### **Self-determined Learning Theory** Deirdre K. Mithaug, Martin Agran, James E. Martin, Michael L. Wehmeyer, 2002-12-18

This volume brings together four semi autonomous bodies of research choice self determination self regulation and self management to form a new theory of self engaged learning entitled Self Determined Learning Theory This theory explains why and how students self engage It identifies the factors that give students the sense of control over their learning that is needed for sustained adaptive and ultimately successful learning It begins by describing the characteristics of disengaged learners then describes and illustrates self determined learning theory within both normal and special populations It then examines the theory s predictive value across several special population contexts and then concludes with a critique of the theory s credibility and worth Divided into three sections theory construction theory verification and theory evaluation this volume is organized using the four steps of a previous book *Learning to Theorize A Four Step Strategy* Step 1 defines a problem of not understanding something as discrepancy between what is known and not known about a circumstance Step 2 searches for information and explanations to change the condition of not knowing into a condition of knowing Step 3 evaluates the credibility and worth of the explanation constructed in Step 2 Step 4 adjusts existing beliefs so they are consistent with the new theory Although aimed primarily at leaders in special education it should also appeal to researchers and scholars in psychology educational psychology and school psychology who are interested in the applications of self regulated learning theory in this case to special populations

Disorders Dianne Berkell Zager,2013 Similar to a handbook in its comprehensive description of the theory and research supporting current practices in the treatment of autism spectrum disorders this interdisciplinary text shows how the existing knowledge base can be used to explore promising new possibilities related to the field s many unanswered questions

**Educating College Students with Autism Spectrum Disorders** Dianne Zager,Carol S Alpern,Barbara McKeon,Janet Mulvey,Sue Maxam,2012-12-12 Educating College Students with Autism Spectrum Disorders is one of the first books to specifically address the accommodation of students with significant learning differences in postsecondary education Developed with the support of Autism Speaks and piloted at Pace University each component of this book is scientifically based and provides a model of emerging best practices for college instruction involving students with ASD The text is designed to give college faculty a deep understanding of students with ASD and help faculty to productively engage students with ASD while also meeting the needs of all students in their classes The strategies included in the manual are solidly grounded in principles of universal design and will prove indispensable for teaching college students of varying ability levels and diverse learning styles A companion video shows clips of students and educators that are engaged in inclusive practices to illustrate approaches that have been successful in dealing with challenging situations in the classroom **Children as**

**Decision Makers in Education** Sue Cox,Caroline Dyer,Anna Robinson-Pant,Michele Schweisfurth,2011-11-10 Since the UN Convention on the Rights of the Child there has been an increasing recognition globally that children need to have more say in their education Children as Decision Makers in Education looks at how children can actively participate in decision making It builds upon previous research into student voice and decision making citizenship education in the school curriculum and work with children as researchers This insightful collection is forward looking bringing together cross cultural experiences and supporting individuals or groups to work collaboratively in the future THEORY IN SELF-DETERMINATION Michael

L. Wehmeyer,Brian H. Abery,Dennis E. Mithaug,Roger J. Stancliffe,2003-01-01 This text provides a comprehensive overview of three theoretical perspectives proposed during the past decade addressing the self determination construct as it applies to the field of special education The three models were selected primarily because they have focused on defining and categorizing self determination for all students with disabilities including students with mental retardation and other cognitive disabilities These models are intended to provide students and practitioners a solid grounding in self determination theory All models have been evaluated among students with cognitive disabilities but are applicable to all students with or without disabilities The authors research each model and have applied their own theoretical framework to special education ensuring that interventions to promote skills like problem solving goal setting decision making and self advocacy are in place for all students By reading this text the reader will gain a solid theoretically based foundation in understanding the self determination construct which ultimately supports the development of instructional interventions that enable students with disabilities to become self determined It will be useful as a text in upper undergraduate and graduate courses in special

education psychology social work welfare general education vocational rehabilitation and disability studies      **Making it Happen** Michael L. Wehmeyer, Deanna J. Sands, 1998 This practical volume promotes active student involvement in education planning and decision making In three parts Part I Involving students with disabilities in the education process an overview of the impetus for benefits from student involvement Part II Promoting student involvement in the education planning and decision making process Part III Student involvement in program implementation and evaluation      The Positive Psychology of Personal Factors Dana S. Dunn, Michael L. Wehmeyer, 2022-01-17 Historically interventions designed to impact the lives of disabled people were predicated upon deficits based models of disability This began to change with the introduction of World Health Organization WHO frameworks particularly the International Classification of Function ICF that emphasized that disability could only be understood in the context of interactions among health environmental factors and personal factors and by examining the impact of such factors on a person's activities and participation The ICF identified personal factors as among the elements of a social ecological model of disability but did not provide an extensive taxonomy of what constitutes such factors The Positive Psychology of Personal Factors examines personal factors that come from the field of positive psychology and as such to begin to identify and build strengths based approaches to promoting the full participation dignity and well being of disabled people      School Connectedness for Students with Disabilities Therese M. Cumming, Robbie J. Marsh, Kyle Higgins, 2017-09-05 School Connectedness for Students with Disabilities From Theory to Evidence based Practice focuses on the importance of school connectedness for students with disabilities and presents ways in which this sense of connectedness can be fostered Written from a holistic perspective it embraces a variety of approaches strategies and interventions rooted in evidence based theory and practice and examines them not only in regard to the student with a disability but also school leaders teachers families and community members The book describes and defines the concept of school connectedness provides the reader with a theoretical framework from which to examine connectedness and explores connectedness from the lens of each of its components It discusses the importance of assessing school connectedness in order to make data based intervention decisions as well as unpacking the components of student engagement school climate bonding and attachment Several school wide and leadership approaches that foster school connectedness are presented as are ways to involve families All of these are discussed through the lens of disability in order to acknowledge the characteristics of disability that affect student levels of school connectedness School connectedness has become a priority for many schools and educators internationally Research demonstrates the importance of connectedness as a protective factor and its impact on the health behaviour social emotional and academic outcomes of young people Grounded in theory and relevant to practice this is essential reading for anyone interested in improving the school connectedness of students with different disabilities across the lifespan      **Understanding Intellectual Disabilities** Stephen B. Richards, Michael P. Brady, Ronald L. Taylor, 2024-07-29 The third edition provides thorough coverage of the

