Sexuality in America Robert T. Francoeur, Patricia Koch, David Weis, 1999-08-01 Now available in a new paperback edition this survey is different in both breadth and scope from all other reports on sexuality in the United States It covers every topic imaginable from a multicultural point of view in order to reflect fully the complex society in which we live the biological psychological social and spiritual aspects of our sexual lives *In Pursuit of Love* Vincent J. Genovesi, 1996 While retaining the basic structure of the original book this new edition has been thoroughly updated in light of some official Catholic documents and other theological writings dealing with sexual morality that have appeared since 1986 The Catechism of the Catholic Church Pope John Paul II's encyclicals *Veritatis splendor* and *Evangelium vitae* and the 1986 and 1992 statements of the Congregation for the Doctrine of the Faith on pastoral care of homosexuals and the issue of discrimination against them are among the more recent magisterial publications considered in this text This edition also contains several new sections the misuses of sex adultery pornography prostitution sexual violence four rationales for viewing a committed love relationship as the only appropriate context for sexual intercourse marriage as a sacrament and marital sexuality and love as embodiments of commitment intimacy and passion and public policy and the civil rights of homosexuals This edition also includes an expanded discussion of topics such as sexism sexually transmitted diseases especially HIV AIDS and the moral questions raised by new family planning methods Norplant Depo Provera RU 486 postcoital hormonal interventions against pregnancy the start of human life and abortion Vincent J Genovesi SJ received his PhD in Christian ethics from Emory University He is a professor at St Joseph's University in Philadelphia His articles have appeared in such journals as *The Thomist* *The Way* *America* and *Review for Religious* *Sex on Earth as It Is in Heaven* Patricia Beattie Jung, 2016-12-28 Offers a new theology of desire and delight based on the Christian hope for bodily resurrection This work is part of a growing chorus of theological voices raised in support of erotic desire Although most theologians have concluded that there will be no experience of sexual desire and delight in the world to come Patricia Beattie Jung critically examines the historical traditions and biblical rationales for this teaching She defends an alternative claim that there will be a healed and glorified experience of sex in heaven based on a compelling account of the Christian hope for bodily resurrection The first half of the work focuses on Christian foundations for the notion of sex in heaven while the second goes on to discuss some of the implications of those convictions for sex on earth Jung concludes with discussions of how best to nurture sexual delight on earth and how and why internet pornography fails in that regard The book provides a valuable alternative reading of Christian eschatological thinking about resurrected bodies and a sensitive refreshing and candid discussion about sexual delight Adrian Thatcher author of *God Sex and Gender An Introduction* *Religion and Sexual Health:* R.M. Green, 2013-03-14 Religious beliefs and attitudes have long been recognized as playing an important role in sexual functioning but the relationship between religion

and sexual behavior has rarely been studied in a comprehensive way The essays in this volume bring the views of sex counsellors therapists theologians and bioethicists to bear on the relationship between religion and sexuality A major theme emerging from these essays is that religion and counselling need to learn from one another Religious traditions at the popular or theological levels are often marked by ignorance and misinformation about sexuality and can benefit by the insights of those who work closely with patients in medical and counselling settings Counsellors in turn need to develop a sensitivity to past and present religious attitudes toward sexuality in order to assist their patients achieve sexual health

Sacred Rights Daniel C. Maguire, 2003-04-03 This book presents the work of the Sacred Choices Initiative of the Religious Consultation on Population Reproductive Health and Ethics The purpose of this Packard and Ford Foundation supported initiative is to attempt to change international discourse on family planning and to rescue this debate from superficial sloganeering by drawing on the moral stores of the world's major and indigenous religions In many of the world's religions there is a restrictive and pro natalist view on family planning and this is one legitimate reading of those religious traditions As the essays in this volume demonstrate however this is not the only legitimate or orthodox view These authors show that the parameters of orthodoxy are wider and gentler than that and that the great religious traditions are wiser and more variegated and nuanced than a simple repetition of the most conservative views would suggest This theme is carried out in essays on each of the world's major religious traditions written by scholar practitioners of those faiths

Earth Crammed with Heaven Elizabeth Dreyer,1994 For too long says Elizabeth Dreyer the kind of spirituality taught to Christian lay people has been clerical and monastic It has not been grounded in the ways of living actually experienced by lay people incorporating sexuality childraising work the marketplace and the earth A major effort is being made in our day to reformulate spirituality in a way that makes sense to ordinary Christians More than anything else this new attitude proclaims that God is best discovered not in the withdrawal from everyday life but in the act of living it Earth Crammed with Heaven is a pioneering attempt to articulate the paradigm shift in attitudes toward lay spirituality It is written for persons who are on an intentional spiritual journey that has everyday existence and the entire world as its focal points It maintains that baptized Christians do not have to change their daily activities in order to become saints The potential for sainthood is located in the depth and intentionality of ordinary living
