## **Making Of Channel 4:**

*The Making of Channel 4* Peter Catterall, 2013-07-24 Channel 4 had been a matter of controversy for years even before it came on the air in November 1982 There were lengthy debates about what its role would be and the part to be played by the ITV companies and the growing number of independent television producers There was also political controversy over the profile of the new channel some wishing to see it as their channel in response to the apparent political hegemony of Margaret Thatcher The result was sharp conflicts not only over programming but as the channel became established over its relationships with the ITV companies and its regulatory body the IBA These controversies in the making of Channel 4 are revisited in this volume The opening article by Edmund Dell the channel's first chairman describes and explains his sometimes stormy relationship with Jeremy Isaacs the chief executive while the witness seminar and the other articles offer the views of Channel 4 commissioning editors and representatives from the IBA the ITV companies the independent producers the Home Office and the BBC

**Channel 4** Maggie Brown, 2021-05-20 This book covers a dramatic decade in the fortunes of Britain's quirkiest broadcaster It opens in 2009 with the realisation that Channel 4's biggest money spinner Big Brother had become a toxic asset and would have to be discarded at the same time as advertising revenues were shrinking in the wake of the 2008 financial crash Maggie Brown's compelling narrative which draws on interviews with key players in Channel 4's story and unique access to the broadcaster's archives takes us inside the boardroom battles changes in senior management and commissioning teams interventions by the media regulator Ofcom and the channel's response to a rapidly changing media and political landscape Brown describes how the channel under its new chief executive David Abraham successfully fought off the threat of privatisation which became a reality after the Conservatives general election victory in 2015 The price for remaining publicly funded was a substantial relocation of Channel 4's operations with Leeds announced in 2018 as a new regional hub The Channel 4 story is also one of ambitious and innovative programming with a new director of content Jay Hunt instigating radical changes in commissioning and scheduling Brown traces programming hits and losses during this period with the departure to competitors of celebrity chefs Black Mirror and Charlie Brooker horse racing and Formula 1 and a reappraisal of the remit of institutions such as Channel 4 News and Film 4 But there were successes too with the 2012 Paralympics helping to restore a public service sheen and new programmes such as Gogglebox in 2013 connecting with younger audiences and in 2016 the coup of taking The Great British Bake Off from its home at the BBC

FCC Record United States. Federal Communications Commission, 2004 *Public service content* Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2007-11-15 In March 2006 the Government published its White Paper on the BBC A public service for all the BBC in the digital age Cm 6763 ISBN 9780101676328 which set out the framework for the BBC's role as a public service broadcaster over the next ten years Given the concerns that have been raised over the future sustainability of the current public service broadcasting system the Committee's report examines a

range of issues including the prospects for maintaining plurality in public service broadcasting in the digital age the practicality of continuing to impose public service obligations on commercial broadcasters the viability of existing funding models for ITV Channel 4 and Five and the case for public funding of broadcasters in addition to the BBC Amongst its findings although the Committee notes its overall confidence in the viability of most types of public service content it recognises that some content is already coming under pressure and that this is likely to increase over time The report argues that the BBC should not be left as the only supplier of public service content in any area of programming as the maintenance of plurality is an important public policy objective Public funding using licence fee income or general taxation should be made available to all broadcasters on a contestable basis to bring the benefits of competition to the provision of public service content that the market might not otherwise provide such as UK produced children s programming or regional programming

Federal Register ,1984-07-02 *House documents* ,1889 **Compensation Culture** Great Britain: Parliament: House of Commons: Constitutional Affairs Committee,2006-03-10 Compensation Culture Third report of session 2005 06 Vol 2 Oral and written Evidence Broadcasting Rights for Cricket Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2006-02 Public interest in the recent Ashes test series served to heighten the anger about the removal of Test cricket from free to air television This report looks at the contract between the ECB and Sky the statutory framework behind the listing of sporting events the reasons for excluding test cricket from the A list and the gentleman s agreement that had existed that a substantial proportion of Test cricket would be maintained on free to air channels Although the Committee supports the idea of free to air broadcasting they do not recommend re listing in Group A They recognise that the ECB is best qualified to judge the long term interests of the game but that they must also balance the public interest

**House of Commons - Culture, Media and Sport Committee: Supporting The Creative Economy - Volume I: HC 674** Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2013-09-26 This report warns that the extraordinary success of the UK s creative industries may be jeopardised by any dilution of intellectual property rights and the failure to tackle online piracy The Committee also strongly condemns the failure of Google in particular to tackle access of copyright infringing websites through its search engine Such illegal piracy combined with proposals arising from the Hargreaves review to introduce copyright exceptions and a failure to strengthen copyright enforcement as envisaged by the Digital Economy Act 2010 together threaten the livelihoods of the individuals and industries that contribute over 36 billion annually to the UK economy Also the Olympics No Marketing Rights scheme is excessively restrictive and is preventing British creative companies from realising the benefits they deserve from the Olympic legacy The Committee calls for a central champion of Intellectual Property in Government to promote and protect the interests of UK intellectual property the maximum penalty for serious online IP theft to be increased to 10 years imprisonment in line with the punishment for such offences in the physical world more evidence and scrutiny before any exceptions to copyright such

as those suggested by Hargreaves are applied redoubled efforts to ensure that the video games tax credit is approved by the European Commission and introduced as soon as possible reforms to the income tax and tax reliefs systems to recognise adequately the freelance nature of much creative work greater recognition of the importance of arts subjects in the curriculum **Federal Communications Commission Reports** United States. Annual Index** ,1954 *Public Service Broadcasting* Great Britain. Parliament. House of Lords. Select Committee on Communications,2009 This report responds to the current crisis in public service broadcasting particularly in the advertiser funded television sector This has been caused by three factors 1 the move from analogue to digital broadcasting means that established forms of support are losing value 2 viewers are increasingly taking advantage of technological developments that provide alternatives to conventional broadcasting such as the internet and the many commercial channels 3 the speed and severity of the current economic recession The Committee believes that the commercially funded public broadcasters ITV Channel Four Five and BSkyB should continue to provide an alternative to the BBC which should not become an even more dominant provider of public service programming Market forces will not resolve the crisis and intervention is justified to ensure sufficient public service provision that the market will nor provide free for the public There is a need for financial clarity on the financial position of all the public service broadcasters and Channel Four s position should be independently reviewed A partnership between Channel 4 and BBC Worldwide rather than a full merger would be a quicker means of making extra resources available to Channel 4 The BBC s other partnership proposals are welcomed An element of contestable funding should be introduced such funding to come from a the underspend on the digital switchover b continuance of funding from the licence fee after 2012 when the switchover programme ends c the use of at least part of analogue spectrum revenue after 2012 Ultimately part of the licence fee could be used to support public service content provision outside the BBC Censorship Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and
