Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on kings politicians authors architects composers artists and philosophers a thorough history of France is presented 1994-1995 Brian Hunter,2021-06-21 No detailed description available for 1994 1995 Women in France Since 1789 Susan Foley,2017-03-14 This compelling study traces the changes in women s lives in France from 1789 to the present Susan K Foley surveys the patterns of women s experiences in the socially segregated society of the early nineteenth century and then traces the evolution of their lifestyles to the turn of the twenty first century when many of the earlier social distinctions had disappeared Focusing on women s contested place within the political nation *Women in France since 1789* examines The on going strength of notions of sexual difference Recurrent debates over gender The anxiety created by women s perceived departure from ideals of womanhood Major controversies over matters such as reproductive rights significant cultural changes and women s often under estimated political roles By addressing and exploring these key issues Foley demonstrates women s efforts over two centuries to create a place in society on their own terms *The End of Middle Class Politics?* Sotiris Rizas,2018-12-17 The response of the middle classes to the financial crisis of 2008 is a central theme in the political systems of most developed Western countries This book approaches middle class politics from a historical perspective looking at its progression since the early 1900s The middle classes contributed significantly and in various ways to the evolution of mass politics in the West with middle class intellectuals oriented to social and political reform such as Leonard Hobhouse Herbert Croly and Leon Bourgeois influencing the setup of politics and the building of institutions in the early 20th century and with lower middle class disaffection fuelling protest politics in the 1890s and 1900s The rise of Fascism in the interwar period owed much to the perception of liquidation permeating the middle classes in the 1920s and the 1930s as a result of post World War I hardship and the Crash of 1929 31 Conversely mass affluence during the trente glorieuses was the result of the post World War II growth strategies adopted by conservatives and social democrats alike The rise of Thatcherism led to the emergence of a more consumerist and market oriented middle class that enjoyed a high living standard but was subjected simultaneously to the turbulences of globalization and the fluctuations of the markets Political realignments that are currently taking shape after the Crash of 2008 are related to the loss of status and purchasing power of the vast middle class formed during the postwar years It is also of historical significance to compare various middle class responses in the 2010s to those to the Crash of the 1920s and 1930s Although authoritarianism and Fascism were the ultimate outcomes of interwar politics there were and still are viable democratic and socially inclusive alternatives
