Matthew Arnold And American Culture:

Matthew Arnold and American Culture John Henry Raleigh,1974 *Matthew Arnold and American Culture* John Henry Raleigh,2012-05-01 **Matthew Arnold and American Culture, by John Henry Raleigh** John Henry Raleigh,1957

Discourses in America Matthew Arnold,2021-05-19 In *Discourses in America* Matthew Arnold presents a series of thought provoking essays that explore the cultural and intellectual landscape of America in the late 19th century With a distinctive literary style characterized by eloquent prose and incisive observations Arnold delves into subjects such as education religion and democracy articulating his vision of America s potential and its philosophical underpinnings Set against the backdrop of a rapidly changing society his work reflects the tensions between tradition and modernity offering a rich analysis of how these forces shape American identity Matthew Arnold 1822 1888 was a prominent Victorian poet and cultural critic whose experiences as an inspector of schools in England and his travels to America informed his worldview His observations stem from a deep commitment to education and social reform as well as his quest for cultural improvement Arnold s unique position allows him to juxtapose British norms with the burgeoning American ethos making his insights particularly valuable for understanding the transatlantic cultural dialogue of his time *Discourses in America* is an essential read for anyone interested in the dynamics of American culture and identity It offers timeless reflections relevant to contemporary discussions about democracy and social responsibility Arnold s perspicacious analyses encourage readers to engage critically with the values that define America making this work a significant contribution to both literary and cultural studies

American Culture, American Tastes Michael Kammen,2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century

Anthropologists and the

Rediscovery of America, 1886-1965 John S. Gilkeson, 2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold's the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective

Constance Rourke and American Culture Joan Shelley Rubin, 2018-06-15 The career of Constance Rourke 1885 1941 is one of the richest examples of the American writer's search for a usable past In this first full length study of Rourke Joan Shelley Rubin establishes the context for Rourke's defense of American culture the controversies that engaged her the books that influenced her thinking the premises that lay beneath her vocabulary With the aid of Rourke's unpublished papers the author explores her responses to issues that were compelling for her generation of intellectuals the critique of America as materialistic and provincial the demand for native traditions in the arts the modern understanding of the nature of culture and myth and the question of a critic's role in a democracy Rourke's writings demonstrate that America did not suffer as Van Wyck Brooks and others had maintained from a damaging split between high brow and low brow but was rather a rich unified culture in which the arts could thrive Her classic *American Humor* 1931 and her biographies of Lotta Crabtree Davy Crockett Audubon and Charles Sheeler celebrate the American as mythmaker To foster what she called the possession of the national heritage she used an evocative prose style accessible to a wide audience and depicted the frontier in more abstract terms than did other contemporay scholars Her commitment to social reform acquired in her youth and strengthened at Vassar in the Progressive era informed her sense of the function of criticism and guided her political activities in the 1930s Drawing together Rourke's varied discussions of popular heroes comic lore literature and art Rubin illuminates the delicate balances and sometimes contradictory arguments underlying Rourke's description of America's cultural patterns She also analyzes the way Rourke's encounters with the ideas of Van Wyck Brooks Ruth Benedict Jane Harrison Bernard DeVoto and Lewis Mumford shaped her view of America's achievements and possibilities Rourke emerges not simply as a follower of Brooks or as a colleague of DeVoto nor even as an antiquarian or folklorist Rather she assumes her own unique and proper place as a pioneer who more than anyone else of her day boldly and eloquently showed Americans that they had the resources necessary for the future of both art and society By placing Constance Rourke within the framework of a debate about the nature of American culture the author makes a notable contribution to American intellectual history Originally published in 1980 A UNC Press Enduring Edition UNC Press

Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Anglo-American Perceptions of Hellenism Tatiani Rapatzikou,2008-12-18 In this volume an attempt is made to tackle Hellenism as a global and transcultural entity Through an array of essays this book constitutes a comparative study of various literary cultural and artistic trends as these develop throughout the course of the eighteenth nineteenth and twentieth centuries on both sides of the Atlantic Having been designed with the general as well as the specialized reader in mind this book will prove to be a valuable guide to scholars undergraduate and postgraduate students as well as to a broad spectrum of readers with an interest in comparative literature cultural history history of the classical heritage transatlantic studies English and American romantic modernist and postmodernist narratives Its diverse material falls under the umbrella terms of English Hellenisms and American Hellenisms with the intention of enhancing intercultural dialogue and understanding By embracing multivocality as proven by the number of articles it contains this book proves the tenacity diachronic and intercontinental appeal of Hellenism at the era of multiculturalism and globalization

Culture and Anarchy Matthew Arnold,1994-01-01 Culture and Anarchy remains a central text of the Western intellectual tradition articulating many of the issues around which the modern debate about cultural politics revolves the nature of the State the concept of freedom as governed by reason in contrast to untrammelled liberty the place of religion in society the very idea of culture as an inward operation of the mind A measure of the work's permanent influence is the number of current terms first coined in its pages terms such as Philistines Barbarians and the famous definition of culture as the best that has been thought and said Accused in some quarters of cultural elitism Arnold's ideas continue to occupy the foreground of the debate and for this reason the edition includes specially commissioned essays which set the text within contemporary multicultural perspectives

Technological Utopianism in American Culture Howard P. Segal,2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal's acclaimed work on utopian visionaries

American Culture in the 1950s Martin Halliwell,2007-03-13 This book provides a stimulating account of the dominant cultural forms of 1950s America fiction and poetry theatre and performance film and television music and radio and the visual arts Through detailed commentary and focused case studies of influential texts and events from *Invisible Man* to *West Side Story* from Disneyland to the Seattle World's Fair from *Rear Window* to *The Americans* the book examines the way in which modernism and the cold war offer two frames of reference for understanding the trajectory of postwar culture The two core aims of this volume are to chart the changing complexion of American culture in the years following World War II and to provide readers with a critical investigation of the 1950s The book provides an intellectual context for approaching 1950s American culture and considers the historical impact of the decade on recent social and cultural developments

Accented America Joshua L. Miller,2011-04-21 American literary works written in the heyday of

modernism between the 1890s and 1940s were playfully painfully and ambivalently engaged with language politics The immigrant waves of the period fed into writers aesthetic experimentation their works in turn rewired ideas about national identity along with literary form *Accented America* looks at the long history of English Only Americanism the political claim that U S citizens must speak a singular shared American tongue and traces its action in the language workshop that is literature The broadly multi ethnic set of writers brought into conversation here including Gertrude Stein Jean Toomer Henry Roth Nella Larsen John Dos Passos Lionel Trilling Am rico Paredes and Carlos Bulosan reflect the massive demographic shifts taking place during the interwar years These authors share an acute awareness of linguistic standardization while also following the defamiliarizing sway produced by experimentation with invented and improper literary vernaculars Rather than confirming the powerfully seductive subtext of monolingualism that those who speak alike are ethically and politically likeminded multilingual modernists compose literature that speaks to a country of synthetic syntaxes singular hybrids and enduring strangeness

