Interactive Fictions Yael Halevi-Wise,2003-09-30 Arguing that genre must play a role in our study of narrative fiction this tour of the novel examines interactive storytelling scenes in which characters argue about how to tell a tale that meets their respective social and aesthetic expectations Through intense readings of interactive storytelling scenes in works spanning the 17th through 20th centuries Halevi Wise demonstrates how dramatized arguments about storytelling open a window on social and generic dilemmas affecting the narrative of each novel at the time of its composition Examined in detail are Cervantes Don Quixote Sterne s Tristram Shandy Austen s Northanger Abbey Dickens s Little Dorrit Conrad s Lord Jim Yehoshua s Mr Mani and Esquivel s I Like Water for Chocolate Redressing an imbalance between sociological approaches that displace aesthetic considerations and aesthetic analyses that bracket cultural phenomena the author shows why both genre and culture must be taken into account when we analyze the formation and reception of a narrative Each interactive storytelling event illustrates how social and aesthetic interests compete and reinvent themselves within their framing texts and those texts respective national and historical contexts Just as social interactions cannot be indefinitely displaced in the study of narrative fiction genre cannot be ignored in the study of identity politics What emerges from this unique examination is a postmodern poetics of the novel that takes genre and history into account

Handbook of Japanese Semantics and Pragmatics Wesley M. Jacobsen,Yukinori Takubo,2020-10-12 The volume on Semantics and Pragmatics presents a collection of studies on linguistic meaning in Japanese either as conventionally encoded in linguistic form the field of semantics or as generated by the interaction of form with context the field of pragmatics representing a range of ideas and approaches that are currently most influential in these fields The studies are organized around a model that has long currency in traditional Japanese grammar whereby the linguistic clause consists of a multiply nested structure centered in a propositional core of objective meaning around which forms are deployed that express progressively more subjective meaning as one moves away from the core toward the periphery of the clause The volume seeks to achieve a balance in highlighting both insights that semantic and pragmatic theory has to offer to the study of Japanese as a particular language and conversely contributions that Japanese has to make to semantic and pragmatic theory in areas of meaning that are either uniquely encoded or encoded to a higher degree of specificity in Japanese by comparison to other languages such as conditional forms
