the ideas against doing something.

4

## Try it out!

After you make your decision, put your decision into action.

5

## Reflect!

Think about how your decision worked out. How does it effect you and others? Are you happy with your decision, or are you going to change your mind.