**Clinician's Handbook of Child Behavioral Assessment** Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment it is difficult for clinicians to keep abreast of new developments In recent years there have been advances in assessment case conceptualization treatment planning treatment strategies for specific disorders and considerations of new ethical and legal issues Keeping track of advances requires monitoring diverse resources limited to specific disorders many of which give short shrift to child assessment overlooking developmental considerations Much of the existing literature is either theoretical research in focus or clinical in nature Nowhere are the various aspects of child behavioral assessment placed in a comprehensive research clinical context nor is there much integration as to conceptualization and treatment planning The Clinician's Handbook of Child Behavioral Assessment was created to fill this gap summarizing critical information for child behavioral assessment in a single source The Clinician's Handbook of Child Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes child abuse assessment classroom assessment behavioral

neuropsychology academic skills problems and ethical legal issues Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective child behavioral assessment **Handbook of Intellectual and Developmental Disabilities** John W. Jacobson, James A. Mulick, Johannes Rojahn, 2007-03-15 Changes within the interdisciplinary field of intellectual and developmental disabilities are evolving at a rapid pace Clinicians academics administrators and a variety of mental health providers alike need easy to access reliable information that enables them to stay abreast of the numerous advances in research assessment treatment and service delivery within a real world sociopolitical framework To that end the Handbook of Intellectual and Developmental Disabilities is an essential resource for any professional who works with this vulnerable population This volume examines in detail the numerous advances in the field summarizing major domains and emerging subspecialties into one eminently useful reference Its contributors comprise a panel of the leading scientist clinicians who offer much needed insight and guidance into ongoing improvements in theory and practice as well as intervention and prevention For example the handbook Opens with chapters that offer a comprehensive review of current definitions classifications etiology and findings on the most prevalent conditions including cerebral palsy pediatric brain injury genetic syndromes and autism spectrum disorder Provides a survey of psychological and educational service delivery systems available to people with intellectual disabilities for example several chapters focus on explaining how agencies work the politics of service delivery residential versus day treatment and program evaluation Offers a wide range of assessment and diagnostic tools and tactics including cognitive and adaptive behavior assessments assessing for psychopathology developmental screening family assessment and forensic applications Reviews the latest evidence based prevention and intervention strategies from social skills training to self harm reduction to pharmacotherapy Concludes with insightful chapters on the ethical issues social acceptance and advocacy The Handbook of Intellectual and Developmental Disabilities makes clear the far reaching impact these disorders have on individuals their families and society in general For clinicians researchers and advanced level graduate students this volume is a must have resource and reference

*Behavioral Assessment in Schools* Edward Steven Shapiro, Thomas R. Kratochwill, 2000-06-13 A landmark text this volume systematically addresses the issues involved in developing behavioral assessment strategies for educational rather than clinical settings The theoretical and conceptual underpinnings of widely used assessment methods are discussed and their strengths and limitations evaluated Attention is given to legal and professional issues decision making processes in educational diagnosis and culturally sensitive assessment practices [Planning for the Success of Students with IEPs: A Systematic, Supports-Based Approach \(The Norton Series on Inclusive Education for Students with Disabilities\)](#) James R. Thompson, 2022-07-12 A great special educator is an expert problem solver The difficulties that students with individual education plans IEPs encounter in general education classrooms are rarely impossible to overcome What is required to help them succeed is figuring out the individualized supports they need whether that involves accessing technology receiving

assistance from a peer or adult or curricular and assignment adaptations In this comprehensive handbook from The Norton Series on Inclusive Education for Students with Disabilities James R Thompson synthesizes the work of a team of experts to provide a roadmap for that problem solving process The Systematic Supports Planning Process is structured around three central questions that lead to identifying different types of support What to teach curricular adaptations How to teach instructional supports How to promote participation participation supports Packed with easy to follow guidelines as well as implementation tools and examples this book is a one stop reference for planning delivering monitoring and evaluating the supports that students with IEPs require
