Trade, Traders and Trading in Rural Java Jennifer Alexander, 1987 In small towns throughout Java thousands of traders gather twice each week for a few hours of frenetic buying and selling This important phenomenon of the Javanese rural economy is here examined from various perspectives as a material exchange of commodities a social system of traders credit suppliers and other market participants and a structured flow of information that can be analyzed through recent anthropological and economic theories

Market Trade in Rural Java Glen Chandler, 1984

Accounting for Services Daan Marks, 2009 The most intriguing question about Indonesia's economic development during the twentieth century is why the country's growth performance has been so erratic and displayed such a high degree of discontinuity This is connected with the fundamental question about the nature of long run economic development in Indonesia So far the economic historiography of Indonesia has been less systematic than what the available source material would permit Indonesia is exceptionally well endowed with rich statistical sources which carry the potential of supporting a rigorous and systematic quantitative approach to vital questions concerning the economic growth performance in the long run This book takes such an approach and presents new estimates for the long run growth of the Indonesian service sector and analyses the role of the various service sectors in economic development Linking empirical and theoretical analysis in a creative fashion Daan Marks provides a rich and original contribution to our understanding of the economic history of Indonesia He shows that the service sector has played a crucial role in Indonesia's economic development Or in other words to fully understand Indonesia's economic development path services need to be accounted for

The End of the Peasantry in Southeast Asia R.E. Elson,2016-01-13 This book analyses the changing context and conditions of production and livelihood amongst Southeast Asia s peasants since the beginning of the nineteenth century It argues that with demographic growth and the nineteenth century development of great global markets based on small scale production the size and economic significance of peasantries throughout the region was magnified However such changes brought with them new forces stronger states more regular legal systems a revolution in communications intensive commercialisation which themselves worked to undermine the foundations of peasant society and eventually to transform peasants into farmers workers and citizens

Market Frictions Kirsten W. Endres,2019-06-06 Based on ethnographic research conducted over several years Market Frictions examines the tensions and frictions that emerge from the interaction of global market forces urban planning policies and small scale trading activities in the Vietnamese border city of L o Cai Here it is revealed how small scale traders and market vendors experience the marketplace reflect upon their trading activities and negotiate current state policies and regulations It shows how traditional Vietnamese marketplaces have continually been reshaped and adapted to meet the changing political economic circumstances and civilizational ideals of the time

Communities and Markets in Economic Development Masahiko Aoki,The late Yujiro Hayami,2001-05-31 This book explores the role of community in facilitating the transition to market relationships in economic development and in controlling and sustaining local public goods such as irrigation forests grazing land and fishing grounds Previously it was customary to classify economic systems in terms of varying combinations of state and market

control of resource allocation In contrast this book recognizes community as the third major element of economic systems This new approach also departs from the conventional view that markets and community norms should be treated as mutually exclusive means of organizing economic activity instead clarifying the situations in which they may become complementary Further discussion focuses on the conditions under which management of local commons can and should be delegated to local communities rather than subjected to the control of central government These and other issues are investigated by twenty one leading scholars from economic history development economics agricultural economics and institutional economics The resulting volume is the latest in a set of four books about East Asian developmental experiences co sponsored by the Economic Institute of the World Bank and the Stanford Institute of Economic Policy Research It will appeal to economists and other social scientists with an interest in economic development history comparative systems and institutional economics Fostering Resilience through Micro, Small and Medium Enterprises Tulus T.H.

