

Recall that we have used  
"multiplication" of the counting  
numbers to define addition that works  
perfectly. This is an important  
technical point about Peano's Axioms. We  
are using this strategy and hope, with our  
appeal to the Generalized Associative Law,  
convince you that this strategy works  
for the natural number multiplication. We have  
proved the distributive law. Therefore  
we can show that  $\mathbb{N}$  is a field and  
an important way, leading to  
Rings and Modules.
