**Remaking New Orleans** Thomas Jessen Adams, Matt Sakakeeny, 2019-04-04 Approached as a wellspring of cultural authenticity and historical exceptionality New Orleans appears in opposition to a nation perpetually driven by progress *Remaking New Orleans* shows how this narrative is rooted in a romantic cultural tradition continuously repackaged through the twin engines of tourism and

economic development and supported by research that has isolated the city from comparison and left unquestioned its entrenched inequality Working against this feedback loop the contributors place New Orleans at the forefront of national patterns of urban planning place branding structural inequality and racialization Nontraditional sites like professional wrestling matches middle class black suburbs and Vietnamese gardens take precedence over clichéd renderings of Creole cuisine voodoo queens and hot jazz Covering the city's founding through its present and highlighting changing political and social formations this volume remakes New Orleans as a rich site for understanding the quintessential concerns of American cities Contributors Thomas Jessen Adams Vincanne Adams Vern Baxter Maria Celeste Casati Allegretti Shannon Lee Dawdy Rien Fertel Megan French Marcelin Cedric G Johnson Alecia P Long Vicki Mayer Toby Miller Sue Mobley Marguerite Nguyen Aaron Nyerges Adolph Reed Jr Helen A Regis Matt Sakakeeny Heidi Schmalbach Felipe Smith Bryan Wagner Rethinking Community Resilience Min Hee Go, 2021-08-03 Explores the unintended consequences of civic activism in a disaster prone city After Hurricane Katrina thousands of people swiftly mobilized to rebuild their neighborhoods often assisted by government organizations nonprofits and other major institutions In *Rethinking Community Resilience* Min Hee Go shows that these recovery efforts are not always the panacea they seem to be and can actually escalate the city's susceptibility to future environmental hazards Drawing upon interviews public records and more Go explores the hidden costs of community resilience She shows that despite good intentions recovery efforts after Hurricane Katrina exacerbated existing race and class inequalities putting disadvantaged communities at risk Ultimately Go shows that when governments nonprofits and communities invest in rebuilding rather than relocating they inadvertently lay the groundwork for a cycle of vulnerabilities As cities come to terms with climate change adaptation rather than prevention *Rethinking Community Resilience* provides insight into the challenges communities increasingly face in the twenty first century *Exploring the Conditions that Impact Local Administration Responsiveness work to Migrants in selected Metropolitan Municipalities of South Africa* Kibreab Habtemichael Gebereselassie, 2022-01-03 Research on local administration responsiveness towards migrants and non citizens revealed that demographic characteristics in local municipalities have often caused challenges for local administrations to be responsive to the diverse needs of their communities Lucio et al 2013 Lucio 2016 The objective of this study was to explore the conditions that impact on the local administration's responsiveness work to migrants in Durban Cape Town Johannesburg metropolitan municipalities of South Africa The study's goal is met by identifying five major conditions that impact the local administration's responsiveness work to migrants in the study areas Conducted in two rounds field research the study used qualitative research design methods Semistructured interviews group discussions field memos and observations were used to collect data Thematic analysis method was implemented to investigate and analyze the collected raw data This dissertation also used relevant theory as framework and guide to uncover elements of local administrative responsiveness which are associated with migrants The study identified and demonstrated that five major

conditions impact the local administration's responsiveness work to migrants in the study areas. Local administration work environment, administration organizational structure and professionalism, external control from elected officials and local politics, migrant's community association and economic contribution of migrants are the main conditions that impact on the responsiveness work of the local administration. The findings also showed that anchored in the above five conditions, administrative responsiveness also varies across the selected study areas. This study also contributed by adding new insights about the mechanisms on how the local administration can address the issues of migrants who do not have a direct representation in the local government structure. Accordingly, for a better responsiveness work to migrants and to support the inclusion of migrants who do not have a direct political representation, the study proposes recommendation for policy practice and research that targets on local administration responsiveness work to migrants.
