Silent Film Lora Ann Sigler,2019-07-11 The heyday of silent film soon became quaint with the arrival of talkies As early as

1929 critics and historians were writing of the period as though it were the distant past. Much of the literature on the silent era focuses on its filmic art, ambiance, and psychological depth; the splendor of the sets and costumes yet overlooks the inspiration behind these. This book explores the Middle Ages as the prevailing influence on costume and set design in silent film and a force in fashion and architecture of the era. In the wake of World War I, designers overthrew the artifice of prewar style and manners and drew upon what seemed a nobler, purer age to create an ambiance that reflected higher ideals. *The Fixers* E.J. Fleming, 2015-01-28

Eddie Mannix and Howard Strickling are virtually unknown outside of Hollywood and little remembered even there but as General Manager and Head of Publicity for Metro Goldwyn Mayer Studios they lorded over all the stars in Hollywood's golden age from the 1920s through the 1940s, including legends like Garbo, Dietrich, Gable, and Garland. When MGM stars found themselves in trouble, it was Eddie and Howard who took care of them, solved their problems, hid their crimes, and kept their secrets. They were the Fixers. At a time when image meant everything and the stars were worth millions to the studios that owned them, Mannix and Strickling were the most important men at MGM. Through a complex web of contacts in every arena, from reporters and doctors to corrupt police and district attorneys, they covered up some of the most notorious crimes and scandals in Hollywood history, keeping stars out of jail and more importantly, their names out of the papers. They handled problems as diverse as the murder of Paul Bern, husband of MGM's biggest star Jean Harlow; the studio-directed drug addictions of Judy Garland; the murder of Ted Healy, creator of The Three Stooges, at the hands of Wallace Beery; and arranging for an unmarried Loretta Young to adopt her own child, a child fathered by a married Clark Gable. Through exhaustive research and interviews with contemporaries, this is the never-before-told story of Eddie Mannix and Howard Strickling. The dual biography describes how a mob-related New Jersey laborer and the quiet son of a grocer became the most powerful men at the biggest studio in the world. **LIFE**, 1952-10-20

While speculation has always been crucial to biography, it has often been neglected, denied, or misunderstood. This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work, whether this is to conceptualise a project in its early stages, work with scanty or deliberately deceptive sources, or address issues associated with shy or stubborn subjects. After defining the role of speculation in biography, the volume offers a series of work-in-progress case studies that discuss the challenges biographers encounter and address in their work. In addition to defining the speculative spectrum within the biographical endeavour, the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research, subjectivity, and that which Natalie Zemon Davis dubbed informed imagination. By mapping the

field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical
