## **Marijuana Conviction:**

**Criminal Convictions in U.S. Tribal Law** Andrew Novak, 2024-08-02 This book is the first comparative law study of collateral consequences of criminal conviction in all federally recognized Indian tribes in the lower 48 U S states and the mechanisms for restoring civil rights in tribal law Surveying the constitutions codes and ordinances of tribal jurisdictions reveals a broad range of consequences the impact of which has not been comprehensively and critically examined Like state and federal jurisdictions tribal law attaches thousands of legal disabilities to tribal offices business licenses and permits social services and civil rights for persons with criminal convictions This is especially true in economically important industries such as gaming and resource extraction additionally rapidly changing areas such as marijuana regulation and sex offender registries expand the scope still further This book catalogues restoration of rights procedures in tribal law to include pardons expungements and record sealing Collateral consequences have proliferated in tribal law because of the limitations of tribal criminal jurisdiction including over non tribal members However tribal collateral consequences risk contributing to overcriminalization and social exclusion for persons with previous criminal convictions especially as Native Americans are already disproportionately impacted by the U S criminal justice system This book will appeal to legal academics scholars and practitioners working in tribal criminal law as well as to others with interests in Indigenous legal issues

**Marijuana Politics** Robert M. Hardaway, 2018-01-18 What is the big deal about cannabis This book covers everything from botany to the historical uses and common misconceptions of cannabis with a focus on the political process of prohibition and legalization of cannabis in the United States Why is marijuana to which few if any deaths can be attributed generally banned in the United States while cigarettes and liquor which unquestionably kill millions are currently legal This question can best be explained through an investigation of the historical context of cannabis in our country This book documents the long history of marijuana use the turbulent path of the prohibition of cannabis use the issues regarding present day legalization and the modern implications of both medical and recreational cannabis It provides compelling insight from multiple academic disciplines including sociology political science economics medicine and health and in particular from the history of the American experience with the criminalization of liquor gambling prostitution and cigarettes Marijuana Politics Uncovering the Troublesome History and Social Costs of Criminalization examines the current trend toward the legalization of marijuana in the context of the American experience with particular emphasis on political social and constitutional developments in the United States beginning in the 20th century It compares the trend toward marijuana legalization to Prohibition and U S laws regarding the consumption of alcohol and analyzes legal developments in comparable areas such as the regulation of other vices and hard drugs like cocaine and heroin This book is accessible to both casual readers and academic students and provides a robust understanding of the both historical and modern aspects of the

drug itself and legalization regardless of the reader's individual beliefs on the use of cannabis      **Hearings** United States. Congress. House. Committee on Education, 1970      The Failed Promise of Sentencing Reform Michael O'Hear, 2017-03-20

Despite 15 years of reform efforts the incarceration rate in the United States remains unprecedentedly high This book provides the first comprehensive survey of these reforms and explains why they have proven to be ineffective After many decades of stability the imprisonment rate in the United States quintupled between 1973 and 2003 Since then nearly all states have adopted multiple reforms intended to reduce imprisonment but the U S imprisonment rate has only decreased by a paltry 2 percent Why have American sentencing reforms since 2000 been largely ineffective Are tough mandatory minimum sentences for nonviolent drug offenders the primary reason our prisons are always full This book offers a fascinating assessment of the wave of sentencing reforms adopted by dozens of states as well as changes at the federal level since 2000 identifying common themes among seemingly disparate changes in sentencing policy and highlighting recent reform efforts that have been more successful and may point the way forward for the nation as a whole In *The Failed Promise of Sentencing Reform* Michael O'Hear exposes the myths that American prison sentencing reforms enacted in the 21st century have failed to have the expected effect because U S prisons are filled to capacity with nonviolent drug offenders as a result of the war on drugs or because of new laws that took away the discretion of judges and corrections officials O'Hear then makes a convincing case for the real reasons sentencing reforms have come up short because they exclude violent and sexual offenders and because they rely on the discretion of officials who still have every incentive to be highly risk averse He also highlights how overlooking the well being of offenders and their families in our consideration of sentencing reform has undermined efforts to effect real change      Hearings, Reports, Public Laws United States. **Marijuana is Safer** Steve Fox, Paul Armentano, Mason Tvert, 2013-09-01 In 2012 voters in Colorado shocked the political establishment by making the use of marijuana legal for anyone in the state twenty one years of age or older In the wake of that unprecedented victory nationally recognized marijuana policy experts Steve Fox Paul Armentano and Mason Tvert revisit the Marijuana Is Safer message that contributed to the campaign's success as the first edition of this book predicted it would in 2009 In this updated and expanded edition the authors include a new chapter on the victory in Colorado and updates on a growing mountain of research that supports their position Through an objective examination of marijuana and alcohol and the laws and social practices that steer people toward the latter the authors pose a simple yet rarely considered question Why do we punish adults who make the rational safer choice to use marijuana instead of alcohol For those unfamiliar with marijuana Marijuana Is Safer provides an introduction to the cannabis plant and its effects on the user and debunks some of the government's most frequently cited marijuana myths More importantly for the millions of Americans who want to advance the cause of marijuana policy reform or simply want to defend their own personal safer choice this book provides the talking points and detailed information needed to make persuasive arguments to friends family coworkers elected officials and of course future voters

**A Potent Moment** Jeffrey Moyer, 2023-12-06 A Potent Moment assesses the current state of cannabis laws in the United States in the context of broader discussions about drug policy and advances a framework for future efforts to use cannabis legalization to advance social equity It describes the racist origins of cannabis criminalization and the ways in which the prosecutors of the War on Drugs have disproportionately harmed people of color It also offers numerous detailed case studies to identify both the successes and failures of the more recent movement to legalize cannabis at the state level particularly in terms of their efficacy at using cannabis policy to redress social inequality At the same time the author considers the difficulty of crafting effective policies in the face of ongoing cannabis criminalization at the federal level a theme which is present throughout the book as well as in a chapter dedicated to weighing the benefits but also real dangers of various proposals for national legalization A Potent Moment ends with a forceful call to reorient American drug policy away from fear stigma and punishment and toward evidence driven approaches that are applied with compassion
