Margins And Marginality:

Rethinking Medieval Margins and Marginality Ann Zimo, Tiffany Vann Sprecher, Kathryn Reyerson, Debra Blumenthal, 2020-03-02 Marginality assumes a variety of forms in current discussions of the Middle Ages Modern scholars have considered a seemingly innumerable list of people to have been marginalized in the European Middle Ages the poor criminals unorthodox religious the disabled the mentally ill women so called infidels and the list goes on If so many inhabitants of medieval Europe can be qualified as marginal it is important to interrogate where the margins lay and what it means that the majority of people occupied them In addition we scholars need to reexamine our use of a term that seems to have such broad applicability to ensure that we avoid imposing marginality on groups in the Middle Ages that the era itself may not have considered as such In the medieval era when belonging to a community was vitally important people who lived on the margins of society could be particularly vulnerable And yet as scholars have shown we ought not forget that this heightened vulnerability sometimes prompted so called marginals to form their own communities as a way of redefining the center and placing themselves within it The present volume explores the concept of marginality to whom the moniker has been applied to whom it might usefully be applied and how we might more meaningfully define marginality based on historical sources rather than modern assumptions Although the volume s geographic focus is Europe the chapters look further afield to North Africa the Sahara and the Levant acknowledging that at no time and certainly not in the Middle Ages was Europe cut off from other parts of the globe

Marginality Jung Young Lee, 1995-01-01 Marginality proposes a framework that justifies and undergirds development of contextual theologies without becoming itself dominating Jung Young Lee aims to address the dilemmas of contextual theology not by moving one or another group from the margin to the center but by redefining marginality itself as central

Writing Margins Terry

Kawashima,2020-10-26 In texts from the mid Heian to the early Kamakura periods certain figures appear to be marginal or removed from centers of power But why do we see these figures in this way This study first seeks to answer this question by examining the details of the marginalizing discourse found in these texts Who is portraying whom as marginal For what reason Is the discourse consistent The author next considers these texts in terms of the predilection of modern scholarship both Japanese and Western to label certain figures marginal She then poses the question Is this predilection a helpful tool or does it inscribe modern biases and misconceptions onto these texts **Theology on the Border** Daniela Lucia

Rapisarda,2024-12-10 Focusing on the Mediterranean this book offers a theological hermeneutics from the perspective of the margin border and a theological hermeneutics of the border At the core is a case study of the Italian Protestant minority and its engagement with issues of migration While much of current migration theology is built around the principle of sacralization of the migrant person or vertical association between divinity God or Jesus and people on the move this work offers a horizontal perspective on humanization or recognition of the value of every human being based on the principle of a shared humanity created in God s image and a sense of identification first by people at the margins This approach seeks to avoid essentializing migrantness and victimhood Elaborations on the relation between identity and migration are often sustained by exclusionary logics that lead to repressive policies The book proposes a contextual theological reflection on minority identity that is at its core inclusive It offers a contribution to theology beyond confessional borders and is open to dialogue with other disciplines particularly critical border studies **Nature, Society, and Marginality** Pushkar K.

Rethinking Life at the Margins Michele Lancione, 2016-04-20 Experimenting with new ways of looking at the contexts subjects processes and multiple political stances that make up life at the margins this book provides a novel source for a critical rethinking of marginalisation Drawing on post colonialism and critical assemblage thinking the rich ethnographic works presented in the book trace the assemblage of marginality in multiple case studies encompassing the Global North and South These works are united by the approach developed in the book characterised by the refusal of a priori definitions and by a post human and grounded take on the assemblage of life The result is a nuanced attention to the potential expressed by everyday articulations and a commitment to produce a processual vitalist and non normative cultural politics of the margins The reader will find in this book unique challenges to accepted and authoritative thinking and provides new insights into researching life at the margins