T.S. Eliot and American Poetry Lee Oser, 1998 Written in a fine and lucid prose style T S Eliot and American Poetry presents a critical study of Eliot s major poems as it examines what America means to its poets Eliot s contribution to a poetic dialogue on this subject with Ralph Waldo Emerson Edgar Allan Poe Walt Whitman Hart Crane Robert Lowell John Ashbery and other literary figures plays a significant role in this groundbreaking study Investigating Eliot s literary inheritance through his familial traditions represented particularly by his mother Charlotte Eliot and in terms of the American Renaissance Lee Oser addresses all phases of Eliot s career as a poet Following an introduction that reevaluates the importance of Poe and Whitman for Eliot and modernism the discussion proceeds from Eliot s reaction against the progressive ethos of late Puritan culture to the appearance in his writing of numerous figures of exile and disinheritance as an expression of lost American patrimony to his flight from the realm of history and his eventual return to the spiritual and cultural traditions of New England A final chapter weighs Eliot s impact on Robert Lowell John Ashbery and Elizabeth Bishop Through its dialectical view of American literary and intellectual history T S Eliot and American Poetry constructs a practical methodology for comparing Eliot with other American poets Juxtaposing Eliot s poems lectures and essays including generous excerpts from Eliot s uncollected prose with landmark texts by Emerson Poe Whitman and many others Oser engages in a deeper analysis of Eliot s Americanness than has hitherto been possible In addressing Eliot s treatment of America as symbol and topos the work presents a multifaceted chronicle of Eliot s development that enriches formalist and historicist approaches alike T S Eliot and American Poetry makes numerous original contributions to the field of literary history No previous work has so richly pursued Eliot s literary and familial inheritance as well as his legacy to American poetry the result is a highly nuanced perspective on contemporary debates about poetry criticism and culture

The American Essay in the American Century Ned Stuckey-French, 2011-05-31 In modern culture the essay is often considered an old fashioned unoriginal form of literary styling The word essay brings to mind the uninspired five paragraph theme taught in

schools around the country or the antiquated Edwardian meanderings of English gentlemen rattling on about art and old books. These connotations exist despite the fact that Americans have been reading and enjoying personal essays in popular magazines for decades engaging with a multitude of ideas through this short form means of expression. To defend the essay that misunderstood staple of first year composition courses Ned Stuckey French has written *The American Essay in the American Century*. This book uncovers the buried history of the American personal essay and reveals how it played a significant role in twentieth century cultural history. In the early 1900s writers and critics debated the death of the essay claiming it was too traditional to survive the era's growing commercialism labeling it a bastion of British upper class conventions. Yet in that period the essay blossomed into a cultural force as a new group of writers composed essays that responded to the concerns of America's expanding cosmopolitan readership. These essays would spark the magazine revolution giving a fresh voice to the ascendant middle class of the young century. With extensive research and a cultural context Stuckey French describes the many reasons essays grew in appeal and importance for Americans. He also explores the rise of E. B. White considered by many the greatest American essayist of the first half of the twentieth century whose prowess was overshadowed by his success in other fields of writing. White's work introduced a new voice creating an American essay that melded seriousness and political resolve with humor and self deprecation. This book is one of the first to consider and reflect on the contributions of E. B. White to the personal essay tradition and American culture more generally. *The American Essay in the American Century* is a compelling highly readable book that illuminates the history of a secretly beloved literary genre. A work that will appeal to fiction readers scholars and students alike this book offers fundamental insight into modern American literary history and the intersections of literature culture and class through the personal essay. This thoroughly researched volume dismisses once and for all the death of the essay proving that the essay will remain relevant for a very long time to come.

[Portrait of America](#) Jerrold Hirsch, 2004-07-21 How well do we know our country? Whom do we include when we use the word American? These are not just contemporary issues but recurring questions Americans have asked themselves throughout their history and questions that were addressed when in 1935 the Roosevelt administration created the Federal Writers Project (FWP) under the aegis of the Works Progress Administration. Although the immediate context of the FWP was work relief national FWP officials developed programs that spoke to much larger and longer standing debates over the nature of American identity and culture and the very definition of who was an American. Hirsch reviews the founding of the FWP and the significance of its American Guide series considering the choices made by administrators who wanted to celebrate diversity as a positive aspect of American cultural identity. In his exploration of the FWP's other writings Hirsch discusses the project's pioneering use of oral history in interviews with ordinary southerners ex slaves ethnic minorities and industrial workers. He also examines congressional critics of the FWP vision the occasional opposition of local Federal Writers especially in the South and how the FWP's vision changed in response to the challenge of

