**News International and phone-hacking** Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2012-04-27 This report concentrates on the issue of whether witnesses have previously misled a select committee of the House of Commons over the extent and knowledge of phone hacking The Committee concludes that several individuals misled the Committee in 2009 and more recently and that the News of the World and News International corporately misled the Committee about the true nature and extent of the internal investigations they carried out into phone hacking made statements that were not fully truthful and withheld documents The companies directors including Rupert Murdoch and James Murdoch should be prepared to take responsibility for these failings The Committee reports its findings for the House of Commons to decide whether a contempt has been committed and if so what punishment should be imposed Summary of Michael Lewis's Who Is Government? Milkyway Media, 2025-05-05 Buy now to get the main key ideas from Michael Lewis's Who Is Government In Who Is Government 2025 bestselling author Michael Lewis teams up with six other writers Casey Cep Dave Eggers John Lanchester Geraldine Brooks Sarah Vowell and W Kamau Bell to illuminate the often unseen world of dedicated civil servants Through a series of essays they reveal the crucial roles that government workers play in addressing complex challenges that range from mine safety to cybercrime Lewis and his colleagues challenge readers to appreciate how government really works thanks to these unsung heroes who strive to make a difference in the world Joint Documents of the State of Michigan Michigan, 1844 **42** Douglas Adams, 2023-08-24 When Douglas Adams died in 2001 he left behind 60 boxes full of notebooks letters scripts jokes speeches and even poems In 42 compiled by Douglas's long time collaborator Kevin Jon Davies hundreds of these personal artefacts appear in print for the very first time Douglas was as much a thinker as he was a writer and his artefacts reveal how his deep fascination with technology led to ideas which were far ahead of their time a convention speech envisioning the modern smartphone with all the information in the world living at our fingertips sheets of notes predicting the advent of electronic books journal entries from his forays into home computing it is a matter of legend that Douglas bought the very first Mac in the UK musings on how the internet would disrupt the CD Rom industry among others 42 also features archival material charting Douglas's school days through Cambridge Footlights collaborations with Graham Chapman and early scribbles from the development of Doctor Who Hitchhiker's and Dirk Gently Alongside details of his most celebrated works are projects that never came to fruition including the pilot for radio programme They'll Never Play That on the Radio and a space inspired theme park ride Douglas's personal papers prove that the greatest ideas come from the fleeting thoughts that collide in our own imagination and offer a captivating insight into the mind of one of the twentieth century's greatest thinkers and most enduring storytellers **Houses of Boston's Back Bay** Bainbridge Bunting, 1967 Sociologically speaking the Back Bay is Boston's fashionable residential quarter or so it was until the great depression of 1929 began the gradual conversion of its aristocratic dwellings to more modest uses Occupying about

two hundred acres in the center of the greater filled region the limits of this smaller area are the river the Public Garden Boylston Street and Fenway Park The Back Bay is interesting to Bostonian and visitor of the present day for a variety of reasons Some will look at the area as a remarkably complete example of nineteenth century American architecture Some people with a sociological interest will study the area s changes in property use and occupancy over the last thirty five years and try to foresee the role the Back Bay is to play in the future development of the metropolitan center Still others are concerned with the area as a convenient place to live or with property values and tax rates With a precision almost unique in American history the buildings of the Back Bay chart the course of architectural development for more than half a century

*The Emptiness of the Image* Parveen Adams,2013-04-15 There has long been a politics around the way in which women are represented with objection not so much to specific images as to a regime of looking which places the represented woman in a particular relationship to the spectator s gaze Artists have sometimes avoided the representation of women altogether but they are now producing images which challenge the regime How do these images succeed in their challenge *The Emptiness of the Image* offers a psychoanalytic answer Parveen Adams argues that despite flaws in some of the details of its arguments psychoanalytic theory retains an overwhelming explanatory strength in relation to questions of sexual difference and representation She goes on to show how the issue of desire changes the way we can think of images and their effects Throughout she discusses the work of theorists artists and filmmakers such as Helene Deutsch Catherine MacKinnon Mary Kelly Francis Bacon Michael Powell and Della Grace *The Emptiness of the Image* shows how the very space of representation can change to provide a new way of thinking the relation between the text and the spectator It shows how psychoanalytic theory is supple enough to slide into and transform the most unexpected situations

generous towards listening in psychoanalysis and language in philosophy This collection of original essays brings together historical studies and contemporary theoretical perspectives on vision The historical papers focus in turn on Ancient Greece medieval theology the Renaissance the Enlightenment and the nineteenth century These historical studies are themselves thoroughly informed by poststructuralist theory They provide a rigorous background for several new exciting articles on vision and its bearings for feminism race sexual orientation film and art This collection is the first of its kind in juxtaposing historical and contemporary

Retrieving the Radical Tillich Russell Re Manning, 2016-01-26 Paul Tillich is best known today as a theologian of mediation Many have come to view him as an out of date thinker a safe exemplar of a mid twentieth century theological liberalism The way he has come to be viewed contrasts sharply with the current theological landscape one dominated by the notion of radicality In this collection Russell Re Manning breaks with the widespread opinion of Tillich as safe and dated Retrieving the Radical Tillich depicts the thinker as a radical theologian strongly marked but never fully determined by the urgent critical demands of his time From the crisis of a German cultural and religious life after the First World War to the new realities of religious pluralism Tillich's theological responses were always profoundly ambivalent impure and disruptive asserts Re Manning The Tillich that is outlined and analyzed by this collection is never merely correlative Far from the dominant image of the theologian as a liberal accommodationist Re Manning reintroduces the troubled and troubling figure of the radical Tillich
