Victorian Women's Travel Writing on Meiji Japan Tomoe Kumojima, 2022 Victorian Women's Travel Writing on Meiji Japan narrates forgotten stories of cross cultural friendship and love between Victorian female travellers and Meiji Japanese between 1853 and 1912

The Twilight Years Richard Overy, 2010-11-30 From a leading British historian the story of how fear of war shaped modern England By the end of World War I Britain had become a laboratory for modernity Intellectuals politicians scientists and artists among them Arnold Toynbee Aldous Huxley and H G Wells sought a vision for a rapidly changing world Coloring their innovative ideas and concepts from eugenics to Freud's unconscious was a creeping fear that the West was staring down the end of civilization In their home country of Britain many of these fears were unfounded The country had not suffered from economic collapse occupation civil war or any of the ideological conflicts of inter war Europe Nevertheless the modern era's promise of progress was overshadowed by a looming sense of decay and death that would deeply influence creative production and public argument between the wars In *The Twilight Years* award winning historian Richard Overy examines the paradox of this period and argues that the coming of World War II was almost welcomed by Britain's leading thinkers who saw it as an extraordinary test for the survival of civilization and a way of resolving their contradictory fears and hopes about the future

Performing the Self Katie Barclay, Sarah Richardson, 2016-04-14 That the self is performed created through action rather than having a prior existence has been an important methodological intervention in our understanding of human experience It has been particularly significant for studies of gender helping to destabilise models of selfhood where women were usually defined in opposition to a male norm In this multidisciplinary collection scholars apply this approach to a wide array of historical sources from literature to art to letters to museum exhibitions which survive from the medieval to modern periods In doing so they explore the extent that using a model of performativity can open up our understanding of women's lives and sense of self in the past They highlight the way that this method provides a significant critique of power relationships within society that offers greater agency to women as historical actors and offers a challenge to traditional readings of women's place in society An innovative and wide ranging compilation this book provides a template for those wishing to apply performativity to women's lives in historical context This book was originally published as a special issue of *Women's History Review*

Birth Control, Sex, and Marriage in Britain 1918-1960 Kate Fisher, 2006-07-13 The first half of the twentieth century witnessed a revolution in contraceptive behaviour as the large Victorian family disappeared This book offers a new perspective on the gender relations sexual attitudes and contraceptive practices that accompanied the emergence of the smaller family in modern Britain Kate Fisher draws on a range of first hand evidence including over 190 oral history interviews in which individuals born between 1900 and 1930 described their marriages and sexual relationships By using individual testimony she challenges many of the key conditions that have long been envisaged by demographic and

historical scholars as necessary for any significant reduction in average family size to take place Dr Fisher demonstrates that a massive expansion in birth control took place in a society in which sexual ignorance was widespread that effective family limitation was achieved without the mass adoption of new contraceptive technologies that traditional methods such as withdrawal abstinence and abortion were often seen as preferable to modern appliances such as condoms and caps that communication between spouses was not key to the systematic adoption of contraception and above all that women were not necessarily the driving force behind the attempt to avoid pregnancy Women frequently avoided involvement in family planning decisions and practices whereas the vast majority of men in Britain from the interwar period onward viewed the regular use of birth control as a masculine duty and obligation By allowing this generation to speak for themselves Kate Fisher produces a richer understanding of the often startling social attitudes and complex conjugal dynamics that lay behind the vast changes in contraceptive behaviour and family size in the twentieth century

