result of British over reaction which produced the War of Independence The Treaty was followed by a period of civil strife before de Valera established himself as a statesman of world renown His successor Sean Lemass laid the foundations of the economy while sowing seeds of the corruption that was to follow Geoff lives in Dublin with his wife Bernadette p p The Author of Making of Modern Ireland Geoff Robinson though born and educated in England is an Irish citizen who has been permanently resident in Ireland for over 50 years On his arrival he stayed with Vincent Horgan whom he met through his sister who had moved to England to escape the internecine strife which had erupted following the signing of the 1921 Treaty An unswerving believer in the rectitude of the Irish cause he knew many who had been involved in the 1916 Rising and later came to meet others of such divergent political views as the daughter of a Redmondite MP and the editor of the Bulletin a clandestine newsheet which had been published during the War of Independence Following his marriage in 1966 to Bernadette Tiernan a national teacher he developed an interest in Irish politics only to discover that Ireland had been ill served by her politicians who with one or two notable exceptions have been self serving since the foundation of the State His wife s revelation that no critical examination of the events leading up to the 1916 Rising was contained in the schools curriculum prompted him to make a re evaluation of Irish history which has resulted in his book The Making of Modern Ireland p div

Troubled Geographies Ian N. Gregory, Niall A. Cunningham, C. D. Lloyd, Ian G. Shuttleworth, Paul S. Ell, 2020-03-04 Tap's the power of new geospatial technologies explore's the intersection of geography religion politics and identity in Irish history International Social Science Review Ireland's landscape is marked by fault lines of religious ethnic and political identity that have shaped its troubled history Troubled Geographies maps this history by detailing the patterns of change in Ireland from 16th century attempts to plant areas of Ireland with loyal English Protestants to defend against threats posed by indigenous Catholics through the violence of the latter part of the 20th century and the rise of the Celtic Tiger The book is concerned with how a geography laid down in the 16th and 17th centuries led to an amalgam based on religious belief ethnic national identity and political conviction that continues to shape the geographies of modern Ireland Troubled Geographies shows how changes in religious affiliation identity and territoriality have impacted Irish society during this period It explores the response of society in general and religion in particular to major cultural shocks such as the Famine and to long term processes such as urbanization Makes a strong case for a greater consideration of spatial information in historical analysis a message that is obviously appealing for geographers Journal of Interdisciplinary History A book like this is useful as a reminder of the struggles and the sacrifices of generations of unrest and conflict albeit that on a global scale the Irish troubles are just one of a myriad of disputes each with their own history and localized geography Journal of Historical Geography

Toleration and State Institutions Karen Stanbridge, 2003-01-01 Toleration and State Institutions explores the rise of more charitable British policy toward

Catholics in Ireland and in Quebec beginning in the latter half of the eighteenth century Karen Stanbridge carefully demonstrates that Catholic relief arose more gradually and encountered less opposition than is generally maintained This work sheds new light on the official treatment and mistreatment of minorities at home during the height of British expansion abroad offering a fascinating example of the divisions and rapprochements that characterize the relationship between state and society

Ireland Since 1939 Henry Patterson, 2008-02-26 A compelling narrative of contemporary Ireland from one of its most highly respected historians The Ireland of today is a place poised between the divisiveness of deep seated conflict and the modernizing pull of material prosperity Though each state s history is strikingly divergent the mirroring ideologies that fuel them are remarkably symbiotic With Ireland Since 1939 one of the most distinguished Irish historians working today casts a fresh and unpredictable eye to Ireland s history from World War II up through the present to show how by putting aside its North South conflict Ireland can look forward to a prosperous economic future *The Irish* Robert E. Kennedy, 1975-01-01 While all other European nations increased in population during the nineteenth century the population of Ireland decreased at every census except one between 1841 and 1961 the number of persons living in Ireland in 1966 was less than half that of 1841 Of all Western European countries Ireland has the greatest amount of postponed marriage and permanent celibacy and yet it also has the highest marital fertility rate It is unsettling to social scientists to admit the existence of an apparent exception to so many well known and widely accepted theories concerning population growth urbanization emigration age and marriage and family size The aim of this book is to distinguish some of the more interesting elements of Irish life which are indeed peculiar to Ireland from those which Ireland shares to a greater or lesser degree with other countries
