Making Of Stonehenge:

The Making of Stonehenge Rodney Castleden, 2002-11 Castleden suggests that there is no one meaning or purpose for Stonehenge that from its very beginning it has filled a variety of needs **How to Build Stonehenge** Mike Pitts, 2022-02-17 Icon of the New Stone Age sculptural and engineering marvel symbol of national pride there is nothing quite like Stonehenge These great sarsen and bluestone slabs arranged with simple graphic genius attract visitors from across the world The monument stands silent in the face of the questions its unlikely existence raises who built it Why How There has been endless speculation about why Stonehenge was built inspiring theories ranging from the academically credible to the improbable but far less investigation into how In the millennia since its creation pieces of Stonehenge have been knocked over by heavy machinery found their way to Florida and back again and been exposed to radioactive sodium but the seemingly impossible endeavour of raising the stones with Neolithic technology has remained inexplicable until now In the past decade ground breaking discoveries made possible by cutting edge scientific techniques have traced the precise provenance of the bluestones in Wales but can we plot their journeys to the Salisbury Plain And how might teams of labourers lacking machinery or even pack animals have dragged them 150 miles to the site How did they carve joints into the sarsen boulders among the hardest stones in the world and then raise them into place Mike Pitts draws on a lifetimes study to answer these questions revealing how Stonehenge stood not in austere isolation as we see it today but as part of a wider world the focus of a megalithic cosmology of belief ritual and creativity *Making Sense of Monuments* Michael J. Kolb, 2019-11-06 Stonehenge Machu Picchu Confederate statues Egyptian pyramids and medieval cathedrals these are some of the places that are the subject of *Making Sense of Monuments* an analysis of how the built environment molds human experiences and perceptions via bodily comparison Drawing from recent research in cognitive neuroscience psychology and semiotics Michael J Kolb explores the mechanics of the mind the material world and the spatialization process of monumental architecture Three distinct spatial cognitive metaphors time movement and scale comprise strands of knowledge that when interwoven create embodied contours of meaning of how human interact with monumental spaces Comprehensive lucidly written and thoroughly illustrated *Making Sense of Monuments* is a vibrant extraordinary journey of the monuments we have constructed and inhabited **The Making of the British Landscape** Francis Pryor, 2010-06-03 This is the changing story of Britain as it has been preserved in our fields roads buildings towns and villages mountains forests and islands From our suburban streets that still trace out the boundaries of long vanished farms to the Norfolk Broads formed when medieval peat pits flooded from the ceremonial landscapes of Stonehenge to the spread of the railways evidence of how man s effect on Britain is everywhere In *The Making of the British Landscape* eminent historian archaeologist and farmer Francis Pryor explains how to read these clues to understand the fascinating history of our land and of how people have lived on it throughout time Covering both the urban and rural and packed with pictures maps and drawings showing everything from how we can still
