Marine Shells of Southern California James H. McLean, 1978 **Sea Shells of Southern California** David Berschauer, Rogier Clark, 2018-05 This is a field guide to marine mollusks This book was created to fill what is perceived to be a void in the popular literature namely an affordable reference guide to the sea shells found in the Californian Marine Molluscan Province It is not intended as a comprehensive compendium of the shelled marine mollusks in the province but rather is limited to those taxal likely to be encountered between the intertidal zone and depths ordinarily accessible by scuba diving Some deeper water taxa are included because they are particularly beautiful well known or popular Specifically excluded are those species which we deemed to be micro shells namely species where the average size is 7 mm or less this necessarily excludes a great many families of marine mollusks **Marine Shells of Southern California** James Hamilton McLean, 1969 **Marine Shells of Southern California** James H.
