Memoirs of a Happy Psycho Daniel De La Cruz, 2021-10-08 How many times have you been asked how you were doing and you responded better In all honesty you might have been doing a little better than the last time but not much Then this book is for you But this book is also for people who are just tired of not living their best lives People who wish they had someone they can go to that can help direct them on the path to living that best life How many people wish they had an older person they can turn to when they feel doubt to ask for advice Someone who has accumulated years of wisdom to say You know what I've been there and this is what these things will lead to Let me show you how I got past that How many people are just in need of some source of guidance I have felt like this my whole life I was born blessed with a unique type of mind that as I experience life my mind records everything I learn as from a 3rd person which

makes it easy for me to document and learn from things as I go I've also done my fair share of traveling and in my own search for inner peace have picked the brain of so many people from different walks of life who had so much wisdom to give Of all these things I have learned I picked out the most common and universal things that I feel prevent people from living their best lives and wrote this book So that anyone reading this book can be well on their way to being better at being better Better at beating anxiety and self doubt be more confident in themselves Even help in building financial stability and find inner peace I feel it necessary to let everyone know that I credit all of my success in life from overcoming chronic crippling anxiety and panic disorder to surviving the prison system for years to dealing with deaths and raising kids and heartbreak and poverty and severe PTSD and an injury that took away my ability to walk for a while to growing up with an abusive parent and sibling to battling my own inner demons and having a heart attack at 26 to my faith in God Not religion My relationship with God If you have always felt like God hasn't been there for you read this book If you feel like you never really felt God read this book If you never really thought much about God playing an active role in your life read this book If you just need a nudge in the right direction and are lost a little bit or a lot read this book If you just want to be better at being better read this book

*The Making of Americans in Paris* Noel Sloboda, 2008 While living in Paris at the beginning of the twentieth century expatriate American writers Edith Wharton 1862-1937 and Gertrude Stein 1874-1946 never crossed paths Even so they did rub shoulders in print in autobiographical essays published by *The Atlantic Monthly* in 1933 Noel Sloboda shows that the authors pursued many of the same professional goals in these essays and in the book length life writings that grew out of them *A Backward Glance* 1934 and *The Autobiography of Alice B. Toklas* 1933 By analyzing the personal and cultural contexts in which these works were produced as well as subjects common to both of them Sloboda illuminates a previously unrecognized solidarity between Wharton and Stein The relationship between the authors is built upon careful analysis of *A Backward Glance* and *The Autobiography of Alice B. Toklas* and it is framed by a consideration of the markets into which their life writings were first released The alignment of Wharton and Stein as life writers will be of interest to those studying autobiography modern literature and American women writers

Pennington,2018-04-30 This is the first book length study of the fictional autobiography a subgenre that is at once widely recognizable and rarely examined as a literary form with its own history and dynamics of interpretation Heidi L Pennington shows that the narrative form and genre expectations associated with the fictional autobiography in the Victorian period engages readers in a sustained meditation on the fictional processes that construct selfhood both in and beyond the text Through close readings of Jane Eyre David Copperfield and other well known examples of the subgenre Pennington shows how the Victorian fictional autobiography subtly but persistently illustrates that all identities are fictions Despite the subgenre s radical implications regarding the nature of personal identity fictional autobiographies were popular in their own time and continue to inspire devotion in readers This study sheds new light on what makes this subgenre so compelling up to and including in the present historical moment of precipitous social and technological change As we continue to grapple with the existential question of what determines who we really are this
