Marcus Antonius Triumvir Und Herrscher Des Orients:

Rome and the Near Eastern Kingdoms and Principalities, 44-31 BC Hendrikus A.M. van Wijlick, 2020-12-15 The study presents a critical analysis of the political relations between Rome and Near Eastern kingdoms and principalities during the age of civil war from the death of Julius Caesar in 44 to Mark Antony's defeat at Actium in 31 BC. By examining each bilateral relationship separately, it argues that those relations were marked by a large degree of continuity with earlier periods. Circumstances connected to the civil war had only a limited impact on the interstate conduct of the period despite the effects that the strife had on Rome's domestic politics and the res publica. The ever-present rival Parthia and its external policies were more influential in steering the relations between Rome and Near Eastern powers. [The Roman World 44 BC-AD 180](#) Martin Goodman, 2002-04-12 Goodman presents a lucid and balanced picture of the Roman world, examining the Roman empire from a variety of perspectives: cultural, political, civic, social, and religious. **Oratory and Political Career in the Late Roman Republic** Henriette van der Blom, 2016-08-15 Oratory and Political Career in the Late Roman Republic is a pioneering investigation into political life in the late Roman Republic. It explores the nature and extent to which Roman politicians embraced oratorical performances as part of their political career and how such performances influenced the careers of individual orators such as Gaius Gracchus, Pompeius Magnus, and Julius Caesar. Through six case studies, this book presents a complex and multifaceted picture of how Roman politicians employed oratory to articulate their personal and political agendas to present themselves to a public obsessed with individual achievement and ultimately to promote their individual careers. By dealing specifically with orators other than Cicero, this study offers much-needed alternatives to our understanding of public oratory in Rome. Moreover, the assessment of the impact of public speeches on the development of political careers provides new perspectives on the hotly debated nature of republican political culture. **Brill's Companion to Cicero** James M. May, 2002-09-01 This volume is intended as a companion to the study of Cicero's oratory and rhetoric for both students and experts in the field. For the neophyte, it provides a starting point; for the veteran Ciceronian scholar, a place for renewing the dialogue about issues concerning Ciceronian oratory and rhetoric for all. A site of engagement at various levels with Ciceronian scholarship and bibliography, the book is arranged along roughly chronological lines and covers most aspects of Cicero's oratory and rhetoric. The particular strength of this companion resides in the individual, often very original, approach to sundry topics by an array of impressive contributors, all of whom have spent large portions of their careers concentrating upon the oratorical and rhetorical oeuvre of Cicero. A bibliography of relevant items from the past 25 years, keyed to specific Ciceronian works, completes the volume. Brill's Companion to Cicero will become the standard reference work on Cicero for many years. **The Building Program of Herod the Great** Duane W. Roller, 1998 Herod the Great, King of Judaea from 44 B.C., is known as one of the world's great villains. This notoriety has overshadowed his actual achievements, particularly his role as a client king of Rome during Augustus's reign as emperor. An essential aspect

of Herod's responsibilities as king of Judaea was his role as a builder. Remarkably innovative, he created an astonishing record of architectural achievement not only in Judaea but also throughout Greece and the Roman east. Duane W. Roller systematically presents and discusses all the building projects known to have been initiated by Herod and locates this material in a broad historical and cultural context. Bringing together previously inaccessible material, Roller enriches our understanding of the enigmatic Herod and provides new insights into Roman architecture. Herod was instrumental in the diffusion of the Augustan architectural revolution into the provinces and was the first to build outside Italy such Italian architectural forms as the basilica, amphitheater, villa, and Italian temple. Herod's legacy provided a groundwork for the architectural Romanization of the east, influencing the construction of the great temple complexes and palaces so familiar from later Roman architecture. Herod, like Augustus himself, was not only interested in architecture but also in diplomatic and financial contacts among cities of the region. In addition to providing a repertorium of the building projects, this study is also an exploration of international relations in the eastern Mediterranean at the beginning of the Roman imperial period.

