**Three American Radicals** Sender Garlin, 2019-08-22 Sender Garlin is a veteran journalist and pamphleteer who has interviewed such figures as Theodore Dreiser Clarence Darrow and Emma Goldman and was present at all the Moscow purge trials of the 1930s Here he writes on three Americans involved in forging a new political force before and just after the turn of the century

**Stories of Home** Devika Chawla, Stacy Holman Jones, 2015-09-17 *Stories of Home Place Identity Exile* offers a window into the distinct ways that home is theorized and conceptualized across disciplines The essays in this volume consider how people speak and story home in their everyday lives why home is central to our notion of who we are and how making home a unit of analysis in research makes a strong conceptual contribution to the field of communication This collection engages home from diverse contexts and disparate philosophical underpinnings at the same time the essays converse with each other by centering their foci on the relationship between home place identity and exile Home how we experience it and what it says about the selves we come to occupy is an exigent question of our contemporary moment *Stories of Home Place Identity Exile* delivers timely and critical perspectives on these important questions

**The Cause That Failed: Communism in American Political Life** Guenter Lewy, 1990-09-13 From a height of almost 100 000 members during the Depression when politicians workers and intellectuals were drawn into its orbit the American Communist Party has descended into irrelevance and isolation failing even to run a presidential candidate in 1988 Indeed as Guenter Lewy writes in this critical account of American Communism despite decades of feverish activity and ferocious discipline it was a cause doomed to fail from the very beginning In *The Cause that Failed* Lewy offers an incisive narrative of the American Communist Party from the days of John Reed to the advent of glasnost He traces its origins and development underscoring how its devotion to Moscow and inflexible Marxist ideology isolated it from the American scene in fact most of its first members were Eastern European immigrants During the left wing tide of the Depression the Communist Party reached the peak of its influence as it joined labor unions and progressive organizations in a Popular Front But Lewy reveals the deceptive antidemocratic self defeating tactics the Communists pursued even then as they manipulated front organizations seized control of political parties peace groups and labor unions and enforced political conformity among members and sympathizers He follows the Party through its inexorable decline in the succeeding decades up to its current position as one of the last Stalinist parties left in a world of glasnost and perestroika Lewy also provides a sharply critical discussion of the encounter between Communism and liberal and mainstream America He examines such groups as the ACLU and SANE arguing that the years when these organizations were tolerant toward Communists were also the times when they neglected their original purpose in favor of partisan causes He shows how Communists have manipulated well meaning citizens in the peace movement and in Wallace s 1948 Progressive

Party presidential campaign One of the great ills Americans suffer he writes is an overreaction to McCarthyism an atmosphere of anti anticommunism which blinds them to the wrongs wrought by international Communism and makes them ignore the deceptive role played by the American Communist Party which even today still keeps eighty percent of its membership secret The Cause that Failed presents an intensively researched and trenchantly argued historical analysis of Communism in America Guenter Lewy s provocative account provides a new understanding of Communism s machinations in U S politics and how Americans from across the political spectrum have responded to its challenge *Randolph Bourne and the Politics of Cultural Radicalism* Leslie J. Vaughan, 1997 Reassesses the short life and career of American essayist critic and founder of cultural radicalism Bourne 1886 1918 known today mostly for his opposition to US military involvement in Europe and warnings about the military industrial complex Vaughan political science U of Minnesota Duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change Annotation copyrighted by Book News Inc Portland OR *The Oxford Companion to American Literature* James D. **Hipbillies** Jared M. Phillips, 2019-04-15 Counterculture flourished nationwide in the 1960s and 1970s and while the hippies of Haight Ashbury occupied the public eye a faction of back to the landers were quietly creating their own haven off the beaten path in the Arkansas Ozarks In Hipbillies Jared Phillips combines oral histories and archival resources to weave the story of the Ozarks and its population of country beatniks into the national narrative showing how the back to the landers engaged in deep revolution by sharing their ideas on rural development small farm economy and education with the locals and how they became a fascinating part of a traditional region s coming to terms with the modern world in the process