Tambunan,2022-03-30 This book focuses on the development of Micro Small and Medium Enterprises MSMEs in Indonesia based on various primary and secondary field surveys In doing so the book provides a regional comparison of countries in Asia Pacific covering issues such as employment generation formation of gross domestic product GDP export development development constraints productivity and investment To achieve this the book analyzes the role of partnerships between MSMEs such as large companies banks and government institutions and the role of cooperatives It also includes studies on women s entrepreneurship in Indonesia and also explores the crisis mitigating measures CMMs widely adopted by MSMEs affected by financial crises in the past Finally the book also examines the development of financial technology FinTech and in particular peer to peer P2P lending and how this can serve as an alternative source of funding for MSMEs in Indonesia Aspects of this book would be useful to students researchers practitioners and also those interested in economic related sustainable development goals SDGs given the importance the United Nations UN has assigned to MSMEs for taking a lead in employment creation and poverty eradication **Economic Development, Integration, and Morality in Asia and the Americas**

Donald C. Wood,2009-04-09 Explores economic development integration and morality in economic transactions in Asia and the America This title includes chapters that look at underground gambling behavior in China in light of that country s economic boom and retail store expansion and local socioeconomic effects in rural Mexico **How Important are Labor Markets to the Welfare of Indonesia's Poor?**

Andrew David Mason,Jacqueline Baptist,1996 Labour in Southeast Asia Becky Elmhirst,Ratna Saptari,2004-05-07 In seeking to provoke debate the book reveals the variety of experiences evident in countries and regions marked by capitalist and post socialist regulatory frameworks and contrasting labour regimes histories and cultures The contributions show the importance of critically examining both the complex nature of global local links and the particular ways economic processes are around the themes of labour regimes labour processes labour mobility and labour communities the essays show how economic development is not only shaped by market forces but

is also interlocked in systems of meaning **Migration and Diaspora in Modern Asia** Sunil S. Amrith, 2011-03-07

Migration is at the heart of Asian history For centuries migrants have tracked the routes and seas of their ancestors merchants pilgrims soldiers and sailors along the Silk Road and across the Indian Ocean and the China Sea Over the last 150 years however migration within Asia and beyond has been greater than at any other time in history Sunil S Amrith's engaging and deeply informative book crosses a vast terrain from the Middle East to India and China tracing the history of modern migration Animated by the voices of Asian migrants it tells the stories of those forced to flee from war and revolution and those who left their homes and their families in search of a better life These stories of Asian diasporas can be joyful or poignant but they all speak of an engagement with new landscapes and new peoples **The Indonesian Journal of**

Geography, 1992 **Embedded Entrepreneurship: Market, Culture, and Micro-Business in Insular Southeast Asia**

, 2013-07-04 Embedded Entrepreneurship examines the importance of cultural meaning in the creation and utilization of economic value Based on case studies from Thailand Malaysia Singapore and Indonesia the authors demonstrate that micro scale entrepreneurship is intertwined with prevailing conceptions moralities and habituations in the entrepreneurs social milieu More specifically the volume argues that meaning making is integral to economic opportunity that economic actors market agency is shaped by cultural experiences that entrepreneurs prototypical individualism is socially contingent and that cultural meanings channel economic value among economic and social domains Addressing core questions about embedding the authors suggest theoretical convergences between economic anthropology and economic sociology Contributors include Signe Howell Ingrid Rudie Leif Manger Olaf H Smedal Frode F Jacobsen Kristianne Ervik Anette Fagertun Lars Gjelstad Nils Hidle Anja Lillegraven Solgunn Olsen and Ingvild Solvang The Contributions of Infrastructure to Economic Development Christine Kessides, 1993-01-01 This paper reviews the linkages between infrastructure and economic development based on both formal empirical research and informal case studies The main thesis is that economic benefits result from investments in infrastructure only to the extent that they generate a sustainable flow of services valued by consumers Thus an analysis of infrastructures contributions to growth must look at the impacts of services as actually perceived not at indirect indicators that measure only aggregate provision of infrastructure capital The paper notes that macro and industry level research although having its limitations suggest a positive and statistically significant relationship between infrastructure and economic output However the conclusions derived from this research most of which derives from developed countries provide little specific guidance for policy To gain more practical insights about how infrastructure contributes to economic growth and to improved quality of life and to understand the welfare costs of inadequate or unreliable infrastructure it is necessary to look at microeconomic evidence Particularly interesting illustrations of these relationships are to be found in developing countries where there is wide variance in the availability and quality of infrastructure
