Wright, 2019-11-05 This edited collection explores the complexities of Irish involvement in empire. Despite complaining regularly of treatment as a colony by England, Ireland nevertheless played a significant part in Britain's imperialism from its formative period in the late eighteenth century through to the decolonizing years of the early twentieth century. Framed by two key events of world history, the American Revolution and Indian Independence, this book examines Irish involvement in empire in several interlinked sections through issues of migration and inhabitation through literary and historical representations of empire through Irish support for imperialism and involvement with resistance movements abroad and through Irish participation in the extensive and intricate networks of empire. Informed by recent historiographical and theoretical perspectives and including several detailed archival investigations, this volume offers an interdisciplinary and evolving view of a burgeoning field of research and will be of interest to scholars of Irish studies, imperial and postcolonial studies, history and literature.

The History of the Irish Famine Christine Kinealy, Jason King, Gerard Moran, 2020-06-04 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852. The narratives of those who perished, those who survived and those who emigrated form an integral part of this history and these volumes will make available for the first time some of the original documentation relating to an event that changed not only Irish history but the history of the countries to which the emigrants fled: Britain, the United States, Canada and Australia. By bringing together letters, government reports, diaries, official documents, pamphlets, newspaper articles, sermons, eye-witness testimonies, poems and novels, these volumes will provide a fresh way of understanding Irish history in general and famine and migration in particular. Comprehensive editorial apparatus and annotation of the original texts are included along with bibliographies, appendices, chronologies and indexes that point the way for further study.

**The Green Space** Marion R. Casey, 2024-04-23 Honorable Mention 2025 ACIS Lawrence J. McCaffrey Prize for Books on Irish America A historical exploration of the Irish image in popular culture. It only took a century or so to segue from phrases like 'No Irish Need Apply' to 'Kiss Me I'm Irish' in American popular culture. Indeed, the transformation of the Irish image is a fascinating blend of political, cultural, racial, commercial and social influences. *The Green Space* examines the variety of factors that contributed to remaking the Irish image from downtrodden and despised to universally acclaimed. To understand the forces that molded how people

understand Irish is to see the matrix the green space that facilitated their interaction between the 1890s and 1960s Marion R Casey argues that as Irish evolved between the mid nineteenth and mid twentieth centuries a visual and rhetorical expanse for representing ethnicity was opened up in the process The evolution was also transnational both Ireland and the United States were inextricably linked to how various iterations of Irish were deployed over time whether as a straightforward noun about a specific people with a national identity or a loose endlessly malleable adjective only tangentially connected to actual ethnic identity Featuring a rich assortment of sources and images The Green Space takes the history of the Irish image in America as a prime example of the ways in which culture and identity can be manufactured repackaged and ultimately revolutionized Understanding the multifaceted influences that shaped perceptions of Irishness holds profound relevance for examining similar dynamics within studies of various immigrant and ethnic communities in the US

Negotiating Power in Early Modern Society Michael J. Braddick,John Walter,2001-08-20 Addressing the dynamics of power in early modern societies this book challenges the existing tendency to see past societies in terms of binary oppositions such as male female rich poor rulers ruled in which the disadvantaged have influence only in moments of direct confrontation Drawing on recent social theory the essays offer a series of micro sociologies of power in early modern society ranging from the politics of age gender and class to the politics of state building in the post Reformation confessional state They explore the weapons with which subordinated groups in their everyday lives could moderate the exercise of power over them Recovering the agency of the disadvantaged the book also explores the limits to the power that the disadvantaged could claim in the past Its findings also have relevance for thinking about inequality in present day societies
