Marketing Cooperatives And Peasants In Kenya:

Marketing Cooperatives and Peasants in Kenya Torben Bager, 1980 Research paper examining the impact of marketing cooperatives on farming in Kenya comprising case studies of Kisii discusses the activities trends government policies impact on social structure and agricultural production agricultural development prospects low participation of women farming methods land utilization land tenure economic disparities farmer attitudes organisational rigidity etc References and statistical tables **Seeds for African Peasants** Esbern Friis-Hansen, 1995 **Agricultural Marketing Cooperatives**, 1995 Marketing cooperatives and peasant in Kenya Torben Bager, 1980 **Livestock Development and Policy in East Africa** Philip Lawrence Raikes, 1981 Historical Dictionary of Kenya Michael Mwenda Kithinji, 2024-06-18 Kenya has a rich and complex history Due to the vast discoveries of prehistoric archaeological remains Kenya is one of the few places in the world with the largest and most complete record of human s cultural development Furthermore the country s strategic location astride the Indian Ocean and the East African littoral attracted numerous foreigners such as the Arabs Persians Portuguese Americans British Chinese French and Germans Additionally immigrants from throughout Africa and beyond have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Still Kenya like many other countries throughout the world has been plagued by an increasing array of complex economic political and social challenges Historical Dictionary of Kenya Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Kenya **State Power and Social Forces** Joel Samuel Migdal, Atul Kohli, Vivienne Shue, 1994-08-26 This eminently readable 1994 collection of high quality country specific essays on Third World politics provides through a variety of well integrated themes and approaches an examination of state theory as it has been practised in the past and how it must be refined for the future The contributors go beyond the previously articulated bringing the state back in model to offer their own state in society approach They argue that states which should be disaggregated for meaningful comparative study are best analysed as parts of societies States may help mould but are also continually moulded by the societies within which they are embedded States capacities further will vary depending on their ties to other social forces And other social forces will be capable of being mobilised into political contention only under certain conditions Political contention pitting states against other social forces may sometimes be mutually enfeebling but at other times mutually empowering *State-Administered Rural Change* Björn Gyllström, 2023-07-26 Originally published in 1991 this book includes a detailed case study of Kenya s co operative movement one of the largest in sub Saharan Africa Co operatives have been given a major role in rural development strategies in both

socialist and capitalist states However in both context the results they have achieved have fallen short of expectations The book focuses on specific elements of the institutional setting within which agricultural marketing co operatives operate Factors like land tenure market regulations co operative legislation and direct development support are discussed and shown to have had dire effects on the managerial behaviour and social impact of the co operative sector *Historical Dictionary of Kenya* Robert M. Maxon, Thomas P. Ofcansky, 2014-09-09 Kenya has a long and complex history that began thousands of years ago Indeed some archaeologists contend that the country was the cradle of mankind or at the very least one of the places that was home to the earliest hominids In later centuries Kenya s strategic location astride the Indian Ocean and the East African littoral attracted numerous foreign peoples some of the most significant of which have been the Americans Arabs British Chinese French Germans and Portuguese Additionally Africans from throughout the subcontinent have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Although it has maintained this reputation during the post independence period Kenya like most African countries has been plagued by an increasing array of complex economic political and social problems This third edition of *Historical Dictionary of Kenya* provides a starting point for those interested in any of the phases of Kenya s historical evolution This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Kenya **Peasant Production and Cooperative Experiences in Tanzania** F. F. Lyimo, 1984 **Microeconomic Issues of Labor Markets in Developing Countries** Dipak Mazumdar, 1989-01-01 This paper deals with labor market structures in developing countries and the impact of government policies on rural and urban labor markets The central concern in analyses of employment is absorption of labor Governments try to influence the demand for labor so that more members of the labor force are absorbed into productive employment Employment outcomes are often the by products of government policies that affect economic growth as a whole This paper concentrates on factors that influence the structure and functioning of labor markets In Chapter 1 a schematic picture of labor markets is presented Chapters 2 and 3 analyze the salient features of the workings of rural and urban labor markets and discuss some important government policies that affect the functioning of these markets The paper concludes that Government intervention in both rural and urban labor markets has often been less than successful sometimes because their policies were based on incorrect assumptions At other times these policies have achieved less because the government also adopted other policies that tended to contradict the goal of providing jobs **Peasant Cooperation and Capitalist Expansion in Central Peru** Norman Long, Bryan R. Roberts, 2014-11-06 This book brings together the research into regional development and social change carried out in highland Peru by a team of