Sex, Politics and Society Jeffrey Weeks, 2017-07-31 A pioneering study which has become an established classic in its field Sex Politics and Society provides a lucid and comprehensive analysis of the transformations of British sexual life from 1800 to the present These changes are firmly located in the wider context of British social political and cultural life from industrialization urbanisation and the impact of Empire and colonisation through the experience of economic disruption World Wars the establishment of the welfare state changing patterns of gender and the emergence of new sexual identities This book also charts the rise of both progressive and conservative social movements including feminism LGBT activism and fundamentalist movements It is a history where the past continues to live in the present and where the present provides ever more complex and often controversial patterns of sexual life with sexual and gender issues at the heart of contemporary politics Now fully revised and updated this edition examines key new developments including the impact of globalisation and the digital revolution gender nonconformity and the rise of transgender consciousness shifting family and relational patterns and new forms of intimacy changes in reproductive technology including the debates on IVF and surrogacy new discourses of equality and sexual rights for LGBT people the irresistible rise of same sex marriage the weakening of the heterosexual homosexual binary divide and the development of new lines of concern and divisions in the politics of sexuality Combining rich empirical detail with innovative theoretical insights Sex Politics and Society remains at the cutting edge of the subject and this fourth edition will inspire and provoke a whole new generation of readers in history sociology social policy and critical sexuality studies

Sisterhood Questioned Christine Bolt, 2004-07-31 This readable and informative survey including both new research and synthesis provides the first close comparison of race class and internationalism in the British and American women's movements during this period Sisterhood Questioned assesses the nature and impact of divisions in the twentieth century American and British women's movements In this lucidly written study Christine Bolt sheds new light on these differences which flourished in an era of political reaction economic insecurity polarizing nationalism and resurgent anti feminism The

author reveals how the conflicts were seized upon and publicised by contemporaries and how the activists themselves were forced to confront the increasingly complex tensions Drawing on a wide range of sources the author demonstrates that women in the twentieth century continued to co operate despite these divisions and that feminist movements remained active right up to and beyond the reformist 1960s It is invaluable reading for all those with an interest in American history British history or women s studies

Abortion Care is Health Care Barbara Baird,2023-10-03 In *Abortion Care is Health Care* Barbara Baird tells the history of the provision of abortion care in Australia since 1990 Against the backdrop of a reticent public sector Baird describes a system of predominantly private provision which has excluded women already marginalised by poverty rural and remote residency lack of Medicare entitlement racism and other factors Tracing changes in the private sector the long struggle to make medical abortion available and the nationwide decriminalisation of abortion since 2002 Baird introduces readers to the large cast of champions and everyday healthcare workers and activists who have persisted in their commitment to make abortion care available when governments and the medical profession have so often failed Drawing on oral history interviews conducted nationwide with abortion providing doctors nurses counsellors and managers women s health workers academics and community activists Baird brings a critical feminist analysis to create a sophisticated historical narrative of abortion provision over the last thirty years

Fight for Family Planning Audrey Leathard,1980-06-18 *The Politics of Love* Carla Christina Hustak,2024-01-23 *The Politics of Love* explores the entanglement of emotions social movements and science in reconfiguring human and nonhuman relations As Darwin s evolutionary theory informed the development of sexual science and the sex reform movement between the 1890s and the 1920s sex reformers emerged as a group of diverse and culturally influential professionals doctors psychologists artists political activists novelists and academics who shared a profound commitment to changing the world by changing the practice of sex Sex reformers reinvented love as a scientific practice of sex that brought humans and nonhumans into the fold of early twentieth century racial gender and sexual politics Carla Christina Hustak illuminates how sex reformers insistence that love can shift human and nonhuman relations is more than just a historical narrative it is a moment in time interconnected with urgent contemporary concerns over the global implications of our emotional relationships to other humans animals the earth and atmospheric and technological forces

Dirty Works Brett Gary,2021-08-17 Gold Medal tie in the 2022 Independent Publisher Book Awards IPPYs History U S Category A rich account of 1920s to 1950s New York City starring an eclectic mix of icons like James Joyce Margaret Sanger and Alfred Kinsey all led by an unsung hero of free expression and reproductive rights Morris L Ernst At the turn of the twentieth century the United States was experiencing an awakening Victorian era morality was being challenged by the introduction of sexual modernism and women s rights into popular culture the arts and science Set during this first sexual revolution when civil libertarian minded lawyers overthrew the yoke of obscenity laws *Dirty Works* focuses on a series of significant courtroom cases that were all represented by the

