Meredith, 1995 This unique book combines linguistics history archaeology and anthropology into a whole overview of the development of tribal alliances and self governance through time No other scholar addresses so successfully and so well the imagery of political and historical issues through dance C Blue Clark author of *Lone Wolf v Hitchcock* **The Columbia Guide to American Indians of the Great Plains** Loretta Fowler, 2003 From where and what does water come How did it become the key to life in the universe Water from Heaven presents a state of the art portrait of the science of water recounting how the oxygen needed to form H₂O originated in the nuclear reactions in the interiors of stars asking whether microcomets may be

replenishing our world's oceans and explaining how the Moon and planets set ice age rhythms by way of slight variations in Earth's orbit and rotation. The book then takes the measure of water today in all its states: solid and gaseous as well as liquid. How do the famous El Niño and La Niña events in the Pacific affect our weather? What clues can water provide scientists in search of evidence of climate changes of the past and how does it complicate their predictions of future global warming? Finally, *Water from Heaven* deals with the role of water in the rise and fall of civilizations. As nations grapple over watershed rights and pollution controls, water is poised to supplant oil as the most contested natural resource of the new century. The vast majority of water used today is devoted to large-scale agriculture and though water is a renewable resource, it is not an infinite one. Already many parts of the world are running up against the limits of what is readily available. *Water from Heaven* is in short the full story of water and all its remarkable properties. It spans from water's beginnings during the formation of stars all the way through the origin of the solar system, the evolution of life on Earth, the rise of civilization and what will happen in the future. Dealing with the physical, chemical, biological and political importance of water, this book transforms our understanding of our most precious and abused resource. Robert Kandel shows that water presents us with a series of crucial questions and pivotal choices that will change the way you look at your next glass of water. — *Ledger Narratives* Michael Paul Jordan, 2017-09-05

The largest known collection of ledger art ever acquired by one individual is Mark Lansburgh's diverse assemblage of more than 140 drawings now held by the Hood Museum of Art at Dartmouth College and catalogued in this important book. The Cheyennes, Crows, Kiowas, Lakotas and other Plains peoples created the genre known as ledger art in the mid-nineteenth century. Before that time these Indians had chronicled the heroic achievements of their warriors and chiefs on rock, buffalo robes and tipi covers. As they came into increasing contact with American traders, the artists recorded their experiences in pencil and crayon drawings on paper bound in ledger or account books. The drawings became known as ledger art. This volume presents in full color the Lansburgh collection in its entirety. The drawings are narratives depicting Plains lifeways through Plains eyes. They include landscapes and scenes of battle, hunting, courting, ceremony, incarceration and travel by foot, horse, train and boat. Ledger art also served to prompt memories of horse raids and heroic exploits in battle. In addition to showcasing the Lansburgh collection, *Ledger Narratives* augments the growing literature on this art form by providing seven new essays that suggest some of the many stories the drawings contain and that look at them from innovative perspectives. The authors, scholars of art history, anthropology, history and Native American studies, touch on such themes as gender, social status, sovereignty, tribal and intertribal politics, economic exchange and confinement and space in a changing world. The Lansburgh collection includes some of the most arresting examples of Plains Indian art and the essays in this volume help us see and hear the multiple narratives these drawings relate. — **A Kiowa's Odyssey** Phillip Earenfight, 2007

Americans from Oklahoma to Florida and subsequent Westernization and assimilation of the prisoners **Howling Wolf and the History of Ledger Art** Joyce M. Szabo, 1994 Ledger art is the term used to describe Plains Indian drawings and paintings on paper from the second half of the nineteenth century because they were often made on ledger paper readily available from military outposts Howling Wolf is arguably the single most important ledger artist to emerge from the anonymity of this period The Southern Cheyenne warrior was not only an extremely skilled artist he was also the only Plains artist known to have created ledger art in all three phases of the art form the pre reservation era the years from 1875 to 1878 when Indians of the southern Plains were confined at Fort Marion in Florida and the reservation period Howling Wolf's drawings while he was a prisoner at Fort Marion and those he made upon returning to the reservation were known but this book presents the first in depth examination of his previously undiscovered work from before his incarceration The author shows ledger art to be a significant record of cultural attitudes of Plains Indian artists at a time when their societies were in great upheaval She examines the works of art not only as historic documents but as visual statement reflecting the time place and society in which they originated In contrast to the belief that ledger art was a stagnant form adhering to tradition the author presents ledger art as a dynamic and inventive means of expression Book jacket **Sending My Heart Back Across the Years** Hertha Dawn Wong, 1992-03-12 Using contemporary autobiography theory and literary historical and ethnographic approaches Wong explores the transformation of Native American autobiography from pre contact oral and pictographic personal narratives through late nineteenth early twentieth century life histories to written contemporary autobiographies This book expands the definition of autobiography to include non written forms of personal narrative and non Western concepts of self highlighting the incorporation of traditional tribal modes of self narration with Western forms of autobiography and charting the historical transition from orality to literacy A Western Legacy National Cowboy and Western Heritage Museum, 2005 Celebrates the fiftieth anniversary of this premier museum in Oklahoma City offering both an institutional history and a captivating collection of photographs representing its extensive holdings Simultaneous **Dark Storm Moving West** Barbara Belyea, 2007 The fur trade was the impetus for much of the exploration and discovery of North America The essays in Dark Storm Moving West trace three phases of westward exploration naval and fur trade ventures on the Pacific coast traders progress along interior rivers and lakes and the transcontinental Lewis and Clark expedition which used maps based on fur trade surveys Author Barbara Belyea poses challenging questions about the rapid expansion its effects on Native populations European versus Native cartography cultural definitions of space and communication of traditions Material Vernaculars Jason Baird Jackson, 2016-10-03 The role of objects and images in everyday life are illuminated incisively in Material Vernaculars which combines historical ethnographic and object based methods across a diverse range of material and visual cultural forms The contributors to this volume offer revealing insights into the significance of such practices as scrapbooking folk art produced by the elderly the wedding coat in Osage ceremonial