University Reform Hans-Joerg Tiede, Michael Bérubé, 2015-11-15 Academic freedom the intellectual bedrock of American intellectual activities was not always a shared value but one that emerged from faculty collective action This book provides a detailed history of the founding and early activities of the American Association of University Professors set into the broader societal and intellectual circumstances that affected its initial development Key to the story of course is the influential work of Arthur O Lovejoy at Johns Hopkins and John Dewey at Harvard in establishing this national association and very early professional trade union The professionalization of the faculty which accompanied the development of the American research university identified academic freedom as a central element of professional autonomy Public debates over academic freedom occurred within the broader debate of the balance of power in the American university This debate was strongly influenced by the perspectives of the Progressive Era the goal to democratize university governance was presented frequently in terms similar to the broader goal of democratizing American society These developments were central to the establishment of the Association and individual founders of the AAUP played an active part in many of them inside and outside of academe

**Democratic Doubt** Bob Pepperman Taylor, 2004 Much of the world today views America as an imperialist nation bent on global military economic and cultural domination At home few share this negative view Bob Pepperman Taylor however argues that US moral self righteousness may potentially imperil democratic ideals and threaten democracy

**Autobiography as Activism** Margo V. Perkins, 2009-10-05 Angela Davis Assata Shakur a k a JoAnne Chesimard and Elaine Brown are the only women activists of the Black Power movement who have published book length autobiographies In bearing witness to that era these militant newsmakers wrote in part to educate and to mobilize their anticipated readers In this way Davis s Angela Davis An Autobiography 1974 Shakur s Assata 1987 and Brown s A Taste of Power A Black Woman s Story 1992 can all be read as extensions of the writers political activism during the 1960s Margo V Perkins s critical analysis of their books is less a history of the movement or of women s involvement in it than an exploration of the politics of storytelling for activists who choose to write their lives Perkins examines how activists use autobiography to connect their lives to those of other activists across historical periods to emphasize the link between the personal and the political and to construct an alternative history that challenges dominant or conventional ways of knowing The histories constructed by these three women call attention to the experiences of women in revolutionary struggle particularly to the ways their experiences have differed from men s The women s stories are told from different perspectives and provide different insights into a movement that has been much studied from the masculine perspective At times they fill in complement challenge or converse with the stories told by their male counterparts and in doing so hint at how the present and future can be made less catastrophic because of women s involvement The multiple complexities of the Black Power movement become evident in reading these women s narratives against each other as well as against the sometimes strikingly different accounts of their male counterparts As Davis Shakur and Brown recount events in their lives they dispute mainstream assumptions about race class and gender and reveal how the Black Power struggle profoundly shaped their respective identities      Negative

Intelligence Roy Talbert Jr., 2010-12-01 During World War I in the period of the Red Scare and throughout the Great Depression the army s domestic spy agency mounted an extensive surveillance campaign focused on civilians and groups deemed subversive Negative Intelligence traces the fascinating and astonishing story of military espionage on the home front Created by Major General Ralph H Van Deman in 1917 the Negative Branch of Military or MI spied on American reformers in a program of civilian surveillance that surpassed even that of the Department of Justice s Bureau of Investigation Among the targets were the Industrial Workers of the World the American Civil Liberties Union and Negro Subversion Documentation of MI s program of domestic espionage is from recently opened Military Intelligence archives Closely allied with private vigilante groups the Army conducted illegal raids made illegal arrests subjected many citizens to interrogation and developed an elaborate filing system for its dossiers After World War I the hysteria continued with MI s direct focus beamed upon a new

enemy the Bolsheviks. Although MI's abuses have been overshadowed by those of the Department of Justice army espionage was in many ways more aggressive than its civilian counterpart. Negative Intelligence documents these abuses and shows how until 1921 the attempts to restrain MI's work failed. After this time with limited staff and funding MI could do no more than maintain close liaison with private super patriotic groups. However the coming of the Great Depression fired up the rebirth of the army's civilian espionage programs. Then as World War II approached internal security once again became a national policy and J Edgar Hoover of the Federal Bureau of Investigation moved his powerful network into the supreme position of domestic spying.