Producing and Contesting Urban Marginality Julie Cupples, Tom Slater, 2019-10-25 In Mexico City as in many other large cities worldwide contemporary modes of urban governance have overwhelmingly benefited affluent populations and widened social inequalities Disinvestment from social housing and rent seeking developments by real estate companies and land speculators have resulted in the displacement of low income populations to the urban periphery Public social spaces have been eliminated to make way for luxury apartments and business interests Low income neighbourhoods are often stigmatized by dominant social forces to justify their demolition The urban poor have however negotiated and resisted these developments in a range of ways This text explores these urban dynamics in Mexico City and beyond looking at the material and symbolic mechanisms through which urban marginality is produced and contested It seeks to understand how things might be otherwise how the city might be geared towards more inclusive forms of belonging and citizenship

Researching the Margins M. Pitts, A. Smith, 2007-07-12 Social researchers are increasingly aware of their obligations to the hard to reach communities they research This book identifies the issues associated with researching these communities and offers both conceptual analyses and practical suggestions The contributors are members of ARCSHS staff or drawn from the affected communities themselves

Language, Vernacular Discourse and Nationalisms Finex Ndhlovu, 2018-03-15 This book examines the linguistic and discursive elements of social and economic policies and national political leader statements to read new meanings into debates on border protection national sovereignty immigration economic indigenisation land reform and black economic empowerment It adds a fresh angle to the debate on nationalisms and transnationalism by pushing forward a more applied agenda to establish a clear and empirically based illustration of the contradictions in current policy frameworks around the world and the debates they invite

The author's novel vernacular discourse approach contributes new points of method and interpretation that will advance scholarly conversations on nationalisms transnationalism and other forms of identity imaginings in a transient world

Thinking Differently Gabrielle Griffin, Rosi Braidotti, 2002-10 This book is the first to ask whether there is a specifically European dimension to certain major issues in Women's Studies It strives to create a synergetic debate among different disciplines and cultural traditions in Europe and in doing so fills some gaps in our knowledge about women and enriches debates hitherto dominated by Anglo American influences Among the new areas of enquiry opened up in this book by the specificities of European Women's Studies are The fact that Europe has repeatedly experienced warfare on its own territory which has impacted significantly on women Hence the focus in this volume on women and militarism and on ethnic cleansing as an attack on the family The abidingly problematic relationship between feminism and anti semitism and issues of migration and whiteness in a context where racism reflects the colonial histories of particular European countries The importance of passion and the emotions as well as psychoanalytical theory for politics particularly in Southern and Eastern European countries Current problems facing Europe including the decline of the welfare state the phenomenon of the single woman and the relationship between women's rights and human rights The diverse faces of feminist movements in particular European countries Reading feminism from a European perspective will enable readers to reflect upon the ways in which changes in political social and cultural positions and practices over the past century in Europe have impacted on feminist thinking and theorizing The volume raises important issues about the transfer of feminist concepts across cultures and languages And to English speaking audiences the volume also offers fresh viewpoints on some of the key debates in Women's Studies

Youth Ministry as Mission Brian Hull, Patrick Mays, 2022-06-21 Is ministering to youth like being a cross cultural missionary You'd better believe it The parallels between ministry within youth culture and global missions have long been touted by youth ministry experts yet few resources exist to help youth workers benefit practically from the insights of missiologists In Youth Ministry as Mission Brian Hull and Patrick Mays fill this gap with an introduction to missiology missions practice and missionary witness tailored especially for a youth ministry context Youth ministers will discover missiological language that describes realities they face regularly and activities of cross cultural missionaries that translate well into leaders within youth ministries Hull and Mays address issues such as Understanding the relationship of the incarnation to ministering in youth culture Translating stories and practicing storytelling as preparation for witnessing Teaching for witness in a multi religious context Youth Ministry as Mission will be a valuable guide for college and seminary students as well as a breath of fresh air to those already working in youth ministry Hull and Mays show us how missiology can help us see a way forward in youth ministry humbly discovering the mission of God right where we are where we too have been sent to become living translations of the gospel for young people Brad M Griffin senior director Fuller Youth Institute author of 3 Big Questions That Change Every Teenager With deferential scholarly humility Hull and Mays have