British and Latin American social anthropologists and sociologists The area studied the Mantaro Valley of central Peru is one of the most densely populated and economically differentiated of highland zones it is also notable for its community based forms of cooperation and its high level of peasant political activity The book presents a series of case studies that examine cooperative forms of organization in relation to developments in the regional economy and to changes in national policy The analysis attempts to avoid interpreting local processes merely as responses to externally initiated change It stresses instead the need to consider the interplay of local and national forces because local groups and processes themselves affect the pattern of regional and national development The case studies cover a range of political and economic topics from peasant movements to the achievements and shortcomings of government sponsored agricultural and manufacturing cooperatives The concluding chapter by the editors explores the theoretical implications of these studies

African Successes David K. Leonard, 1991-03-14 For the past twenty five years Kenya has progressed while much of Africa has stagnated Instead of the economic disasters underdevelopment and serious food shortages that have plagued its neighbors Kenya has enjoyed an expanding economy and agriculture And instead of a corrupt and incompetent public administration Kenya has established several successful rural development programs run by public servants with integrity and professional commitment What accounts for these Kenyan successes In this innovative study David Leonard illustrates the way public policy is made and implemented in Kenya by focusing on four public officials who have had a great impact on rural development He skillfully weaves his analyses of Kenya's political economic and administrative systems into evocative biographical portraits of Charles Karanja General Manager of the Kenya Tea Development Authority Harris Mule administrative head of Finance and Planning Ishmael Muriithi head of the Veterinary Department and Simeon Nyachae Cabinet Secretary and chief of the Civil Service The result is a fascinating glimpse of Kenyan political life from the inside set in the context of the historical and social forces that have shaped that country's government

Rural Africana, 1981

Peasants Against the State Stephen G. Bunker, 1991-06-18 Stephen Bunker challenges the image of peasants as passive victims and argues that coffee growers in the Bugisu District of Uganda because they own land and may choose which crops to produce maintain an unusual degree of economic and political independence Focusing on peasant struggles for market control over coffee exports in Bugisu from colonial times through the reign and overthrow of Idi Amin Bunker shows that these freeholding peasants acted collectively and used the state's dependence on coffee export revenues to effectively influence and veto government programs inimical to their interests

Bunker's work vividly portrays the small victories and great trials of ordinary people struggling to control their own economic destiny while resisting the power of the world economy **Peasants in World History** Eric Vanhaute, 2021-03-22

This is the first world history of peasants. *Peasants in World History* analyzes the multiple transformations of peasant life through history by focusing on three primary areas: the organization of peasant societies, their integration within wider societal structures, and the changing connections between local, regional, and global processes. Peasants have been a vital component in human history over the last 10,000 years, with nearly one-third of the world's population still living a peasant lifestyle today. Their role as rural producers of ever new surpluses instigated complex and often opposing processes of social and spatial change throughout the world. Eric Vanhaute frames this social change in a story of evolving peasant frontiers. These frontiers provide a global comparative historical lens to look at the social, economic, and ecological changes within village systems, agrarian empires, and global capitalism. Bringing the story of the peasantry up through the modern period and looking to the future, the author offers a succinct overview with students in mind. This book is recommended reading to anyone interested in the history and future of peasantries and is a valuable addition to undergraduate and graduate courses in World History, Global Economic History, Global Studies, and Rural Sociology *Labour and Poverty in Kenya, 1900-1980* Paul Collier, Deepak Lal, 1986. Traces the evolution of the Kenyan labour market, focusing on rural-urban and urban-rural interactions and how these interactions have been affected and distorted by wage policies.