The Routledge Companion to Women and Monarchy in the Ancient Mediterranean World Elizabeth D. Carney, Sabine Müller, 2020-11-09. This volume offers the first comprehensive look at the role of women in the monarchies of the ancient Mediterranean. It consistently addresses certain issues across all dynasties: the role in succession, the situation of mothers, wives, and daughters of kings, regnant and co-regnant women, role in cult, and in dynastic image, and examines a sampling of the careers of individual women while placing them within broader contexts. Written by an international group of experts, this collection is based on the assumption that women played a fundamental role in ancient monarchy; that they were part of, not apart from, it; and that it is necessary to understand their role to understand ancient monarchies. This is a crucial resource for anyone interested in the role of women in antiquity.

The triumviral period: civil war, political crisis and socioeconomic transformations Pina Polo, Francisco, 2020-07-08. Nothing from the subsequent Augustan age can be fully explained without understanding the previous Triumviral period (43-31 BC). In this book, twenty experts from nine different countries and nineteen universities examine the Triumviral age not merely as a phase of transition to the Principate but as a proper period with its own dynamics and issues, which were a consequence of the previous years. The volume aims to address a series of underlying structural problems that emerged in that time, such as the legal nature of power attributed to the Triumvirs, changes and continuity in Republican institutions both in Rome and the provinces of the Empire, the development of the very concept of civil war, the strategies of political communication and propaganda in order to win over public opinion, economic consequences for Rome and Italy, whether caused by the damage from constant wars or alternatively resulting from the proscriptions and confiscations carried out by the Triumvirs, and the transformation of Roman/Italian society. All these studies provide a complete, fresh, and innovative picture of a key period that signaled the end of the Roman Republic.

Introduction to the New Testament Helmut Koester, 1995 Roman and Local Citizenship in the Long Second

Century CE Myles Lavan, Clifford Ando, 2021-11-16 Imperial and Local Citizenship in the Long Second Century CE explores the significance of Roman citizenship in the long century before Caracalla's universal grant of citizenship in 212 CE. From this emerges a new portrait of the early Roman empire: an exclusive regime of citizenship persisted in a context of remarkable political and cultural integration. *Studies in Classical History and Society* Meyer Reinhold, 2002 Professor Reinhold, a distinguished senior classicist, has produced a fascinating and accessible collection of essays devoted to the study of ancient history. Among the articles included are 'The Generation Gap' a major survey exploring myths of the uprising of one generation against another; 'Augustus Conception of Himself' a detailed summary and interpretation of Augustus' life and career; and 'The Declaration of War against Cleopatra' an investigation of the charge against Cleopatra that she betrayed her pledge to Rome as a client ruler. Taken together, these essays form a unified and coherent survey of ancient history that will appeal to a broad audience. *Orientalism and the Reception of Powerful Women from the Ancient World* Filippo Carlà-Uhink, Anja Wieber, 2020-02-06 Why is Cleopatra a descendent of Alexander the Great? a Ptolemy from a Greek Macedonian family in popular imagination an Oriental woman. True, she assumed some aspects of pharaonic imagery in order to rule Egypt, but her Orientalism mostly derives from ancient Roman and modern stereotypes. Both the Orient and the idea of a woman in power are signs in the Western tradition of otherness, and in this sense they can easily overlap and interchange. This volume investigates how ancient women and particularly powerful women such as queens and empresses have been reimagined in Western and not only Western arts. It highlights how this reimagination and revisualization is more often than not the product of Orientalist stereotypes, even when dealing with women who had nothing to do with Eastern regions, and compares these images with examples of Eastern gaze on the same women. Through the chapters in this volume, readers will discover the similarities and differences in the ways in which women in power were and still are described and decried by their opponents. **From the Gracchi to Nero** H.H. Scullard, 2021-11-18 From the Gracchi to Nero is an outstanding history of the Roman world from 133 BC to 68 AD. Fifty years since publication, it is widely hailed as the classic survey of the period going through many revised and updated editions until H.H. Scullard's death. It explores the decline and fall of the Roman Republic and the establishment of the Pax Romana under the early Principate. In superbly clear style, Scullard brings vividly to life the Gracchi's attempts at reform, the rise and fall of Marius and Sulla, Pompey and Caesar, society and culture in the late Roman Republic, the Augustan Principate, Tiberius and Gaius Claudius, and Nero, and economic and social life in the early Empire. **Antony & Cleopatra** Patricia Southern, 2009-05-15 The tragic love affair of Marc Antony and Cleopatra is a staple of popular ancient history, immortalised by Shakespeare and Hollywood, and mercilessly parodied in *Clash of Civilizations*. **Growing Up Fatherless in Antiquity** Sabine R. Hübner, David M. Ratzan, 2009-02-19 As the changes in the traditional family accelerated toward the end of the twentieth century, a great deal of attention came to focus on fathers, both modern and ancient. While academics and politicians alike singled out the conspicuous and growing absence of the modern father as a