Anne Clements, 2014-05-01 The Gospel of Matthew opens with a patrilineal genealogy of Jesus that intriguingly includes five women Tamar Rahab Ruth she of Uriah and Mary In a gospel that has a strongly Jewish and male orientated outlook why are women incorporated In particular why include these four Old Testament women alongside Mary Rejecting traditional as well as feminist views Anne Clements undertakes a close literary reading of the narratives to discern how each woman is characterized and presented All are significant scriptural figures on the margins of Israelite society From this intertextual world established by Matthew Clements explores why Matthew may have named these women in the opening genealogy and what implications their inclusion may have for the ongoing gospel narrative Mothers on the Margin argues that Matthew s Gospel contains a counter narrative focused on women The presence of the five women in the genealogy indicates that the birth of the Messiah will bring about a crisis in Israel s identity in terms of ethnicity marginality and gender The women signal that Matthew s Gospel is concerned with the construal of a new identity for the people of God A Psychotherapy for the People Lewis Aron, Karen E. Starr, 2013 How did psychoanalysis come to define itself as being different from psychotherapy How have racism homophobia misogyny and anti Semitism converged in the creation of psychotherapy and psychoanalysis Is psychoanalysis psychotherapy Is psychoanalysis a Jewish science Inspired by the progressive and humanistic origins of psychoanalysis Lewis Aron and Karen Starr pursue Freud s call for psychoanalysis to be a psychotherapy for the people They present a cultural history focusing on how psychoanalysis has always defined itself in relation to an other At first that other was hypnosis and suggestion later it was psychotherapy The authors trace a series of binary oppositions each defined hierarchically which have plagued the history of psychoanalysis Tracing reverberations of racism anti Semitism misogyny and homophobia they show that psychoanalysis associated with phallic masculinity penetration heterosexuality autonomy and culture was defined in opposition to suggestion and psychotherapy which were seen as promoting dependence feminine passivity and relationality Aron and Starr deconstruct these dichotomies leading the way for a return to Freud s progressive vision in which psychoanalysis defined broadly and flexibly is revitalized for a new era A Psychotherapy for the People will be of interest to psychotherapists psychoanalysts clinical psychologists psychiatrists and their patients and to those studying feminism cultural studies and Judaism **The Complexity of Identity and Interaction in Language Education** Nathanael Rudolph, Ali Fuad Selvi, Bedrettin Yazan, 2020-08-07 This book addresses two critical calls pertaining to language education Firstly for attention to be paid to the transdisciplinary nature and complexity of learner identity and interaction in the classroom and secondly for the need to attend to conceptualizations of and approaches to manifestations of inequity in the sociohistorical contexts in which they occur Collectively the chapters envision classrooms and educational institutions as sites both shaping and shaped by larger trans communal negotiations of being and belonging in which individuals affirm and

or problematize essentialized and idealized nativeness and community membership The volume comprised of chapters contributed by a diverse array of researcher practitioners living working and or studying around the globe is intended to inform empower and inspire stakeholders in language education to explore potentially reimagine and ultimately critically and practically transform the communities in which they live work and or study

Heart of the Cross Wonhee Anne Joh, 2006-01-01 Theologies have often pointed to the cross as a place of suffering and sacrifice while feminist critiques have frequently argued against interpretations of the cross as patriarchal valorizing of suffering Wonhee Anne Joh points toward a new interpretation of the cross as a place of love where God and humanity come together in a surprising way Interpreting the cross as performing a double gesture that has a subversive effect Joh argues that the cross works simultaneously to pay homage to and to menace complex oppressive powers Utilizing the Korean concept of jeong Joh constructs a theology that is feminist political and love centered while acknowledging the cross as source of pain and suffering Joh s innovative vision is a call for political love that is stronger than powers of oppression
