Drohojowska-Philp,2005-11-15 Offers a portrait of the twentieth century woman artist through discussions of her marriage to art photography pioneer Alfred Stieglitz the impact of his infidelity on her psyche and her relocation to New Mexico where she created her signature works

Georgia O'Keeffe Roxana Robinson,2020-10 Georgia O Keeffe is arguably the 20th century s leading woman artist Coming of age along with American modernism her life was rich in intense relationships with family friends and especially noted photographer Alfred Stieglitz Her struggle between the rigorous demands of love and work resulted in extraordinary accomplishments Her often eroticized flowers bones stones skulls and pelvises became extremely well known to a broad American public *The Shadows of Heaven* Paul Beekman Taylor,2025-09-12 A great deal

of mystery surrounds G I Gurdjieff and *The Work* Today many on the path of selfexploration find themselves drawn to the symbolism of the enneagram and to Gurdjieff s other teachings Gurdjieff was undeniably charismatic many famous and influential people lived in his shadow accepting his guidance while changing and transforming their lives *Shadows of Heaven* focuses on the relationship between Gurdjieff and the poetnovelist Nathan Jean Toomer from 1924 until Gurdjieff s death in 1949 as well as each man s relationship with Edith Annesley Taylor and her son Paul the author of this book Caught in the middle of this tense triad of interests was the English criticpublisher A R Orage who was close to all three parties and whose wife Jessie was Edith s best friend Paul Taylor s unique life experience has made it possible for him to combine his mother s memoir s conversations between Toomer and Gurdjieff and entries from Jessie Orage s diary into this fascinating book It is

probably the first to reveal something of Gurdjieff's love life with the mothers of his children. Several new descriptions of Gurdjieff's voyages with his pupils reveal aspects of Gurdjieff's character not documented elsewhere. Excerpts from Jessie Orage's diaries testify to the magnetic attraction Gurdjieff exercised over those he felt were vital to the dissemination of his ideas. With 16 pages of never-before published photographs, this book presents a fresh new picture of Gurdjieff and his teaching, adding to his legend a tangible humanity to which we can all relate. **Solace and Grief** Foz Meadows, 2010

Solace Morgan was born a vampire. Raised in foster care, she has always tried to keep her abilities secret until an eerie encounter with a faceless man prompts her to run away. **The Fight for Marriage** Phillip F. Cramer, William L. Harbison, 2018-03-26. For leaders in governments and in churches, marriage equality is the most contentious civil rights dispute in the 21st century. During an era where nearly half of all marriages end in divorce, same gender couples now have the federal civil right to marry too. At a time when 62 percent of Americans approve of same gender marriage according to June 2017 Pew Research, churches are having to come to terms with whether to recognize and affirm these faithful partnerships as sacred covenants. Attorneys Harbison and Cramer, faithful and active members of a United Methodist congregation, brought one of the cases to the US Supreme Court which resulted in the 2015 landmark decision that permits persons of the same gender to marry. They bring a unique legal and cultural perspective to the controversy. For the three couples, Harbison and Cramer represented marriage is not an issue to be resolved. Marriage is rather a sign for these couples of their faithful promise to love each other until they depart this life. Each couple married for several reasons, including their commitment to love and support one another to demonstrate their mutual commitment to their family, friends, and colleagues, and to show others that they should be treated as a family. They also married to make a legally binding mutual commitment to join their resources together in a legal unit and to be treated by others as a legal family unit rather than as legally unrelated individuals. Finally, each couple married so that they could access the legal responsibilities of marriage to protect themselves and their families just as heterosexual couples do. Aleta A. Trauger, Federal Judge. With a first-hand account of the respectful courtroom drama concerning marriage in American communities and states, Harbison and Cramer show why states care about marriage, why the church got involved in marriage more than a thousand years after Jesus's earthly ministry, and how the church and the state function in partnership to foster the purposes and social benefits of marriage. From the Faultlines collection, resources intended to inform conversations around human sexuality and the church. **Gurdjieff's America** Paul Beekman Taylor, 2004. Traces the evolution of Afro-American poetry, highlighting individual poets up to the time of the Harlem Renaissance. Georgia O'Keeffe Janet Souter, 2011-07-01. In 1905, Georgia travelled to Chicago to study painting at the Art Institute of Chicago. In 1907, she enrolled at the Art Students League in New York City where she studied with William Merritt Chase. During her time in New York, she

became familiar with the 291 Gallery owned by her future husband photographer Alfred Stieglitz In 1912 she and her sisters studied at university with Alon Bement who employed a somewhat revolutionary method in art instruction originally conceived by Arthur Wesley Dow In Bement's class the students did not mechanically copy nature but instead were taught the principles of design using geometric shapes They worked at exercises that included dividing a square working within a circle and placing a rectangle around a drawing then organising the composition by rearranging adding or eliminating elements It sounded dull and to most students it was But Georgia found that these studies gave art its structure and helped her understand the basics of abstraction During the 1920s O Keeffe also produced a huge number of landscapes and botanical studies during annual trips to Lake George With Stieglitz's connections in the arts community of New York from 1923 he organised an O Keeffe exhibition annually O Keeffe's work received a great deal of attention and commanded high prices She however resented the sexual connotations people attached to her paintings especially during the 1920s when Freudian theories became a form of what today might be termed pop psychology The legacy she left behind is a unique vision that translates the complexity of nature into simple shapes for us to explore and make our own discoveries She taught us there is poetry in nature and beauty in geometry Georgia O Keeffe's long lifetime of work shows us new ways to see the world from her eyes to ours