World War II In the course of this study Hirsch raises thought provoking questions about the relationships between diversity and unity government and culture and ultimately culture and democracy *Intellectual Property Law and History* Steven Wilf, 2017-07-05 Intellectual property has become a dominant feature of our knowledge based economy in recent years but how has property rights in intangible items developed This book brings together for the first time exemplary scholarship with diverse approaches to the history of United States intellectual property protection including trade secrets trademark copyright and patent law These articles written by leading experts in the field and often challenging conventional narratives underscore the importance of historical perspectives for understanding how an extensive evolving framework for the regulation of knowledge emerged in the modern period By tracing intellectual property from an historical perspective not merely providing justifications in philosophy or economics in the abstract this book draws upon the past to address contemporary debates over such varied topics as access to knowledge policing copyright infringement whether employees should own the products of their minds the role of national borders in an age of digital information and the very future of intellectual property as stakeholders and consumers contest the extent of its legal protection *The Function of Cynicism at the Present Time* Helen Small, 2020-06-30 Cynicism is usually seen as a provocative mode of dissent from conventional moral thought casting doubt on the motives that guide right conduct When critics today complain that it is ubiquitous but lacks the serious bite of classical Cynicism they express concern that it can now only be corrosively negative The Function of Cynicism at the Present Time takes a more balanced view Re evaluating the role of cynicism in literature cultural criticism and philosophy from 1840 to the present it treats cynic confrontationalism as a widely employed credibility check on the promotion of moral ideals with roots in human psychology Helen Small investigates how writers have engaged with Cynic traditions of thought and later more gestural styles of cynicism to re calibrate dominant moral values judgements of taste and political agreements The argument develops through a series of cynic challenges to accepted moral thinking Friedrich Nietzsche on morality Thomas Carlyle v J S Mill on the permissible limits of moral provocation Arnold on the freedom of criticism George Eliot and Ford Madox Ford on cosmopolitanism Bertrand Russell John Dewey and Laura Kipnis on the conditions of work in the university The Function of Cynicism treats topics of present day public concern abrasive styles of public argument debasing challenges to conventional morality free speech moral controversialism the authority of reason and the limits of that authority nationalism and resistance to nationalism and liberty of expression as a core principle of the university *Nineteenth Century Prose*, 2007 **Observing America** Robert Frankel, 2007-01-05 Beginning with Alexis de Tocqueville and Frances Trollope visitors to America have written some of the most penetrating and occasionally scathing commentaries on U S politics and culture Observing America focuses on four of the most insightful British commentators on America between 1890 and 1950 The colorful journalist W T Stead championed Anglo American unity while plunging into reform efforts in Chicago The versatile writer H G Wells fiercely criticized capitalist America but found reason for hope in the

administrations of Theodore Roosevelt and Franklin Roosevelt G K Chesterton one of England's great men of letters urged Americans to preserve the vestiges of Jeffersonian democracy that he still discerned in the small towns of the heartland And the influential political theorist and activist Harold Laski assailed the business ethos that he believed dominated the nation especially after Franklin Roosevelt's death Robert Frankel examines the New World experiences of these commentators and the books they wrote about America He also probes similar writings by other prominent observers from the British Isles including Beatrice Webb Rudyard Kipling and George Bernard Shaw The result is a book that offers keen insights into America's national identity in a time of vast political and cultural change **British Comment on the United States** Ada B. Nisbet, 2001-06-07 This bibliography of more than three thousand entries often extensively annotated lists books and pamphlets that illuminate evolving British views on the United States during a period of great change on both sides of the Atlantic Subjects addressed in various decades include slavery and abolitionism women's rights the Civil War organized labor economic cultural and social behavior political and religious movements and the American character in general

Matthew Arnold And American Culture: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Matthew Arnold And American Culture : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Matthew Arnold And American Culture : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