same lawyer Morris L Ernst Ernst's clients included a who's who of European and American literati and sexual activists among them Margaret Sanger James Joyce and Alfred Kinsey They along with a colorful cast of burlesque theater owners and bookstore clerks had run afoul of stiff obscenity laws and became actors in Ernst's legal theater that ultimately forced the law to recognize people's right to freely consume media In this book Brett Gary recovers the critically neglected Ernst as the most important legal defender of literary expression and reproductive rights by the mid twentieth century Each chapter centers on one or more key trials from Ernst's remarkable career battling censorship and obscenity laws using them to tell a broader story of cultural changes and conflicts around sex morality and free speech ideals *Dirty Works* sets the stage legally and culturally for the sexual revolution of the 1960s and beyond In the latter half of the century the courts had a powerful body of precedents many owing to Ernst's courtroom successes that recognized adult interests in sexuality women's needs for reproductive control and the legitimacy of sexual inquiry The legacy of this important but largely unrecognized moment in American history must be reckoned with in our contentious present as many of the issues Ernst and his colleagues defended are still under attack eight decades later

Oral History, Health and Welfare Joanna Bornat, Robert Perks, Paul Thompson, Jan Walmsley, 2005-06-23 *Oral History Health and Welfare* discusses the significance of oral history to the history of the development of health and welfare provisions It includes discussion on the end of the workhouse professional education and training of midwives HIV and Aids birth control the role of the community pharmacist pioneers of geriatric medicine oral history and the history of learning disability

Encyclopedia of Women Social Reformers Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present Despite being marginalized disenfranchised impoverished and oppressed women have always stepped

forward in disproportionate numbers to lead movements for social change This two volume encyclopedia documents the visions struggles and lives of women who have changed the world This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe women who have bravely insisted that the way things are is not the way they have to be Nadeshda Krupskaya the wife of Lenin spearheaded the drive against illiteracy in post revolutionary Russia American Dorothy Day founded the Catholic worker movement Begum Rokeya Hossain organized a girls school in Calcutta in 1911 Rachel Carson launched the modern environmental movement with her book Silent Spring The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world Mothers, Midwives, and Reproductive Labor in Interwar and Wartime Britain , Sandra Trudgen Dawson,2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn't take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government **Reproductive Restraints** Sanjam Ahluwalia,2010-10-01 Reproductive Restraints traces the history of contraception use and population management in colonial India while illuminating its connection to contemporary debates in India and birth control movements in Great Britain and the United States Sanjam Ahluwalia draws attention to the interactive and relational history of Indian birth control by including western activists such as Margaret Sanger and Marie Stopes alongside important Indian campaigners In revealing the elitist politics of middle class feminists Indian nationalists western activists colonial authorities and the medical establishment Ahluwalia finds that they all sought to rationalize procreation and regulate women while invoking competing notions of freedom femininity and family Ahluwalia's remarkable interviews with practicing midwives in rural northern India fills a gaping void in the documentary history of birth control and shows that the movement has had little appeal to non elite groups in India Finding that Jaunpuri women's reproductive decisions are bound to their emotional cultural and economic reliance on family and community Ahluwalia presents the limitations of universal liberal feminist categories which often do not consider

differences among localized subjects She argues that elitist birth control efforts failed to account for Indian women's values and needs and have worked to restrict reproductive rights rather than liberate subaltern Indian women since colonial times

Cinema, Censorship and Sexuality 1909-1925 (Routledge Revivals) Annette Kuhn, 2016-04-06 First published in 1988 This book shows how censorship as a set of institutions practices and discourses was involved in the struggle over the nature of cinema in the early twentieth century It also reveals the part played in this struggle by other institutions practices and discourses for example new knowledge about sexuality and organisations devoted to the promotion of public morality Instead of censorship simply being an act of prohibition by a special institution this work reveals the issues at work were far more complex and contradictory opening up critical scrutiny and challenging assumptions This title will be of interest to students of media and film studies