crucial factor affecting contemporary family and social dynamics ancient historians and classicists have rarely explored ancient father absence despite the likelihood that nearly a third of all children in the ancient Mediterranean world were fatherless before they turned fifteen The proportion of children raised by single mothers relatives step parents or others was thus at least as high in antiquity as it is today This book assesses the wide ranging impact high levels of chronic father absence had on the cultures politics and families of the ancient world *Nicolaus of Damascus: The Life of Augustus and The Autobiography* Nicolaus of Damascus,2016-12-22 Nicolaus of Damascus the chief minister of Herod the Great was an exact contemporary of the first Roman emperor Augustus he spent considerable time in Roman society and knew Augustus The extensive remains of his *Bios Kaisaros* contain the earliest and most detailed account of the conspiracy against Julius Caesar and his assassination The *Bios* also presents the most extensive account of the boyhood and early development of Augustus This edition presents the Greek text and translation of the *Bios* and Nicolaus autobiography along with a historical and historiographical commentary The Introduction situates the text in relation to the considerable evidence for the life and career of Nicolaus preserved in the works of Josephus addresses the problem of its date of composition analyses the language and narrative technique of Nicolaus and discusses the *Bios* in relation to the evidence for Greek biographical encomium

Augustus Jochen Bleicken,2015-10-15 The great modern biography of Augustus founder of the Roman Empire Born to a plebeian family in 63 BC Octavian was a young soldier training abroad when he heard news of Julius Caesar's brutal assassination and discovered that he was the dictator's sole political heir With the opportunism and instinct for propaganda that were to characterize his rule Octavian rallied huge financial military and political backing to eliminate his opponents end the bloody turmoil that had so long wracked Rome and finally take autocratic control of a state devoted to republicanism He became Augustus Rome's first Emperor and the founder of the greatest empire the world had ever seen In this monumental biography translated into English for the first time by Anthea Bell Jochen Bleicken tells the story of a man who found himself a demi god in his own lifetime and paints a portrait of one of the most dramatic periods of Roman history The

Quaestorship in the Roman Republic Francisco Pina Polo,Alejandro Díaz Fernández,2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the *cursus honorum* and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the

control and supervision of Rome's finances As the book shows the quaestorship was a prominent and essential part of the Roman administration **Vergil's Aeneid** Hans-Peter Stahl, 2009-12-31 This title features a collection of 14 papers in which contributors use diverging critical methods on a selection of extracts from Vergil's epic with the examination of political references in the work being prominent as well as the question of the Aeneid's central meaning Contents include Vergil announcing the Aeneid On Geo 3.1.48 Egil Kraggerud The Peopling of the Underworld Anton Powell Vergil as a Republican Eckard Lefevre The Sword Belt of Pallas Moral Symbolism and Political Ideology Stephen Harrison The Isolation of Turnus Richard F Thomas and The End and the Meaning David West **A Noble Ruin** W. Jeffrey Tatum, 2024 The fullest biography of Mark Antony in English A Noble Ruin provides a fresh account of Antony's personal life and especially his public career including his administration of the Roman east and his military campaigns **From the Gracchi to Nero** ,
