سُورَةُ الزُّوْر

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
وَمِنْ آيَاتِهِ أَنْ خَلَقَ لَكُمْ مِنْ أَنْفُسِكُمْ
أَزْوَاجًا لِتَسْكُنُوا إِلَيْهَا وَرَجَعَكُمْ بَيْنَهُمْ فَوَدَّ أَنْ
يَزِيدَهُمْ مِنْ فَضْلِهِ فَعَبَّ عَنْهُمْ وَأَصْرَحَ

*And among His Signs
Is this, that He created
For you mates from among
Yourselves, that ye may
Dwell in tranquillity with them,
And He has put love
And mercy between your (hearts):
Verily in that are Signs
For those who reflect.*

Matrimonial Education In Islam:

Matrimonial Education in Islam Ahmad Hussein Sakr, 2004-07 **Homosexuality in Islam** Scott Siraj Al-Haqq Kugle, 2010-01-01 Homosexuality is anathema to Islam or so the majority of both believers and non believers suppose Throughout the Muslim world it is met with hostility where state punishments range from hefty fines to the death penalty Likewise numerous scholars and commentators maintain that the Qur'an and Hadith rule unambiguously against same sex relations This pioneering study argues that there is far more nuance to the matter than most believe In its narrative of Lot the Qur'an could be interpreted as condemning lust rather homosexuality While some Hadith are fiercely critical of homosexuality some are far more equivocal This is the first book length treatment to offer a detailed analysis of how Islamic scripture jurisprudence and Hadith can not only accommodate a sexually sensitive Islam but actively endorse it The Islamic Marriage Contract Asifa Quraishi, Frank E. Vogel, 2022-10-07 It is often said that marriage in Islamic law is a civil contract not a sacrament If this is so this means that the marriage contract is largely governed by the same rules as other contracts such as sale or hire But at the same time marriage is a profound concern of the Islamic scriptures of Qur'an and Sunna and thus at the very core of the law and morality of Islam and of the individual familial and social life of Muslims This volume collects papers from many disciplines examining the Muslim marriage contract Articles cover doctrines as to marriage contracts e.g. may a wife stipulate monogamy historical instances e.g. legal advice from thirteenth century Spain comparisons with Jewish and canon law contemporary legal and social practice and projects of activists for women worldwide Demonstrating a new and powerful focus for comparative and historical inquiries into Islamic law and social practices this book marks a fresh point of departure for the study of Muslim women Marriage, Gender and Islam in Indonesia Maria Platt, 2017-05-12 Marriage is central to Indonesia's social fabric and critical in defining socially legitimate relationships This book offers a rich anthropological account of Muslim Indonesian women's experiences of courtship love marital discord and separation polygamy divorce and remarriage By applying a new approach to theorising marital experiences as playing out across a dynamic marital continuum it expands static and dichotomous understandings of marriage and divorce It offers new insights on how local modalities of Islam shape gender relations and are actively negotiated by women in pursuing their marital desires The book draws upon ethnographic case studies from the eastern Indonesian island of Lombok where early marriage divorce and remarriage are common place for Muslim women In this context up to 70 per cent of marriages are legitimated through Islamic ceremonies and remain unregistered with the state While these unregistered marriages are legally valid within the communities in which they occur such unions exclude women from accessing the marital rights theoretically enshrined in Indonesian marriage law A key contribution of this book lies in its exploration of legal plurality in relation to Indonesian marriage which involves investigating the salience of Islamic law local customary law and state law for women's varied marital trajectories **Marriage and Matrimonial Remedies** Mohammed Ahmad Qureshi, 1978

Women in Islam Terence Lovat, 2012-06-12 The role of women in Islamic societies not to mention in the religion itself is a defining issue It is also one that remains resistant to universal dogma with a wide range of responses to women's social roles across the Islamic world Reflecting this heterogeneity the editor of this volume has assembled the latest research on the issue which combines contemporary with historical data The material comes from around the world as well as from Muslim and non Muslim researchers It takes in work from majority Muslim nations such as Bangladesh Iran Iraq Lebanon Pakistan Palestine Tunisia and Turkey as well as countries with troubled interfaith relations such as India and Israel Nations with minority Muslim populations such as France the UK Canada and Australia are also represented The work also features varying Islamic sub groups such as the two main ones Sunni and Shi'a as well as less well known populations such as the Ismaili Muslims In each case the work is underpinned by the very latest socio theological insights and empirical data

Women and Islam: Women's movements in Muslim societies Haideh Moghissi, 2005 This three volume interdisciplinary collection is of use not only in Middle East studies but also in various other disciplines including women's studies political science religion cultural studies sociology of gender and anthropology The collection offers the most influential writings in the field by both renowned scholars as well as those by the new generation of scholars of Islam and gender and includes a wide variety of cases from Middle Eastern and Islamic societies By including case based articles the collection highlights the clear links between concepts and theories and actual practices Titles also available in this series include Shamanism March 2004 3 volumes 395 and the forthcoming titles Childhood 2005 4 volumes c 495 Gender 2005 4 volumes c 495 and Knowledge 2005 4 volumes c 495

Muslim and Christian Women in Dialogue Kathleen McGarvey, 2009 Observations about dialogue and about the theology of religions are common enough these days but they are rarely grounded in the analysis of a particular reality and are therefore of little help to practitioners This book on the other hand gives an exhaustive documentation of the background and the actual situation of Muslim Christian relations in Northern Nigeria before proceeding to proposals for understanding the contribution of women's discourse in the development of dialogue and to a feminist theology of religions Drawing from her empirical findings in Northern Nigeria as well as some feminist insights the author suggests an approach to other religions grounded in people's lived experience and a shared commitment to justice peace and transformed human relations Recognizing the limitations of some pluralist theories she suggests a feminist ethical approach to religious pluralism The practicality and feasibility of such an approach are shown as she elaborates on its possible application in the concrete context of Northern Nigeria
